

For 12 Days Only Shares Carrying a 20 per cent Guaranteed Dividend are Selling at 95c Each

A "Ground Floor" Investment---Ltd. Amount of Stock on the Market

Island Pelts Bring the Highest Prices

In spite of the "World-War" and the fact that the European markets are practically cut off, Silver Black Fox Pelts are bringing big prices, and Prince Edward Island skins head the whole list.

An enquiry addressed to Messrs Funsten Bros. & Co., St. Louis brought the following reply.

"In response to your letter of April 6th, 1916, will say that Fox Pelt No. 43 sold for One Thousand Five Hundred Dollars (\$1,500.00) in our recent March Sales, was a Prince Edward Island Fox."

This is not supposition, but clear, cold, convincing proof, and gives some slight idea of what may be realized by efficiently managed companies with low capitalization like the Security Company.

AT LAST---A company on a strong, business-like basis, with the highest quality of stock procurable and the lowest possible capitalization---a Company organized with the object of paying big dividends on a pelt basis, and bigger dividends on a breeding stock basis.

This is a "Ground floor" proposition that will be offered at present price for 12 days only.

Every share of Stock is backed by a 20 p. c. guaranteed dividend with the money in the bank now to pay every cent of it.

Not a feature has been overlooked---not a factor lost sight of---every phase has been carefully considered. It is the strongest, cleanest, most attractive proposition yet advertised in this paper.

There is but a limited quantity of the stock offered for public subscription---and this allotment is offered for 12 days only.

Make application for the amount you want at once. Don't subscribe for more or less than you can conveniently take care of; but don't let this opportunity get away from you.

Shares carrying a 20 p. c. guaranteed cash dividend selling for a short time only at 95c.

Big Dividends Should be Paid this Year

While many Fox Companies have paid cash dividends last year the majority of them placed their production back in the ranches in order to reduce the capitalization, so that they could pay good dividends on a pelt basis. This was a commendable course to take, and as a result, commencing with the present year liberal cash dividends should be paid by competently managed Companies and the industry will be thereby placed upon a stable and permanent basis.

In the meantime it is the investor who secures stock in a good Company while the price is right, is the one who is going to clear up the most money.

The opportune time is NOW---the Company is SECURITY.

"Get in" Before the Price of Shares Soar---

The Opportunity to Invest is while Prices are Right---The Company is the Security Silver Black Foxes Ltd.

Security Com'y. Shares are on the Market for a Few Days Only

Shares in the Security Company with the guaranteed cash dividend will be offered for a few days only. This offer will positively be withdrawn from Guardian readers Saturday, May 27th. You must act now if you want to become a shareholder in this progressive, lowly capitalized Company with the highest quality of stock procurable. Never was there offered through the columns of this paper the equal of this stock at the capitalization of the Security Company---never were the assurances of permanent future earnings better---brighter---surer.

If you want to double and triple the earning power of your money send in your application at once for shares in the Security Company or send for prospectus by return mail.

The present of all years since the inception of the Fox Industry is the time to invest in the business, when the prices are the lowest of the low on the highest quality pedigreed stock---when an absolute guarantee cash dividend of 20 p. c. cash is offered. Could anything be surer---could anything be safer?

When the price is the highest is not the time to buy. The reason the pioneers have accumulated such fabulous wealth is because they became interested in the industry when the prices were low. This is the small investor's chance. The opportunity to buy right is here. Never would your money go further in a good legitimate investment proposition than it will go right now in the Security Company with its Guaranteed Cash Dividend.

Only a Small Amount of Stock Offered--

The Security Company was organized primarily with the object of being a close corporation for the Directors and a few of their personal friends. That is why the Capitalization is so low. That is why there are so many attractive features connected with the proposition.

It was realized later that by adding a few extra foxes to the Company the law of average could be more accurately estimated and the proposition would be more attractive to all concerned.

This is the only reason that you can now procure stock at the present price. It is for you to act without delay if you wish to become a shareholder in the most promising money-earning proposition that has yet been placed on the market.

Buy While Prices are Low and Take Advantage of Advances ---This is Your Opportunity

The shrewd financier buys when prices are at rock bottom, and sells (if he sells at all) when prices reach the highest point. This is the principle that has made millions for men, and a principle that applies effectively right now. After shares in the Security Company have advanced from 95c to 1.50, 2.00, 3.00 or 5.00 is not the right time to buy, but the right time is right now while shares may be procured at 95c---while the price is at "rock bottom," and be in a position to benefit by any advances in price. The directors are so confident that the Security Company will be a big dividend-earning proposition that they intend to retain a large block of stock and to sell only sufficient to conveniently finance the Company.

The Directors Are:

J. LeRoy Holman, Merchant,
President and Treasurer

H. T. Holman, Merchant,
Vice President
