

The Young Man's Method of Creating an Estate

THE first step towards success which farsighted young men are taking today is the creation of an estate. To have provided financial safety for one's self and one's family is evidence of thrift and shrewdness. Employers and business men generally recognize and reward such good judgment.

The modern, safe and business-like way to create this estate instantly is through Life Insurance. The North American Life has a new Insurance plan which is attracting great attention among enterprising young men.

This plan—"Advanced Protection"—gives you the full benefits of large insurance protection now at very low cost. You can easily afford an amount of Life Insurance which you might have to forego for several years.

The "Advanced Protection Plan" is well worth investigation. With it you can create a sizeable estate immediately. Any North American Life representative will be glad to give you full particulars.

NORTH AMERICAN LIFE ASSURANCE COMPANY

Systematic Investing

As little as \$1,000 invested, annually, at 6 P. C. with interest reinvested at the same rate, accumulates to over \$38,000 in 20 years—and to over \$82,000, if kept up for 30 years longer.

Even \$500 saved and invested each year would amount to half as much—a good sized figure.

Why not start now, that policy of systematic investing by buying your first \$1,000 bond from us?

To help you choose the kind of investment you should make, we issue a broad list of investment suggestions. May we send you a copy?

KING PRESENTS STAMPS
 [TORONTO, Ont., Sept. 14.—Representative of 55 British colonies and protectorates, a collection of 112 postage stamps have been presented to the Royal Ontario Museum of Archaeology here by His Majesty, the King. The gift was made through the medium of Hon. P. C. Larkin, Canadian High Commissioner in London. For many years His Majesty has been one of the world's greatest stamp collectors.

GIRL TWO YEARS SILENT COUGHS UP SURGICAL TUBE
 Since Martha Wells, seventeen, of Salisbury, Pa., underwent an operation for tonsillitis more than two years ago, she has been unable to talk. Physicians for many months endeavored to discover the nature of the affliction and its cure. Then she was seized with a violent fit of coughing and discovered her voice had suddenly returned. A small tube had lodged in her throat, and silenced the vocal cords.

FLY-TOX

Kills MOSQUITOES, FLIES, MOTHS, ROACHES, BEES, BED BUGS, ANTS

Made in Canada

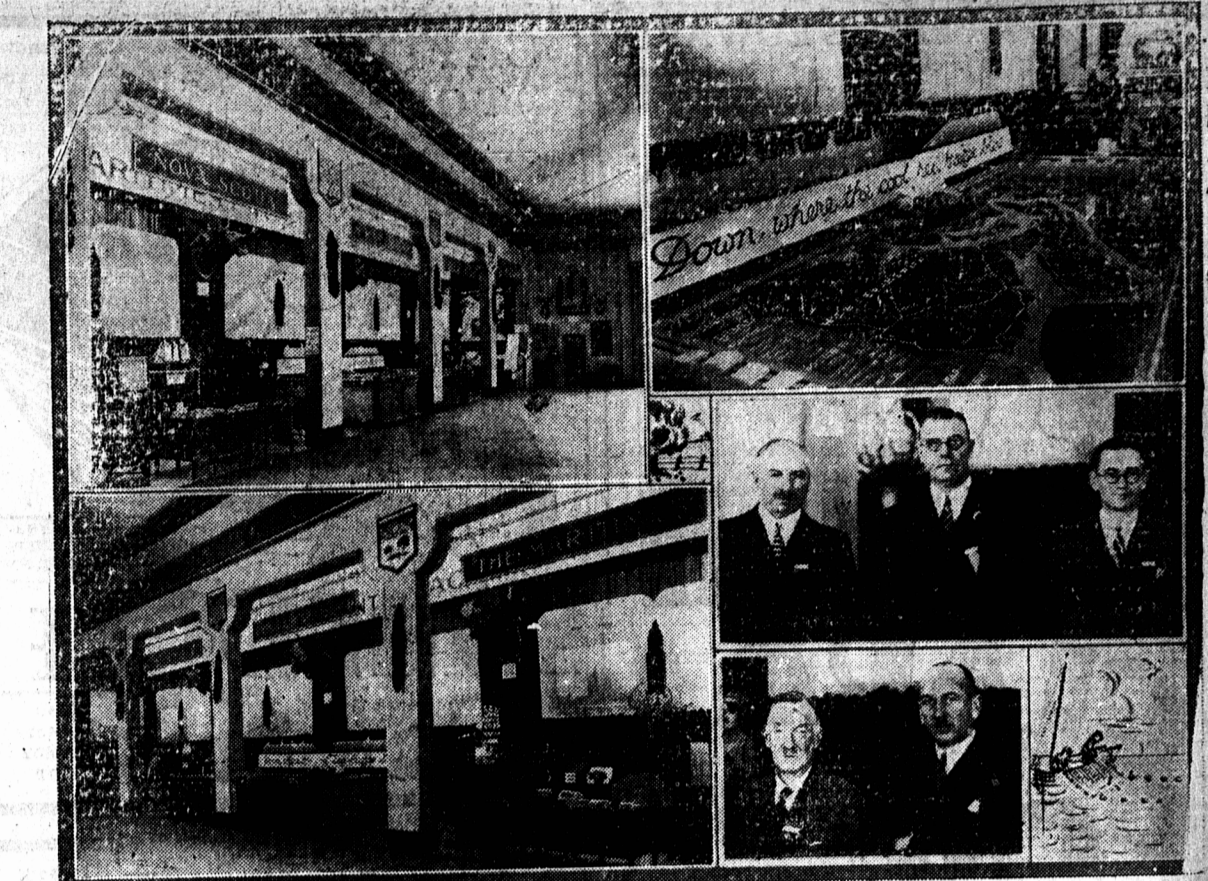

Developed at Station Dept. of Industrial Research by Hon. Research Fellowship.

Insert on FLY-TOX... harmful to people... will not stain... has a perfume-like fragrance. Your dealer sells FLY-TOX.

Welsh Anthracite Coal

For the householder who wants clean coal, low in ash and high in heat values we recommend Welsh Anthracite Coal.

Maritime Exhibit At National Exhibition For First Time

For the first time in the fifty-one years of the National Exhibition's history the Maritime Provinces were placed on the map with the rest of the Dominion and important colonies when they took over a large part of one of the Canadian National Exhibition buildings to display all the port features of the Maritimes that spell progress. The excellence of the exhibit is largely due to the untiring efforts of Col. R. Innes of I. fax, and Commissioner R. W. E. Burnaby, who put six strenuous weeks' work into the preparation of the exhibit. Though Maritime products in the past been displayed with very fine effect by individual firms and companies, this is the first really representative show on the part of provinces as a whole. It is dignified, interesting, beautiful and effective. Above are three different views of the exhibit, while at the bottom of layout are the men who have been principally responsible for success. They are, top, left to right: Hon. B. W. LePage, Prince Edward Is. R. W. E. Burnaby, Maritime Trade Commissioner at Toronto, and R. T. Caldwell, M. L. A., of Nova Scotia. Below are, left and right: W. Hubbard, New Brunswick, and Col. E. Innes, Halifax, N. S.

BEDEQUE NOTES.
 Mrs. Pearl Affleck, Chelton, has entered upon her new duties as sales-lady in Sinclair & Stewart's, Summerside. Her many friends wish her every success.

PHYSICAL DEPARTMENT
 The only regular class during the summer was the Boxing Class, under Mr. Tom White. This class meets two or three times each week and is stimulating interest in this part of our program.

STAFF CHANGES
 It was with much regret that we said good-bye to Mr. Murray, our past Physical Director, who gave us such fine service during his year at Charlottetown. Mr. Murray made many warm friends here and all will feel his loss. He left us to resume his college studies in Chicago and not to accept another position.

MEETINGS
 Many varied meetings were held in our building during the summer, Temperance Alliance, three or four; Dentists Ass'n; Fox Company, Ladies Auxiliary, W. C. T. U. and others, beside the Chautauqua Guarantors.

IN CLOSING
 Now that our building is O. K. and your Staff ready for the season's work, we feel the necessity of stressing our need for volunteer help. We are gathered together here today to find ways and means of increasing our efficiency, of doing better work, and in general to take stock of ourselves as leaders in a Christian work which demands even more than ever our best.

CAMP AT CANOE COVE
 Five large camps were held on our grounds this summer with larger attendance than ever. Our "Y" camp had a registration of 43 boys and 3 leaders, and was a great success. Ten full days, with ideal weather conditions, were enjoyed by all. Mr. Murray handled the program and your General Secretary the management. No sickness was reported at camp at all. Two or three boys had colds when arriving, but after a few days these cleared up. The usual number of cuts, bruises, etc., were treated. Mr. Horace Smith, our cook for three years, was with us again and gave us very fine meals and everyone was more than satisfied.

CAMP AT CANOE COVE
 Financially our camp came out O. K. being able to meet all expenses and clear up \$80 or \$90 of last year's deficit. The camp stove now is the only outstanding account.

THE M. R. E. C. Camp followed the "Y" camp. They had a total registration of fifty boys and leaders. This proved to be a very successful camp, and with the large number of leaders considerable training was accomplished.

The C. G. I. T. camp was next and with a registration of eighty our camp was taxed to its utmost capacity.

Following the Girl's Camp came the Presbyterian and Christian Churches' Camps, with a combined total of about eighty. On account of both these camps wanting the same dates it was necessary to amalgamate them, allowing each its own lecture room and choosing different hours for their various activities. On the whole the amalgamation was only fairly successful and different dates should be secured next year.

The grand total attending camps this year was 288. The Rotary Club held its annual picnic on our grounds as well. Attendance, 70.

LABOR CABINET in a speech yesterday at Bromley. Despite subsidies agriculture was being run from bad to worse, he said. He refused to accept the views that Britain's lands were now useless and had trained men for land and sent them 16,000 miles away dominions while outside the centres miles and miles of the best land in the world cried for cultivation.

Whatever the difficulties, Lansbury declared, they must be come and "this grand old land" a chance to feed its daughters. It was a question of mount urgency. The dominion unwilling to take Britain's unequipped. They rightly wanted it with money.

Also the dominions did not be mere food growers for they were bent on producing own manufactures. Consequently Great Britain liked it she would be driven by harsh facts to colonize her own home.

Dealing with the Government industry policy, Mr. Lansbury was expected that when Parliament in October, plans satisfied the workers and the owners v. adopted.

GRAND OLD LAND IS NOT YET DONE
