HALIFAX, Feb. 5.—(Special).—The steamer Pretorian arrived this p. m. from Liverpool with 41 passengers.

The steerage passengers were as fine a looking crowd of immigrants as have arrived for a long time.

The Red Cross line steamer Rosalind brought a Chinaman here from Newfoundland in bond. The company were led to believe that he was going to China but in Halifax John made his escape and

has not been seen since Friday. He was traced to the railway station where he bought a ticket for Sydney, but it is believed that was only a blind and it is thought he got away to Montreal.

The steamship is liable for \$500, the amount of duty and a \$1000 fine if the Chinaman is not recovered.

DAMAGED ENGINE BROUGHT TO CITY

For the first time since Tuesday last the people of Souris saw a railway train at their station yesterday forenoon about ten o'clock when the line was opened after the big storm of Wednesday and Thursday.

The delay on the Souris line was owing to No. 28 engine which had been derailed near New Zealand on Friday morning and which the trainmen had not succeeded in again getting on the track till about five o'clock Saturday.

The funeral of the late Mrs. John F. Baker took place yesterday afternoon from her late residence to Cross Roads, Lot 48, Cemetery. Despite the disagreeable day there was a large attendance many joining the funeral procession at Southport.

RUSSIA WILL BUILD MORE SHIPS

St. PETERSBURG, Feb. 4.—The Admiralty, having definitely committed itself to the policy of rebuilding and greatly increasing the size of the navy, although the detailed programme has not yet been completed, is already being besieged by foreign firms anxious to secure contracts.

These firms are having little success however, as only a single French firm has thus far obtained a contract for a large ship. Several other contracts may be awarded; but the Admiralty has decided, instead of placing contracts abroad, to attract foreign capital to Russia for the erection of new yards with the general purpose of encouraging and creating a vast ship-building industry at home, which eventually will render the complete independence of the country to foreign builders.

In this matter the Admiralty is displaying a friendly disposition towards the United States and there is reason to believe that the admiralty has received an offer from American capitalists who are willing to embark in the enterprise, on condition of obtaining a sufficiently liberal contract.

It was supposed that Eales was riding on a freight train to his home and either went to sleep or became benumbed from intense cold and slipped beneath the trucks. He was 22 year old and son of Frank Eales, St. Croix.

MOCK PARLIAMENT.—Mock Parliament meets tonight at 8 o'clock in the Y.M.C.A. All interested are invited to attend.

A good crossing was made from Cape Traverse to Cape Tormentine yesterday. There was no crossing to the Island from the mainland.

It is expected that the Legislature when it meets will sit only for a brief time, declare the St. Peter's seat vacant, order a new election and then adjourn for some weeks.

THE Rev. Mr. Woodroffe, St. Paul's Church preached an earnest sermon last evening from the 21st. chap. of Revelation and part of 5th Verse "Behold I make all things new." During the sermon the Reverend gentleman referred briefly to the spirit of Revival and the dawn of brighter days for the church and the people of God. We must be ready for this newness of life, this awakening when it comes to the church.

A VALUABLE turkey, dead, is at the Police Station awaiting identification. It was taken to the Station on Saturday night from the house of Frank Gornley, King street, by Sergeant Bradley, on the ground that it was probably stolen property. Gornley himself was arrested later in the evening for drunkenness.

Edward Murphy and Wm McCabe, a few days ago released from jail, are also awaiting trial this morning, charged with breaking into Cronin's barroom on Dorchester street.

"Resolved that the G. T. Railway will benefit Canada" was the subject for the thirteenth debate of the C. B. C. Debating Society. Considerable animation was displayed on both sides. Mr. Clarke in a lengthy and well delivered address upheld the affirmative and was supported by Messrs. Wright and Doyle. The negative was maintained by Mr. Gallant and Messrs. C. Trainor and Eden were his supporters.

After a lengthy discussion the ballot was taken which resulted as follows: Affirmative 55, negative 19. It was very gratifying to have the many visitors present and Mr. Moore of the Union Commercial, and Mr. Bowlen of P. W. C. to take part in the discussion, doing credit to themselves and justice to the subject. Owing to the absence of the President, the chair was occupied by A. Gaudet.

SUDDEN DEATH OF HECTOR C. McMILLAN

It is with a feeling of deep regret that the Guardian this morning announces the sudden death of Hector C. McMILLAN, Government Engineer, which sad event took place about eight o'clock last night at his home in this city.

Mr. McMILLAN had been about in his usual health during the week and did not complain of illness yesterday. After tea last night he lay down to read and a short time later complained of a pain in the region of his heart. Mrs. McMILLAN hastily summoned Dr. Jenkins but a few minutes after he arrived Mr. McMILLAN passed away.

To many in all parts of the province the news of the demise of H. C. McMILLAN will be learned with more than ordinary sorrow. In the work of his office, as inspector of public works throughout the province he was during the past ten or twelve years brought in touch with hundreds of whom he won the respect and esteem by his uniform courtesy and good nature in the discharge of his duty. Of the genial Scottish disposition which won friends wherever it is found he brought to his official duties thorough knowledge of the requirements of the ability to conduct the business of his department in such a way that it was satisfactory both to political friends and opponents.

Besides Mrs. McMILLAN and one sister, Mrs. J. D. McLeod of this city, there is left to mourn a family of three sons and three daughters. The daughters are Mrs. Bigelow, Norfolk, R. I., Mrs. J. D. McMILLAN and Miss Christina in this city and the sons, Cyrus J., late professor of English in Prince of Wales College and now studying in Harvard University, James, Secretary to the Water Works Commission in this city, and Hector who is attending West Mount School. They will have the heartfelt sympathy of the entire community in which The Guardian sincerely joins.

FATAL HOTEL FIRE AT PICTOU

Mary McEachern Perished in the Flames—Proprietor N. Doherty Badly Burned in Saving His Son—Frozen Hydrants Delayed the Firemen's Work.

HALIFAX, Feb. 5.—(Special).—Mary McEachern, a domestic employed in the Revere Hotel, Pictou, was burned to death on Saturday in a conflagration which totally destroyed that building. The McEachern woman was in an upper room with a fellow worker when fire was discovered. The stairs were in flames and escape by that means was cut off.

Her companion jumped to the ground and was saved, but Miss McEachern hesitated, fell back from the window into the

room and perished. Her charred body was found in the ruins some time afterwards. The firemen in responding to the alarm found the hydrants frozen and there was great delay in getting on a stream of water. The proprietor N. Doherty was badly burned in saving his son from the flames. At one time the whole block east of the hotel was in great danger. The building was insured for \$9,500.
