

# MUNYON'S RHEUMATISM CURE

When Prof. Munyon says his Rheumatism Cure will cure rheumatism there isn't any guesswork about it—there isn't any false statement about it. It simply cures. It does exactly what he says it will do. It cures more quickly than people expect. It cures without leaving any ill effects. It is a splendid stomach and nerve tonic, as well as a positive cure for rheumatism. All the Munyon remedies are just as reliable as any drugist's. The Guide to Health is free, so is medical advice if you write to Broadway and 26th St., New York.

There are few offices connected with the government of this or of any other country which have had so great an influence on the social life of the people as the post office for the conveyance of letters from one town or district to another. As happens with most great discoveries and important institutions, the origin of the post office for letters is obscure; just as the source of a large river may be traced to a number of small rivulets rising in different places, which mingle their waters without any one of them having much claim to be considered the source of the great stream. It has been suggested that the carriage of letters was a duty similar to that performed by slaves among the German and Saxon tribes, who were expected to go on errands and carry goods or messages for their lord when required, and that the post office took its rise from this. The resemblance is however, too casual to support such a conclusion, or to attribute the origin of the postage of letters to such common services. But not to speculate on this, and confining our attention to England we note this much that the postage for letters had its beginning before the time of Edward I and had been employed by merchants settled in England before the fifteenth century.

# VICTORINE

## Washing Compound.

We have secured the agency for the Island of the above named Washing Compound which has been pronounced by the ladies of Canada to be the greatest labor saver of modern times and a real treasure on wash day.

It washes clothes and is guaranteed not to injure the most delicate fabric.

The properties possessed by this compound are those of loosening and separating the dirt without injury to the fabric, instead of eating up the dirt and rotting the cloth as is the case with many articles now on the market which claim to wash everything. By the use of this Compound no rubbing is required, thus saving the wear and tear on clothes, to say nothing of the labor. Simply boil and rinse. For flannels it has no equal and Ladies will find it particularly good for washing Lace Curtains as there is positively no rubbing required. 1 cake will wash 2 large boilers of clothes and the cost is a mere trifle. 2 cakes 5c. 25c per doz at all grocers.
