2,000 GREEKS RETURN TO PEACEFUL ACTIVITY.

Many returned to resume in America careers which they had abandoned to fight the Turks and Bulgars. One of them, Charabos Stathis, gave up a prosperous real estate business in Winnipeg to serve in the Greek army as a private. He comes back with the rank of sergeant.

FOX ITEMS.—There can be no doubt about it, outside capital is being sucked in slowly attracted to the fox industry of this island; in proof of which it may be stated that in addition to the many and increasing inquiries about the business, commissions of a substantial nature are coming in for fox investments. Thursday, for example, one of the city exchanges received a commission from the Old Country—in fact, from Glasgow, Scotland, for an investment in fox shares in a tidy sum, while another correspondent wanted some information preparatory to investing to some extent.

Thin Blood is Poison To the Nerve Centres

Headaches, Irritability, Sleeplessness, Discouragement Result—Dr. Chase's Nerve Food the Great Restorative.

A nervous temperament may be inherited, but nervous troubles only come when the nerve centres fail to derive proper nourishment from the blood. Under ordinary circumstances the loss caused by wear and tear on the nervous system is restored by the nutrition contained in the blood. When the blood gets thin and watery the nerves are starved and poisoned, and troubles of a serious nature appear. Brain fag, headaches, sleeplessness, irritability, low spirits, and discouragement are among the symptoms of a starved nervous system. There is nothing like Dr. Chase's Nerve Food as a means of forming new, rich blood. Through the blood stream nutrition is carried direct to the nerve centres.

Every heat of the heart, every breath of the lungs, and all the functions of digestive and other vital organs are dependent for life and energy on the nervous system. Consequently the whole system is benefited when health and vigor are restored to the nerve centres. The nerves of the stomach resume their functions and digestion is improved. The appetite sharpens, the liver, kidneys, and bowels gain strength, and the blood derives further nourishment from the blood vessel into the body. Dr. Chase's Nerve Food is reconstructive and upbuilding in its influence, and therefore of lasting benefit. Fifty cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

STOP

Tea and Coffee Drinkers, And think a minute!

Some persons seem able, for a time at least, to get along with tea and coffee, but they contain a subtle, habit-forming drug, caffeine, which sooner or later is pretty sure to rob one of health and comfort.

If you know tea and coffee don't harm you—if you feel prime and fit under their continued use, well and good—stick to 'em.

But—if you are sometimes a bit "off color," and irritable nerves, disturbed heart action, biliousness, headache, or symptoms of liver or kidney trouble make you wonder what's the matter—

Better find out what tea or coffee has to do with it.

Some people are learning the truth about tea and coffee, for there's a mighty army of former tea and coffee drinkers who now use

POSTUM

and enjoy freedom from their old aches and pains. Postum, made of whole wheat and a bit of molasses, is a delicious table beverage absolutely free from the drugs, caffeine and tannin, which make tea and coffee a menace to health.

If you are interested in bettering yourself—Think it over!

Postum now comes in two forms. Regular Postum—must be well boiled. 15c and 25c packages. Instant Postum—a soluble powder, requires no boiling. 30c and 50c tins. The cost per cup of both kinds is about the same.

"There's a Reason" for Postum
