**New S. S. Service
For Charlottetown**

The British built steamship "Farnorth" has been purchased by the MARGAREE STEAMSHIP COMPANY, Limited, and is to be placed on the Montreal-Charlottetown-Sydney route commencing next month the steamer will, if sufficient business is available, make three round trips monthly calling at Charlottetown both ways. The time table is now being prepared and will appear in Charlottetown papers at an early date. The above steamer is over 250 feet long and 35 feet beam, the state-rooms will sleep comfortably 150 stb and 50 2nd class passengers. Freight capacity 1,500 tons deadweight including fittings for 45 head of live stock. When on the run between Boston, Halifax and St. John's, Newfoundland, the engine room the steamer's saloon was one of her popular attractions as the table was supplied with everything in season in variety. The steamer is fully equipped with all modern conveniences including fresh and salt water baths, running water in cabins, spacious promenade decks for a large number of tourists, electric light, wireless, radio, broadcaster, etc. Speed about 15 knots per hour and she is an excellent sea boat in all kinds of weather. Captain T. J. Craig, Kirkross, P. E. I., was the city yesterday interviewing shipbuilders and has met with a hearty reception by the business men of Charlottetown. A steamer of the above description is bound to be a success as it is proposed to maintain a first class service. A list of the officers and agents will be published with the time table. It is business warrants the route may be extended to other foundland ports.

GOLDWIN SMITH AND PROHIBITION

In my early days in Toronto I often wended my way to The Globe to have a chat with Dr. Goldwin Smith.

On the first occasion of my visit I had been sent to secure his opinion upon some particular topic and on leaving him he said, in his kindly way, that he would be glad to see me at any time. I did not hesitate to take advantage of the invitation.

Sometimes he would talk freely upon measures and men and then warm me in an interview; he was simply expressing himself upon topics which he thought might interest me personally. After I moved to Ottawa I kept in touch with him and always had a pleasant half hour with him whenever he visited the Capital.

During the year 1902 the province of Ontario was greatly agitated over the prohibition question. The legislature had passed an "Act Respecting the Sale of Intoxicating Liquor," which among other things provided that a referendum should be taken on December 4.

The Conservatives tried to get the prohibition clause eliminated, but the bill was finally adopted on a vote of 47 to 34. For the remainder of the year the province was in a ferment, and then voting day on the referendum came and the returns showed that 199,749 persons had voted in favor and 104,539 against. The act failed, however, as the majority vote was 13,251 votes short of the number required by the act to make it effective.

Quite unbidden I received a letter from Dr. Smith, dated December 10 (by which time all the returns were in), which is well worth quoting even at this late date. Dr. Smith said:

"The upshot of the Referendum—wrongly so-called, since it is not an act of legislation, but merely a test of opinion—seems to be finally fatal to Prohibition as a general measure, but favorable to the abolition of saloons, in which I should myself rejoice if we could be assured that in stopping one hole we were not making two.

"The judgment of the Privy Council upholding the act is surely very doubtful. The B.N.A. Act gives trade and commerce to the Dominion Government. But the Privy Council, as I understand the judgment, upholds the provincial act on the ground that it is not prohibitive but regulative. Surely its intention is manifestly prohibitive. It was framed at the instance of the Prohibitionist party, and supported by that party with its full force. Nothing can be easier than to kill a trade by ruinous regulation.

"Comparing Canada with other countries I have known, I should say our people were very temperate and far from being in need of any extraordinary legislation. I doubt whether there is any country in which the feeling against drunkenness is stronger, or its social penalties are more sure."

Next—Fred Hayter and the Canals.

A citizen, who deserves well of his country, had a large family, to which additions were constantly being made. One day one of his little boys was thus interrogated—"John, how many brothers and sisters have you got?" "I don't know," answered the boy; "I ain't been home since morning."

**DINOSAUR BONES
DISCOVERY MADE
DURING SURVEY**

MILK RIVER, Alta., Sept. 26—(C.P.)—Dinosaur bones, relics of a mighty monster that roamed through Alberta's bad lands millions of years ago, have been discovered by Dr. L.S. Russell, Geological Survey, Ottawa.

The find is one of many that have been made in Alberta in recent years, adding more knowledge to the study of paleontology. Dr. Russell uncovered the relic in the Dead Horse Coulee during his survey work in the Writing-on-Stone Park for the past three months. Hundreds have visited the site.

Dr. Russell believes the period in which this dinosaur lived would be 70,000,000 years ago. Besides the dinosaur, other relics of ancient periods have been uncovered by Dr. Russell. He has shipped to Ottawa one large box of odds and ends, including fossilized leaves and fish. A live horned toad has been shipped to Ottawa also. Its significance is still doubtful, but it is known it is the first horned toad to be found in this locality. They are not believed to be prevalent this far west.

During his survey and excavation work, Dr. Russell is gathering information for lectures and has already been heard by large audiences in this district. Some of his examinations have been made near the famed ranch of George Ross, Alberta's flying rancher.

**Railway Head
Confident Of
Future**

(C. F. by Guardian's Special Wire)

MONTREAL, Sept. 26—Those who believe the people of Canada would not consider railway uniting for operation purposes, are singularly misinformed about what is going on in the minds and conversations of the people of the country, E. W. Beatty, K. C. President of the Canadian Pacific Railway, stated here today on his return from an inspection tour of the railway's western lines.

"My trip to Western Canada," he said, "has given me no reason to revise anything of a reasonably optimistic nature I may have said regarding the economic outlook for this country over the next year or so."

Mr. Beatty said he had seen enough to convince him that given fairly good weather over the next month or so, the Western Province this year would make a considerable contribution to national wealth and give some added impetus to the movement of returning prosperity.

IN MEMORIAM

MRS. SUSANNAH E. COLES

I write this word in recollection and appreciation of a dear Christian friend who was called to eternal happiness, on the morning of the 15th of June last. I refer to Susannah Eliza MacRae widow of the late Frederick J. Coles of Milton in this province, she was the daughter of the late Frederick (Farquhar) MacRae and his wife Isabella MacMillan and is survived by two brothers John MacRae of Glasgow North River; Sadie Isabella, wife of Archibald MacLeod of Glasgow Road, Annie Rebecca, R.N. of Haverhill Mass.; Katherine Madeline of Hamilton Ont. Susannah Margaret, wife of James Morrow of Dover Mass., and Elizabeth Ruth, wife of George Stewart of Charlottetown.

I had visited the home during her husband's last illness and was pleased to see Mrs. Coles so well sustained in her care and attention during that trying time. After his death she began to fail. It was a privilege to minister to them of the things of Christ, to tell of his wonderful love and to bow together in prayer. They were devout Christians and members of the Church of Scotland. With great love for her Lord, with Faith and resignation Mrs. Coles endured bereavement and affliction and passed away in peace. I was unable to be present at the funeral which was held on June 17th. The services were conducted by James E. Lamont, student, and Rev. Mr. Palethorpe of the United Church.

Interment was in Highfield Cemetery. The pall-bearers were: A.W. Stewart; A.E. Collier; Arthur Cross; William Farish; Nelson Kent; and Harvey Younker. She has left a testimony of Faith and love, a valuable heritage.

IN MEMORIAM

MISS CATHERINE MACCORMACK

Silently, as the last lingering shades of twilight had deepened into night on Sept. 6th, the shadow of death stole across Dominion Point and laid its sombre chill on one of the most respected citizens there in the person of Catherine MacCormack.

Miss MacCormack, who was 74 years of age, met death with the calm Christian fortitude that characterized her whole life and, strengthened by the last rites of the Catholic Church, her soul peacefully left its earthly temple and winged its way to the throne of its Maker.

Her remains were conveyed to St. Bonaventure's Church, Traddock Cross, where her pastor, Rev. Msgr. Maurice MacDonnell celebrated the funeral Mass and conducted the services at the grave. The pall-bearers were: Donald J. McDonald, R. J. McDonald, James Kelly, Angus McDonald, Michael Egan, Alexander McDonald.

As all the members of her immediate family predeceased her some years ago, she leaves to mourn her passing, her first cousins: Hon. John A. MacDonnell, Gardigan; Mrs. Alfred George, Blooming Point, who tended her during her last illness, and Charles and Augustine MacDonnell, Blooming Point, to all of whom is extended the sincere sympathy of a large circle of friends. May her soul rest in peace.

THEATRE CROWDS DEMAND LIGHTER MUSIC

(Canadian Press)

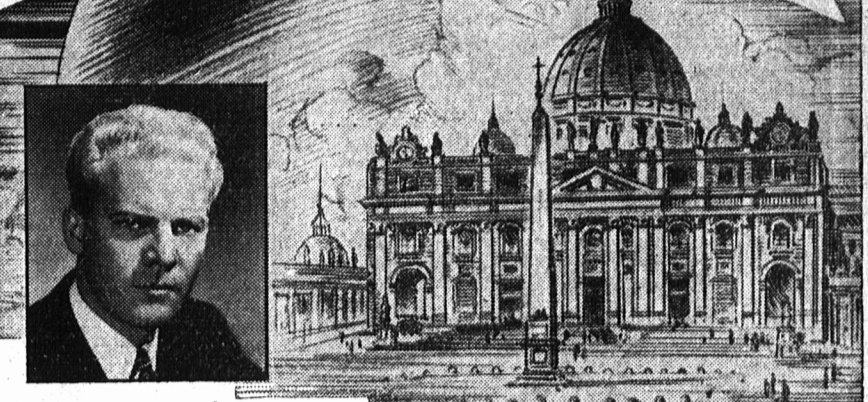

MARGATE, England, Sept. 26—Taste in public entertainments at the seaside has completely changed since the war. At least it has at Margate, according to John Saxby, manager, who has had 34 years experience of the town.

Holiday-makers are no longer content with orchestral concerts and the concert parties in vogue before the war. They want revues, cabarets and jazz. Generally they demand lighter entertainment, and expect accommodation for refreshment.

Mr. Saxby told of this change at a Ministry of Health inquiry into the corporation's application for a loan of \$135,000 to reconstruct and extend the pavilion and Winter Gardens. The pavilion, said Mr. Saxby, was totally inadequate to cope with the change of taste in entertainment.

This year Margate has approved improvements involving an expenditure of \$1,500,000.

GREAT SALVAGE FEAT RAISES SUNKEN GERMAN BATTLE-CRUISER

One of the greatest feats in salvage history was achieved recently when the German battle-cruiser "Bayern" was raised at Scapa Flow, the naval harbour in the Orkney Islands. The "Bayern", a vessel of 28,000 tons, was raised 20 fathoms in 30 seconds. Our picture shows the upturned vessel after she had been brought to the top. The unusual looking pipes rising from her keel were put there by divers to aid in the salvaging of the sunken war vessel.
