

Dollars saved by Bovril

Bovril used in the Kitchen means dollars saved in the Bank. It makes nourishing hot dishes out of cold food which would not otherwise be eaten. But see that you get the real thing. If it is not in the Bovril bottle it is not Bovril. And it must be Bovril.

Light, wholesome flaky pie-crust—

for the toothsome green apple or pumpkin filling is obtained by using the right proportions of other ingredients mixed with Diamond Flour. Let any woman who has had trouble with her pie-crust, just give Diamond Flour a trial, and it will be strange if she is not pleased with the improvement it will make. There is no secret about it. Diamond Flour is a well-proportioned blend of the choicest Ontario soft wheat and Manitoba hard wheat, and grandmother will tell you there is nothing better for making mouth-watering pastry; yes, and bread and biscuits, too.

TUESDAY

LARGE FUNERAL.—A large number of people attended the funeral of Mr. Richard Doyle, Tuesday, who died March 12th at the advanced age of 75. Mr. Doyle was one of the oldest settlers of this part of the Island, and was much respected by all who knew him. Death was caused by bronchitis, he leaves to mourn seven children, Peter, Rebecca, Eleanor, John, James, William and Annie. He was predeceased by his wife a few weeks ago.—Z.

LETTERS FROM ENGLAND.—Russell Myers and Charlie Myers of Southport, the children of Gunner G. H. Myers, now in Horsham, England, have each received interesting letters from their father telling of the life he is now leading in England and of his recovery from his recent illness. The letters are in answer to those sent by the children which were very much appreciated by their father who gave up so much to don the King's Uniform.

SERIOUS ACCIDENT.—Private Harold Coughlin of the 105th Regiment, stationed in Charlottetown, while on a short furlough to his mother in Danley had the misfortune, while splitting kindling wood on the 16th inst., to cut off the first finger of his right hand. Owing to the storm it was impossible to get a doctor by team so the young man pluckily tramped four miles through a raging storm to have the injured hand dressed. It is pleasing to note that under the skillful treatment of Dr. James Kier the young man is getting along nicely.—D.

ENJOYABLE EVENING.—A most enjoyable evening was spent in the rooms of the Dalmeny L. O. L., Dundas, on Monday, March 6th. Here the members and a large number of invited guests assembled to do honor to the members and their friends from that vicinity now training in the 105th Battalion, viz., Stuart McLaren, John A. Matheson, Sam A. Nicholson, John M. McDonald, Moody Acorn, Reuben Acorn, Earl Jenkins and Milfred Cantello, Under Brother James McDonald as chairman. An excellent musical program was rendered by G. A. Clay, Rev. R. N. Rand, H. McLeod, M. Livingston and W. Nicholson. A duet by G. A. Clay and W. Nicholson is worthy of special mention. Miss Marion McLeod was the accompanist of the evening. Addresses were given by Rev. Wm. McLeod, Rev. R. N. Rand and G. A. Clay, after which all did ample justice to a splendid repast served by the ladies present. Then followed games, etc., also what, so to speak, "brought the house down"—an exhibition of step-dancing by Master George McDonald. The last on the program was the reading of an address by Bro. John Beaton to the guests of honor. This was responded to on behalf of the soldiers by Pte. John A. Matheson. After the singing of "God Save the King" the people departed feeling that they had spent an evening long to be remembered.

HOW I CURED MY EYES

This Free Prescription Did It.

"My eyes were in a terrible state; I could hardly stand it. They were red and inflamed, they itched and burned and caused incessant headaches. I could hardly read at all. After wearing my glasses my eyes felt strained and overworked. By chance I met a man whose eyes had bothered him the same way. He gave me the following prescription, which he said had cured him, and had enabled him to discard his glasses: 5 grains of Bon-Opto in 1/2 glass of water. Use as an eye-bath by means of an eye-cup, three or four times daily—often if convenient. This healing, cooling, soothing lotion does not smart or burn, and is absolutely harmless. Your druggist can fill this prescription, or the Valmas Drug Co. of Toronto can fill it for you by mail. If you are not sure you will be just as enthusiastic over it as I am. Cut this out, and you will always have the prescription."

Handerson, who will represent Dalhousie University in the debate with Mr. Allison, which takes place in Halifax today. Dalhousians confidently expect them to maintain the prestige which their university has already won on the debating platform. The proposition to be debated is:—"Resolved, that the United States should have entered the war on behalf of the Allies."

SLEIGH DRIVE.—On Monday last a very enjoyable evening was spent at the home of Mr. and Mrs. Ambrose Mellett, Union Road. The unlucky number of thirteen young people started from the residence of Mr. A. H. Wise, Euston St. in three sleighs. The merry troupe after going a short distance on the St. Peter's Road, were somewhat surprised to find that the crew of one of the sleighs took "cold feet and turned home. The remaining nine completed the journey arriving in the city in the wee sma, hours of the morning reporting the roads to be in a rather poor condition for joy driving.

ACCIDENT.—During the severest part of Wednesday's snow storm which passed over this section of the country, Dr. McBride was called out to attend Mr. Elmar Coston of Mimmigash, who had broken his arm. Mr. John Bernard and the doctor bravely undertook to make the trip, but owing to the severeness of the storm and the bad roads, could not reach there and were obliged to turn back. The following day after the storm had subsided somewhat, Prof. Rochford succeeded in driving the doctor to the home of Mr. Coston, when the broken bone was immediately attended to.—Z.

P. E. I. CLANNISHNESS.—You appear to be getting a lot of P. E. Islanders, remarked the Evening News to Col. Potter. "Yes," said the genial Recruiting Officer. "Those P. E. I. boys are great stuff. A peculiar thing about them is the fact that they all about make the trip, but owing to the severeness of the storm and the bad roads, could not reach there and were obliged to turn back. There was a very large attendance and a splendid time was enjoyed by all. A short programme was rendered, consisting of readings by Miss Elsie Agnew, Miss Edna Gordon and Mr. D. Edgar Shaw and solos by Mr. Arthur Bruce and Master Thomas Coleman. After the programme a number of games and contests were carried through very successfully in which prizes were awarded. Among the guests were quite a number of the officers of the 105th Regiment. The evening was voted an unqualified success, in appreciation of which fact and in honour of the hostess the guests united before leaving in singing "For She's a Jolly Good Fellow."

Britain's Greatest Remedy

The Gold Dust Twins' Philosophy

THE floors and doors appear to wait until the dust germs congregate; the housewife hails each dawning day with grim and harrowing dismay. Says she: "My work will NEVER end; o'er dusty stretches I must bend, until, with aching back and hands I finish what the day demands."

Then Mrs. Jones, one afternoon, dropped in, at time most opportune. An optimist, she knew the wiles of household work—its sighs and smiles. She told of how she polished floors and woodwork and the endless doors, until when Hubby saw them, too, reflections said: "Why, bowdy-do!"

"The Gold Dust Twins," said she, "I find, help leave the woes of dust behind. Each mark of sticky hands on doors, each tread of muddy feet on floors, all fade before the slightest touch of Gold Dust, and the work is such that, when the woodwork has been done, I find said work was only fun." This line of reasoning must show that those who've tried it OUGHT to know. If you, in one day's duties, find that there's a Grouch in every Grind, invite the Gold Dust Twins to share such tasks as fire and fret and wear.

From kitchen floor to bedroom suite, these tireless little chaps make neat, and best of all, the sum expense is measured up in meager cents. They put both dust and dirt to rout and run the last old microbes out.
