"SHE'S A PERFECTLY SWELL PERSON"
 Pick out any white-haired woman of your acquaintance who is regarded as a swell person by much younger people and not as old Mrs. So-and-so, and you'll find most of these things are true of her:
 She's good to look at. The years have softened, rather than hardened her face. And she dresses carefully and smartly. The chances are she is better groomed than any woman of 25 you happen to know.
 She has a kind heart. That sounds old-fashioned, but it is the older woman who finds it easy to make friends among persons of all ages. She isn't caty and she'll go to bat for the absentee person who is getting a going over from his friends.
 Of course she won't do it in a prissy, "always say good about everybody" sort of way. She'll just see—because she is a mature, intelligent adult—that the person under discussion has something on his side, and when she points it out, she'll be able to do it in a way that won't make the others feel they are heels.
 She knows what is going on in the world—and is so vitally interested in today and its headlines, she isn't tempted to talk about the past.
 She has the happy gift of knowing how to make you feel that you're a pretty nice sort of person yourself.
 She acts her age. That is, she lives up to your expectations of what a person of her age should be. She leaves carelessness, temper, jealousy, possessiveness to those young enough to be excused for such faults.
 She enjoys life. She knows the ways of the world—but in spite of its faults, she likes it.
 These things are pretty true, aren't they of the white-haired friend of whom you say, "She's a perfectly swell person?"

AN ACTIVE LIVER MAY GIVE YOU MORE PEP
 A liver that fails to secrete all the bile it should may be the cause of much of the misery of temporary constipation. It is important therefore that the laxative you take also helps stimulate sufficient bile flow to act on intestinal waste. This is why Beechams Pills are increasingly favored as a laxative. By helping to make the bile flow, this purely vegetable compound helps drive away the headachy, tired feeling that comes from faulty elimination. Buy Beechams Pills at your druggist's.

workers. These offices will be opened as rapidly as possible to facilitate the most effective utilization of Canada's labour force during the war and in preparation for the return of workers to peacetime employment after war work has ceased.

Opportunity!
 British orders so far this year, for 466,000 cases of eggs (13,980,000 dozen) should take off the Canadian market, practically all the eggs that would otherwise be put into storage. The army, navy, air force and increasing civilian demand are also taking great quantities. Under these circumstances, it is only logical to expect that egg prices will be strong and that the period of higher prices will last longer next fall—possibly fairly well on into winter.
 It looks like a good sound business proposition to acquire many BRAY chicks as you can handle properly, and start them NOW. We have Bray Chicks on display and can supply your hatchery needs without delay. Come in and see us this week.

WOOL WOOL WOOL

The Prince Edward Island Sheep Breeders' Association again offers its services in assembling the wool clip of the Province for co-operative marketing through the Canadian Co-operative Wool Growers, Limited, Toronto.

Prompt payments will be made on a graded basis, when wool has been delivered and graded. Any additional amounts received for the wool after sales have been made by the Canadian Co-operative Wool Growers, will be paid at a later date. The sheep breeder is thus assured of the full value for his product. Breeders should take note that the Sheep Breeders' Association sets the price of wool each year. Very often competing agencies buy wool at lower prices at the opening of the season, but conform to the Association's price as soon as it is announced.

This year, wool will be received after May 26th and the week commencing June 16th will be the Big Wool Week in Prince Edward Island. Shipping tags and paper twine are available at the Department of Agriculture, Charlottetown, O'Leary and Montague. Contact Departmental offices for further information.

Do not sell or ship your product until you contact us for further particulars regarding prices, etc. If shipment of wool is made, send freight collect to the address below.
