Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured, even after the symptoms were well defined and the lungs actually involved.

On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date, this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

Nothing in recent years has done so much to improve the chances of Consumptives as the advent of

FERRROL

In fact, it is claimed that, with plenty of fresh air, sunlight and comfortable surroundings, FERRROL has pushed the hopeless point to the limit, that is to say, where these fall the chances of cure are very slim indeed.

FERRROL does not kill the germs of Consumption (anything that will do that will kill the patient), but FERRROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature to expel the disease.

The only possible chance of curing Consumption is by proper nutrition, and FERRROL is the only perfect nutrient, because it combines in palatable and easily digested form the very essentials of life—Oil, Iron and Phosphorus.

We feel some diffidence in claiming that FERRROL will cure Consumption, lest we be misunderstood, but we have not the slightest hesitation in stating that it is an infallible cure for BRONCHITIS, CHRONIC COUGHS, CROUP, WHOOPING COUGH, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS EXHAUSTION, SCROFULA and all wasting diseases.

For restoring lost weight and building up the run-down system FERRROL is absolutely without an equal.
