WAR REPARATIONS ENDED BY TREATY

EFFORTS TO SALVAGE SUB. UNSUCCESSFUL

CHERBOURG, France, July 8.—(A.P.)—Strong currents and a rising tide halted efforts to salvage the sunken French submarine Promethee today and small harbor craft, unacquainted for their heavy draft, sought shelter in the harbor. Early in the morning they will lead chains and cables and heavy lines and steam out again to the spot, seven miles off Cape Lev, where the Promethee lies in 40 fathoms.

It was hoped that some time in the forenoon the Italian salvage ship Artiglio II and her sister ship the Rosio, would be there to help. The naval authorities asked for their assistance today and the Artiglio II started immediately from Brest. The Rosio headed for Cherbourg from Havre where she was refueling.

The location of the Promethee was clearly marked, the nature and strength of the currents in the vicinity have been fully determined, and everything was ready to proceed with the work of rescue tomorrow, naval officials said. They warned that the difficulties were great.

A special deep-sea diving apparatus was used.

Lausanne Conference Comes To A Successful Conclusion. Germany Will Pay No More Reparations, But Will Guarantee A Bond Issue To Aid In The Economic Reconstruction Of Europe.

LAUSANNE, July 8.—(Canadian Press Cable)—German war reparations will be ended by a treaty to be signed tomorrow, bringing to a close the arduous labors of the Lausanne conference on reparations and debts.

Agreement was finally effected today through the unwavering efforts of Prime Minister Ramsay MacDonald of Great Britain, who through days of disappointing deadlocks never gave up hope of bringing the chief parties, France and Germany, to an accord.

The treaty, which will be signed by Great Britain, France, Germany, Italy, Belgium and Japan will drop the reparations annuities which under the Young Plan were to have run on for another 55 years, at a total figure of around 25 billion dollars.

For the reparations annuities will be substituted a German final liability of about \$750,000,000. This will be a bond issue to be put out when Germany's credit position permits. It will not be capitalized for at least three years; if it is not issued within 15 years the final liability, too, will be dropped. The price of the bond issue will be 90, so that the ultimate German sum will be 2,700,000,000 gold marks, or \$675,000,000.

Wiping the reparations slate clean, as it does, the treaty in itself is naturally of tremendous importance. Yet it is only a step to-

MEDICAL MEN IN ANNUAL MEETING

Association Members Have Very Profitable Discussion—Dr. G. L. Smith Is New President.

The annual meeting of Prince Edward Island Medical Society was held in the Town Hall of Summerside yesterday in morning and afternoon sessions. The president, Dr. J. A. Johnston, Tignish, was in the chair. The following doctors were present: Drs. H. D. Johnson, Dewar, MacMillan, Champion, Seaman, MacPhee, Jardine, Gillis, Gallant, Houston, Delaney, Smith, A. Murdoch, R. Murdoch, Archibald, Giddings, Sinclair, Martin, Soper, McGulgan, McKenna, McNeill, Tanton, Simpson, Goodwill, McLaughlin, Farmer and McKenzie.

Visiting doctors were Drs. R. D. Rudolf and J. W. Ross of Toronto, C. W. Holland, of Halifax.

To Sue Wealthy Uncle

ACCUSES MOVIE MAGNATE

Mrs. Alice Fox, shown with her two children, Anne Carol, 4, and William, 6, who on June 30 charged her brother in law, William Fox, into a Hartford, Conn., sanitarium to keep him from using the family name in a film venture. Mrs. Fox petitioned the supreme court in New York to appoint her guardian ad litem for her two children, so that she might sue their wealthy uncle on their behalf for \$250,000 "to save them from becoming public charges."

Fliers Make A Forced Landing

Round-The-World Flight Abandoned When Plane Cracks Up Over Polish-Russian Border.

(By Stanley P. Richardson, Associated Press Staff Correspondent)

MOSCOW, July 8.—(A.P.)—The globe-circling adventure of James Mattern and Bennett Griffin, which started in New York with a blaze of speed, has come to an abrupt end in Western Russia with only one third of the flight behind them.

The world learned today the pair had cracked up their racy monoplane just over the Polish-Russian border, 500 miles east of Berlin.

Neither of the men was seriously injured in a forced landing near Borisov, Russia, 90 miles from Minsk yesterday morning, word of the mishap came out today.

Their "Century of Progress" was believed to have developed control trouble. The pilots probably mistook the lights of Borisov for Moscow, and circled for an emergency landing.

The end came in a pea-soup fog, the most likely place they could find to set the ship down in, and she cracked up in the soft surface.

The plane was too badly damaged to proceed, and both men were slightly hurt, so they went to Minsk yesterday and spent the night in a hotel.

Then they returned to Borisov today to find out if the ship could be repaired and flown out. If this can not be done, they will salvage as much as possible.

The fliers' luggage was left at Minsk, so they will return there before coming to Moscow. But time of departure for the capital was uncertain since they could not be reached by phone at Borisov.

Mattern and Griffin were obviously disappointed at their failure to beat the record around the world of eight days, 15 hours and 51 minutes, set by Wiley Post and Harold Gatty last year.

The fliers would have covered 5,000 miles of the 15,000 around the globe if they had reached the Soviet capital, but they fell more than 400 miles of the one third mark.

They left New York Tuesday at 5.01 a. m., E.S.T., and after a stop at Harbor Grace flew to Berlin in the elapsed time of about 31 and one-third hours. This was nearly three hours ahead of the Post and Gatty time at Berlin.

The Mattern-Griffin team nevertheless established three records for other fliers to shoot at. They were the first to reach Berlin non-stop from North America, they crossed the ocean in less than 11 hours; and they established a flight record from New York to Berlin.

Apparently the fliers' injuries were superficial, but it was understood Mattern was the more seriously hurt, although the nature of his hurts was not known.

Fire Threatens Business Section

MARIETTA, O., July 8.—Fire threatened the business section of Marietta early tonight with indications that damage would approximate \$1,000,000. Seven firemen were injured slightly.

The four-story building of the Union Hardware Company, where the blaze started, was the first structure destroyed. Company officials placed their loss at \$300,000.

The flames spread quickly to the Hoss-Chevrolet Company's sales rooms and later menaced several other buildings.

Firemen from nearby towns, including Parkersburg, W. Va., aided in fighting the blaze.

Province Seeks Better Trade Relations

QUEBEC, July 8.—When the Imperial Economic Conference opens at Ottawa it will have before it an official note from the Quebec Government dealing with better relations which the province seeks in Empire trade, particularly with Great Britain.

The questions to be taken up by the conference will be a request by the province for the lifting of the embargo which the Old Country has at present on the importation of potatoes from the Dominion.

The Lands and Forests Department will seek the inauguration of a quota system by Great Britain whereby Canadian lumber will receive preferential treatment, so that this Dominion may be in a position to meet Soviet competition. The Provincial Mines Department will urge a lower tariff on the importation of copper, graphite and mica from the province. The provincial government's attitude on these questions will be presented by Premier L. A. Taschereau.

Jap Fishermen Imprisoned Is Report

TOKYO, July 8.—(Friday)—(A.P.)—A report that Soviet authorities had imprisoned 400 Japanese fishermen employed at a Russian crab-canning plant of Puchichi Island, off the west coast of Kamchatka, was reported to have been received by the Bureau of Fisheries here today.

The newspaper Asahi, which published the report, said the Bureau had ordered the Japanese patrol boat Shunkotsu Maru, cruising nearby, to proceed to the island, obtain release of the prisoners and investigate the incident, the reasons for which were not given.

Backing Of Pres. Hoover Sought For Moratorium

WASHINGTON, July 8.—(A.P.)—Chairman T. V. O'Connor of the United States Shipping Board, told newspapermen at the White House today he had sought the backing of President Hoover for a moratorium on the repayment of loans to shipping lines from the board's \$250,000,000 revolving fund.

Immediately afterwards, Frank Munson, President of the Munson line, conferred with the President. It was understood unofficially that the loans to shipping interests range upward of \$150,000,000.

Bessborough Will Open Conference

OTTAWA, July 8.—(By the Canadian Press)—Canada's Governor General will open the Imperial Economic Conference in Ottawa on Thursday, July 21, it was learned on high authority today. The Earl of Bessborough is at present in residence in Quebec City; but will be back in the capital within the next two weeks of the parley.

Arrangements for the opening are well advanced with certain details to be completed. The main, third, fourth and fifth floors of the Parliament buildings where discussions will take place, will afford office accommodation for the Empire delegates; and this plan is near completion. Representatives of each country will be given office facilities as close together as possible. Cabinet council continues to give its concentrated attention to pre-

BANDIT TAKES OWN LIFE

KELVINGTON, Sask., July 8.—(By The Canadian Press)—William Miller, one of three bandits sought by a police farmer posse, shot himself to death near here today rather than submit to arrest. He was wanted for the murder three days ago of Corporal Leonard V. Ralls of the Royal Canadian Mounted Police.

Miller's companions, William and Mike Kurukla, brothers, were under arrest here. The former was found asleep today on a farm near here, exhausted after three days of frantic racing away from pursuing police. Mike was arrested yesterday as he tended three horses the bandits stole from another farmer.

Said by police to be the most desperate of the trio, Miller several times exchanged shots with the posse yesterday and today before he finally was trapped in ambush near Warner Lake, 13 miles north-east of here. The posse closed in around him, waging a gun duel at intervals with the trapped fugitive.

Late this afternoon the police raided the bush where they supposed Miller stood to be on guard and found him dead.

Case Will Go To Supreme Court

TRENTON, N. J., July 8.—Counsel for John Hughes Curtis, Norfolk shipbuilder, began formal action today to set aside his conviction on charges of obstructing the search for the kidnapers of the Lindbergh baby.

With Curtis in jail at Flemington awaiting sentence Monday, his counsel, Ryman Herr, obtained a writ of error in the Supreme Court—a formality discharged by the court clerk.

Immediately after County Judge Adam O. Robbins sentences Curtis, the writ will be presented for his signature. Sentence will be stayed and the case will automatically be thrown into the Supreme Court.

Results Will Not Be Made Public

MONTREAL, July 8.—(By the Canadian Press)—Results of the discussions between British and Canadian steel industrialists will not be made public but will be incorporated in reports to the British and Canadian governments for consideration at the Imperial Conference, according to a joint statement issued today.

An endeavor is now being made, today's statement said, to prepare reports on points of agreement and it is expected the documents will be ready some time next week.

No indication was given today as to the success the parties have had in establishing a programme to promote greater intra-Empire trade in steel and its products. Although the widespread interest in the negotiations is recognized, the statement says: "It must be remembered that the two groups of industrialists are endeavoring to reach a statement of their points of agreement. A document representing the views of the Canadian and United Kingdom iron and steel industries will then be made available to the Canadian and British Governments for use in connection with the proceedings at the Imperial Economic Conference at Ottawa."

Next week some of the party expect to visit steel mills in Toronto and Hamilton before the final reports are completed. The conference has been under way for some 10 days and the majority of steel

Strange Insect Appears In Que. Fields

QUEBEC, July 8.—An insect heretofore unknown in these parts has made its appearance in potato patches in the Province, particularly in lower Quebec. The insect, a species of bug, sucks the potato leaves, and while they have not yet reached the past stage, the bugs are fairly numerous. Specimens of the insect have been sent to the Provincial and Federal Departments of Agriculture by Federal Inspector Baribeau, who recommends that growers spray their plants with sulphate of nicotine, mixed with tobacco juice, as a means of combating them.

WASHINGTON, July 8.—(A.P.)—Without the formality of a record vote, the United States Senate today unanimously consented to place on its calendar for future consideration a constitutional amendment to substitute state liquor control for the 18th amendment.

firms in both Canada and British have been represented. A. J. Grant is chairman of the British group and Ross McMaster of the Canadian.
