

LOCKJAW CAUSED BY ANTI-TOXIN.

Eight deaths of children have been reported to the St. Louis Health Department as the result of lockjaw, due, it is asserted by the physicians, to the administration of the city bacteriologist's specially prepared anti-toxin for diphtheria. Eleven other children are ill with lockjaw, and death is expected in each case. Nineteen cases of lockjaw among children have therefore been reported as a direct result of the administration of the infected antitoxin.

DON'T GO HOME, if you have not got at least one bottle of Kendrick's Liniment in the house. Don't go home without it. There is nothing better (if equal) to Kendrick's as a household remedy.

UNITED STATES PENSIONS.

The estimates for United States pensions and the administrative work of the pension bureau for the fiscal year commencing next July is placed at \$142,161,000.

BRONCHIAL AFFECTIONS, coughs and colds, all quickly cured by Paine's Compound. It has no equal. Acts promptly, soothes, heals and cures. Manufactured by the proprietors of Perry Davis' Pain-Killer.

STERILIZED LEAD PENCILS.

Lead pencils to be used by pupils in the Chicago schools will be sterilized to prevent the dissemination of disease germs.

MCLEAN'S VEGETABLE WORM SYRUP is an old and thoroughly tested remedy. It is safe, pleasant and effectual.

Fall Jackets.

Another shipment of the latest creations in ladies' French jackets and Capes, they are without doubt the handsomest garments ever exhibited in this City, and have a richness of style that is only to be found in Paris and at Carley's. Ladies should not fail to look at these novelties for fall.

JAS. PATON & CO.

Our Pattern Hat Department

In busy hive of industry; active, throbbing brains and skillful pairs of hands are kept busily employed from one year's end to the other in this department, and the fame of our Broad-Daylight Show Room is spread broadcast over the land by the wonderful values they are daily turning out.

Get some of them—they're just spicily enough to act like a tonic on your appearance; these designs of trimmed hats represent hundreds of novelties. See our Windows.

We are always fishing for business. Now we want yours. Our favorite fly is low prices. Our line is quality. Our pole is enterprise. And we make some pretty good casts, too. Today's store news will bear us out in this. We not only meet demands—we anticipate them. We are up to the very moment in enterprise—right down to the very bottom in price with 255 assorted new Fall Hats.

JAS. PATON & CO.

Boys' Reefers by the hundreds. Prices \$1 to \$5, but our \$2.50 Reefer demands special mention. Its Heavy Blue Freize and a good warm wearer.—Prowse Bros. 7 3i

Men's Unshrinkable Underwear, (Stanfield's) the best on earth. We have all sizes of the heavy, medium and light weights.—Prowse Bros. 7 3i

Why wear clothes that fit as though they were made by your mother-in-law when you can improve your appearance at so little cost at Gordon & McLellan's Merchant Tailors. 10-2 ft.

A Case of Kidney Disease That Could Not Be Cured by Ordinary Drugs and Medicines.

The Dread Disease was Banished After Use of Two Bottles of

PAINE'S CELERY COMPOUND

A Statement Carrying Warning And Encouragement to Every Sufferer.

While the blood is the life of the system carrying to every part its share of force and energy, it is also the means by which the waste matter, the result of decomposition of the tissues, is removed from the body. If disease has touched the kidneys, there is grave danger, and deadly oppression will settle upon the body and mind.

If you have any of the symptoms of Bright's disease or diabetes, Paine's Celery Compound is the only medicine on earth that can stay the ravages of the disease and cure permanently. Mr. C. Kevill, of Dansford, Ont., testifies as follows:

"For the past fifteen years I have been troubled with diseased kidneys. Often while working in a stooping position I would find it difficult to straighten up at once, and could only do so after repeated efforts. While under very severe attacks of my trouble, I became very nervous, and continually tired, worn-out feelings. My rest at night seemed to do me no good, as I always felt tired in the morning. I had been taking medicines and was getting worse all the time. At last I decided to give Paine's Celery Compound a trial. I procured a bottle, and took it as directed, and found its effects wonderful. Before I had finished the first bottle I began to improve; after I had used the second bottle I felt as well as ever I did in my life. It banishes all my aches and pains, and my nervousness disappeared. I can go to bed now and sleep well and rise in the morning rested and refreshed."

TERRIBLE FOREST FIRES IN NORWAY.

Terrible forest fires have raged in many parts of Norway and Sweden this summer, causing heavy losses.

"77" Breaks up Bronchial COLDS

To diminish sensibility to Cold, says an English writer.

FIRST—Free exposure to open air, daily familiarity with the atmosphere, diminishes the sensibility of the skin, enables the body to resist the invasion of Cold.

SECOND—The morning cold bath, cold sprinkling over the entire surface of the body, is an invaluable protection against injury from exposure to change of temperature.

THIRD—This wise man did not know that a few doses of "77" will prevent, or taken at the beginning will "break up" a cold.

McEWEN IN MONTREAL

The Hypnotist who Visited Charlottetown

CAUSES A SENSATION

Public Exhibition of Sleeping Woman Prohibited by Chief Police.

MONTREAL HERALD, Nov. 5th.—Shortly after eleven o'clock this morning a small crowd was attracted to a window in St. James Street where a man was busily engaged in making up a bed. Gradually it became known that McEwen, the hypnotist, who is at present appearing in the Windsor Hall, was going to put a girl into a cataleptic trance. The prospect of a free show rapidly increased the crowd, which soon grew to proportions that the three policemen present were unable to handle. Meanwhile, as the crowd surged and struggled round the window to get a better view, the cough had been made ready, and McEwen gave the word for the girl to be produced.

Her name was given us Grace Maynard. She was a slight, weakly girl of about 18 white as chalk, and appeared to be in a semi-dazed condition as she made her way through the crowd inside the building. She at once lay down on the couch.

"You are not feeling nervous" were Mr. McEwen's first words. The girl answered that she was not, in a voice scarcely above a whisper.

McEwen looked at her for a moment as he held one of her hands in his and told her that she was about to go to sleep, "a quiet, restful sleep; from which you will wake up at nine o'clock feeling good."

While he spoke the girl's eyelids fluttered, and before he had finished her eyes were closed. Apparently she was asleep totally oblivious of the crowd, now altogether beyond the policemen's control; that surged around the window.

The constable on beat, when he recovered from his first sensation of curiosity, endeavored to make the crowd move. "Move on, gentlemen, please," he would say; but the crowd stood unheeding. Traffic on the street was delayed noticeably and the busy man unable to make his way through the crowd, had to rush into the street.

At his wit's end, the constable telephoned the Central Police Station for help and Lieut. Murphy, with a squad of police, arrived in a patrol. They brought with them heavy coils of rope, which was soon stretched out in a cordon from post to post.

Then the crowd began to inquire why six policemen were taken from active duty to their beats to allow Prof. McEwen to make an exhibition. The professor did not care to answer. He appeared on the sidewalk, and with a most gracious smile invited the people to get outside the ropes. But this was not strictly enforced, and the crowd kept surging and swaying, each one elbowing his way to get a glimpse of the sleeper.

Some said it was not a pleasant sight to see; a woman with blanched face, low necked gown, and bare arms, in a hypnotic sleep, has a touch of ghostliness. Some said it was a wax figure. But the greatest source of wonderment was that so many constables could be left to keep back the crowd, instead of being on their beats, especially at this time of the year when, as it was announced last night, the city was overrun with strangers whose only purpose here was to steal.

This point of view gradually dawned on the police authorities, for about noon Captain Berlan, of the Central Police Station, informed the proprietor of the building that the "sleeping woman" was the cause of a crowd assembling on the sidewalk, and as that was in violation of the by-laws he would have to stop the exhibition. There was no alternative, so the public exhibition was converted into a private affair. A dark screen, ornamented with water lilies, was placed in the large window and a blue screen on the west side so that the crowd could no longer see the sleeper easily.

Prof. McEwen and Mr. Edgar C. Varney, jr., his manager, hurried to have an interview with Chief of Police Legault. They were informed that the sidewalk could not be blocked under any consideration, and that the exhibition must not be under the circumstances, be seen from the sidewalk. The answer was final. Prof. McEwen said he was satisfied.

AN ENGLISH AUTHOR WROTE.

"No shade, no shine, no fruit, no flowers no leaves,—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of its wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's Greatest Medicine for America's Greatest Disease—Catarrh.

BABY'S OWN TABLETS

Babies that are well, sleep well, eat well, act well and play well. A child that is not lively, rosy-cheeked and constantly playful needs immediate attention or the results may be serious. Give them Nature's own vegetable remedy, Baby's Own Tablets.

For Diarrhoea,

constipation, colic, fever, indigestion, sleeplessness, and, in fact, all the disorders to which children are subject these tablets have absolutely no equal. They do not act as the so-called soothing medicines do. They do not have a deadening and stupefying effect, but on the contrary go right to the seat of the difficulty and by removing it cure the child and prevent a recurrence of the difficulty.

No mother should fail to have these tablets constantly in the house. There is no telling when they may be needed and the failure to have them on hand may mean much suffering, and, perhaps, the loss of a priceless life.

You can find Baby's Own Tablets at the drug store. If you do not, send the price, 25 cents per box, direct to us and we will forward them prepaid.

Good for all Babies: Try Them for Your Baby.

PHENOMENAL MEMORIES OF GREAT MEN.

Many of the greatest men have had phenomenal memories. Caesar knew the names of thousands of soldiers in his legions. A modern man of science often has a prodigious memory for special terminology. Professor Asa Gray assured the writer that he could at once recall the names of something like 25,000 plants; Professor Theodore Gill can do the same for fishes.—Harper's Magazine.

THE AMERICAN SEWING MACHINE.

Consul Norton at Harput reports that American sewing machines are going off like hot cakes in Eastern Turkey, where they have just been placed on sale for the first time. One agent has sold 300 machines in fifteen months in the consular district of which Harput is the headquarters. Lightness, adaptability to a variety of operations, and cheapness are the qualities which have enabled these machines to drive out the German machines in that section of the world.

HEARTBURN.

Many Sufferers from this Affection

Fail to See Their Real Danger till they are Completely Laid up with Chronic Indigestion.

Heartburn is Indigestion. The food instead of being properly digested and assimilated, ferments, and lies in a sour rotting mass in the stomach.

The consequences are always unpleasant, and a great menace to all good health.

If not corrected, Heartburn culminates in Dyspepsia or Chronic Indigestion.

It is simply a warning which should be promptly heeded. Something should be done at once to correct the disordered condition of the stomach and digestive organs.

Dodd's Dyspepsia Tablets are especially designed to cure all such weaknesses. They digest the food, allowing rest and re-energization to the stomach. They correct at once all derangements. They stimulate and strengthen the action of the liver and bowels. They tone up the system, and obliterate every trace of Heartburn, Flatulency, Gas on the Stomach, Sour Stomach, or other symptoms of wrong digestive action.

Dodd's Dyspepsia Tablets do more than relieve. They cure. Cure permanently and forever all Stomach Troubles.

They are 50c a box, and are sold by all druggists.

Sufferers with Heartburn should lose no time in procuring a box of this remedy. It will cure, and by its prompt use, you may yet avert the pains of Chronic Dyspepsia. However, if you have waited too long, and have already entered the final stages, don't despair. Dodd's Dyspepsia Tablets will cure you, but of course it is easier and cheaper to prevent than to cure.

THE EDITOR'S MAIL

Train Arrangements West.

Srs.—An item in your issue of 4th inst. "The mail train arrived at 10 o'clock on Saturday night," whether your commencing rapid transit or finding fault with delay, we are left to conclude. The same mail arrived here at 1.40 p. m. on the 4th so that the citizens of Charlottetown had their mail and passengers 32 hours and 45 minutes earlier than we of Tignish this too, under the near up-to-date time table just issued by the P. E. I. Railway, considering that the distance to Tignish is greater by some twenty miles, it is marvelous that such result can be accomplished in this age of perfected Railroad-ing. Is it any wonder that we are vigorously protesting against such treatment even at the risk of being classed a "lot of kickers."

Yours, etc., A. J. McFARLANE.
