You can get Bigger Yields of Better Quality

From your farm if you will let us help you when purchasing your fertilizers for spring crops. Agricultural Authorities and Experimental Stations in this great Dominion of ours prove that all crops remove from the soil more POTASH than Phosphoric Acid; therefore, you must use a fertilizer containing more POTASH than Phosphoric Acid.

How to Mix Your Goods at Home

and save money by buying raw material and doing your own mixing. You then know what you are feeding your crops and can be almost sure of bigger yields of better quality.
