Communists Seek

Classless Society In Germany

(By Richard Kaselchke) BERLIN, Aug. 16 (AP) - Gen. Joseph T. McNarney said today both the Communists and the disorganised Socialist unity party are in Germany seeking destruction of the capitalist system of free enterprise and establishment of a Socialist state with a classless society.

The United States military governor, assessing the objectives of the Communist and Socialist parties, said they would not be permitted to return to power until they had renounced their goal of a classless society.

The report contained the official American viewpoint of what the Communists and their satellite parties want to make of post-war Germany.

The Socialist Unity Party was formed in the Soviet occupation zone by a merger of Communist and Social Democrats.

Gen. McNarney said the Social Democrats outside Soviet-occupied territory stood for the parliamentary republicanism of the western type, and opposed Communist co-operation with the Communist or Social Unity parties.

Gallup Poll of Canada

SPRIT OF ADVENTURE STIRS FEW, EVEN IN DAYDREAMS

Supposed Gold Rush Would Attract One In Ten, Poll Finds

By Canadian Institute of Public Opinion

TORONTO, Aug. 17 - "Too much risk involved." "I like the comforts of home too well." "Too many sacrifices perhaps for nothing." "I have a wife and family to consider." So go the reasons why the majority of typical adult Canadians think they would be unmoved by the lure of gold, even if a new Klondike Rush were to beckon.

If the traditional Canadian pioneer spirit is to be maintained, the challenge will best be cast to youth. Security and caution would deter Canadians of voting age, judging from their response to the suggestion in the latest Gallup Poll of adults with all groups accurately represented.

Reporters of the Institute asked: "IF THERE WERE SUDDENLY A BIG GOLD RUSH SUCH AS THAT OF THE KLONDIKE, WITH ALL ITS EXCITEMENT, RISKS, AND HANDSHIPS, WOULD YOU LIKE PACKING UP AND GOING?"

The idea left four out of five cold: Yes, would feel like going 20% No, would be unaffected 76 Undecided 4

The 20 per cent who said they would "feel like going" were then asked: "DO YOU THINK YOU REALLY WOULD GO?"

Only one-half would: Yes 10% No 87% Undecided 3

While 10 per cent may seem a small proportion of adult Canadians, if that percentage actually packed off to distant parts, it would constitute a migration of 760,000.

Younger voters, small town folk, the laboring class and British Columbians are more attracted than are business and professional people, farmers and older citizens, the Institute found. Even 40-year olds in many cases left they were "too old" or "couldn't stand the pace." On the other hand, one lady over 50 gave as her sole reason for not going: "My husband wouldn't let me."

Adventure, excitement, the hope of making a rich strike were the principal reasons mentioned by those who said they would go. But not all conceived the idea in terms of tolling for gold. A nurse would like it as a new field in which to practice her profession. Several thought of making a fortune by "opening a saloon."

Most astute of all, perhaps, was the young man who said: "I'd stay home and buy." -World Copyright Reserved-

Departments Of

Steel Plant To Close Down

NEW GLASGOW, N. S., Aug. 16 (CP) - Notices were posted in the Trenton Street Works Limited today advising employees that operations in the axle forging department would cease about Aug. 22 because of a shortage of stock.

Company officials said 150 men would be laid off. The shut-down order with another 100 affected about a fortnight later when the plant was closed down.

Company officials said they could give no estimate how long the plant would be idle after any strike.

They said that bills used in the Trenton plant are obtained from the Dosco mills at Sydney.

Whether the plant would give new stocks at the end of the steel strike would depend on the steel controller who was expected to call all new stocks, officials said.

Only departments unaffected at present was the machine shop where 20 men were working on jobs "brought in by customers."

Senate Committee

Urges Federal Aid For Tourist Traffic

OTTAWA, Aug. 16 (CP) - The Senate committee in a report tabled today, recommended federal assistance for highway construction to encourage tourist traffic.

The committee, which under the chairmanship of Senator W.A. Rutherford (P.-Alberta) made a broad investigation of the tourist trade, reported it was convinced that a broadly planned tourist program could bring in \$200,000,000 in tourist business from the United States.

Gen. McNarney said the industrial production had risen to 29 per cent of capacity, that 1946 budgetary figures for the federal government showed a total deficit of \$55,000,000, and that the population of displaced persons amounted to 368,210.

In addition to recommending federal assistance for highway construction, the committee recommended: 1. Improvement of facilities in national parks and hard-surfacing of park roads.

2. Action to impress on operators of service stations, restaurants, hotels and resorts the importance of courtesy and good service to tourists.

3. Suitable descriptive literature and good road maps to be made available through immigration and customs officials and permanent business offices on a long-term basis.

4. Close co-operation between federal and provincial highway and transportation agencies to prevent overlapping and obtain maximum results for investment.

5. Inquiry by the federal government into the possibilities of the Alaska highway as a tourist attraction to ascertain direct link-up of a more direct link-up with it from Edmonton to Dawson Creek would be justified.

Calls Albanian

Government Dictatorship

NEW YORK, Aug. 16 (AP) - The Government of Greece today filed additional charges against neighboring Albania in efforts to block her admission to the United Nations.

The United States and Albanian Premier Zver Hoxha had introduced a "ruthless dictatorship" in Albania, the Greek memorandum submitted to a security council membership committee studying the Soviet-sponsored application.

Albania at present has 75,000 men with arms three times as many as the United States.

The committee itself took up in detail Albanian's reply to a long series of questions it had submitted.

In regard to Albanian shore batteries firing on two British warships, the British representative said Albanian's explanation was not satisfactory, adding that London doubts Albania has a normal conception of her duties in international relations.

The United States and Albanian's answer as to why she refused to honor a treaty creating a Russian ally was purely an internal matter and had nothing to do with the admission of Albania to the United Nations.

Proclamation

I hereby proclaim the week August 18th to 24th to be known in this City of Charlottetown as "Veterans Week".

It is my earnest wish that all citizens remind themselves of the obligations we are under to those gallant men and women who fought that we might continue to enjoy, as we now do, the freedom of living in a democratic country. Let us see to it that as far as is humanly possible no stone is left unturned to the end that everything that can possibly be done in the way of finding employment and in helping these Veterans re-habilitate themselves is done.

Only by so doing can we pay back to them the debt we owe.

The rolling stream of life rolls on, We still think of those happy days when we were all together. Of one who once sat there.

The years they wipe out many things, But this they'll wipe out never, The memory of those happy days when we were all together. Fondly remembered by his wife and children.

Minister Denies

Approval Given For Wage Increase

OTTAWA, Aug. 16 (CP) - Labor Minister Mitchell today denied reports that government approval had been given to a wage increase of 10 cents an hour for Canadian railway workers.

Mr. Mitchell said, "My information is that negotiations are going on between the union and railway on wages." Unconfirmed reports have been current that an increase of 10 cents-an-hour has been offered, but the unions are anxious to know what figure will be set in the steel strike before making a decision.

Canadian railways employ a total of about 170,000.
