WEDNESDAY JUNE 27, 1906.

BORING FOR COAL.

The other day in passing an estimate for boring operations in Nova Scotia and Alberta in the House of Commons Mr. Lefurgey brought up the question of boring for coal in Prince Edward Island. He cited the recommendation made by Dr. Ells in 1902, recommending that borings be made at Campbellton or Miminigash, or the southwest of Summerside, or at Gallas Point and Wood Islands. He asked why the Government had apparently changed their policy in regard to carrying on this work?

Hon. Mr. Oliver said the Government has not changed its policy, which policy is when private enterprise has bored to the depth of 1,000 feet, the Government pays half the cost per foot for such further boring as may be made beyond the thousand feet. He added that as soon as the people of Prince Edward Island put themselves in the same position as those of New Glasgow or Edmunton by commencing boring operations the Geological Survey would be glad to extend them assistance.

Mr. McLean mentioned that he had been informed that the Government had two boring machines for operation which were loaned to parties who wished to conduct boring operations. He wished to know whether these machines could be sent to the Island for the use of parties here. Mr. Oliver replied that the Government did not own any such machines except one now in Athabaska, Que., which is out of repair. He said the machines in use in Alberta were provided by a local oil and gas company.

We regard it as of great importance that borings should be made in this Province. No one knows what riches are buried in the rocks beneath us. The discovery of coal or other valuable minerals would be of incalculable advantage to our Province and would yield a rich reward to the discoverers. The cost of exploratory boring is not great—from 50 cents to $1 per foot for the first thousand feet. It would be well worth while to spend a few thousands by private or corporate enterprise in this way and then get Government assistance for the deeper tests should nothing be found within the limits of 1,000 feet.

We read almost daily of valuable stores of coal, oil, natural gas, gold, silver, cobalt, nickel, manganese being found in one or other of the Provinces. Nothing of value in the way of minerals has yet been found here, but we must remember that no real effort has been made to find anything. The people of the southeastern section of Ontario tilled the soil for three quarters of a century before they discovered the treasures of oil and natural gas beneath them, which in many cases was worth many times the price of their farms.

Our Island is so near to the coalfields of Nova Scotia, the oil fields of New Brunswick and other sources of subterranean wealth, as to afford fair prospect that it possesses hidden treasures of its own, possibly at great depths, but still of commercial and industrial value. The facts ought to be ascertained, and the sooner the better. If there is nothing of value concealed beneath the rocks, it would still be worth something to demonstrate that fact and change suspense into certainty.

PAINS

FOR SOCIETY FOLK.

People of fashion do things sometimes that cause pains in the stomach and aches in the kidneys. Hard work and hard pleasure have pretty nearly the same results. A sour stomach, a bad breath and pains about the heart and head are caused by gasses from the stomach. Hutch cures them quickly. You take one when you feel badly. Three at night to move the bowels next morning, then one after each meal and your trouble will go away. It is nature's own remedy for pain.

They are chocolate coated and contain nothing that is injurious. There is nothing like Hutch in the world. It's a doctor for ten cents. At your druggists. For sale by all druggists.

TO CATCH TROUT

You must have the right gear. Any person acquainted with fly fishing must know that there is only 6 or 7 Flys that take in our waters. I have those killers only. I have just purchased an agent's sample rods cheap. They will be sold for less than cost. Call early as they won't last long at my prices. I also carry lines, baskets, casting lines, hooks, books, reels and everything for fishing. Call and see for yourself.

A. F. CALDER,
Taxidermist.

EGYPTIAN TROOPS KILLS SOUDANESE

CAIRO, June 25—Three hundered and fifty Sudanese were killed and one hundred captured by the punitive expedition sent from El-Obeid to relieve the garrison of Talodi, which was attacked by native tribesman in June, resulting in the lose of forty Egyptians killed. No losses were sustained by the expedition. It is supposed the attack on the garrison at Talodi was due to the resentment of the tribesmen at the establishment of a government post in their midst.

BUSINESS GIRLS.

Need Rich, Red Blood to Stand Worry and Strain of Business Hours.

Business overtaxes a woman's strength. Weak, languishing girls fade under the strain. They risk health rather than lose employment and the loss of health means the loss of beauty. Thousands of earnest intelligent young women who earn a livlihood away from home in public offices, and business establishments are silent, suffering victims of overtaxed nerves and deficiency of strength because their blood supply is not equal to the strain placed upon them. Fragile, breathless and nervous, they work against time with never a rest when headaches and backaches make every hour like a day. Little wonder their cheeks lose the tint of health and grow pale and thin. Their eyes are dull, shrunken and weary; their beauty slowly but surely fades. Business girls and women look older than their years because they need the frequent help of a true blood making, strengthening medicine to carry them through the day. Dr. Williams Pink Pills are actual food to the starved nerves and tired brains of business women. They actually make the rich red blood that imparts the bloom of youth and glow of health to women's cheeks. They bring bright eyes, high spirits and make the day's duties lighter. Twelve months ago Miss Mary Cadwell, who lives at 49 Maynard street, Halifax, N. S., was run down. The least exertion would tire her out. Her appetite was poor and fickle, and frequent headaches added to her distress. The doctor treated her for anaemia, but without apparent results. A relative advised her to use Dr. Williams Pink Pills, and after using but six boxes she says she feels like an altogether different person. She can now eat her meals with zest; the color has returned to her cheeks and she feels better and stronger in every way.

Dr. Williams Pink Pills cure bloodlessness just as food cures hunger. That is how they cured Miss Cadwell and it is just by making rich red blood that they cure such common ailments as indigestion, rheumatism, headaches and backaches, kidney trouble, neuralgia, and the special ailments which make miserable the lives of so many women and young girls. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

GO FISHING FOR GREEK STATUES

MILAN, June 25.—Two specially equipped steamships with a crew of divers left Genoa today for the Aegean Sea, following a contract between the Government of Greece and the Genoa Society For the Recovery of Vessels to hunt for Grecian statues which sank with a vessel wrecked near the Island of Cerigotto one hundred years before the present era while on the way to Rome. The place of the wreck was recently discovered by accident by a Greek diver, who brought up a statue valued later at 3,000f, ($600.)

WEARING AWAY YOUR LUNGS.

Yes, and your strength too. Stop coughing and get rid of that catarrh. The one remedy is "Catarrhozone" which goes to the diseased tissues along with air you breathe; it can't fail to reach the source af the trouble it's bound to kill the germs and as for healing up the sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least get back your money for Catarrhozone is guaranteed to cure catarrh in any part of the system. You run no risk—therefore use Catarrhozone—at our expense if not satisfied.

MORE POWEBFUL THAN RADIUM

ROME, June 23—Prof. Battelli, of the University of Pisa, has discovered a substance which is similar to radium, but which is said to have much more powerful properties.

The professor, while examining water at the San Guiliano Springs isolated a highly radioactive gas, which throws off emanations nearly resembling those of radium. He has not discovered the mineral from which the gas preceeded. He does not think the discovery is likely to be useful industrially, as the quantity is small and the expense of extraction will prevent its being remunerative. Prof Battelli is an eminent chemist.

UnKnown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by all druggists.

HOGS WANTED.

We wish to call attention to our advertisement for hogs for September delivery. It will be noted we want well fed hogs weighing 120 to 175 lbs when dressed. The consumer demands the product (hams, bacon, etc) cut from this size hogs, and to secure the best price we must supply the article most in demand.

It is becoming more difficult each year to market the product from heavier hogs and at best it can only be sold at very liberal discount which must be deducted off the price paid for heavy hogs. This applies not to September alone but to the whole season.

What is wanted is hogs well finished, weighing from 120 to 175 lbs.

For your information we may say that last September we only received 200 hogs, October 800, whilst more than half of the total output for the year was marketed during November and December.

This "the irregular supply" of hogs is the greatest obstacle in the way of making the pork industry the success that it otherwise should be.

Were it possible to distribute the hogs marketed during November and December or even eight months of the year the packer could do a satisfactory business and the farmer would average at least ½c per pound more for his hogs.

We think it would certainly pay the farmer to endeavor to meet the changing conditions as far as possible both in quality and a more regular supply.

We feel we are doing what we can in pointing out the market requirements.

Yours truly,
DAVIS & FRASER.

MINARD'S LINIMENT CO., LIMITED.

GENTS,—I cured a valuable hunting dog mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good.

Yours, &c.,
WILFRED GAGNE.

Prop. of Grand Central Hotel, Drummondville, Aug. 3, '04
