

George In A Jam At East Royalty

The East Royalty Dramatic Players added another successful dramatic performance to their credit Monday evening, the 17th inst., when they presented Lillian Mortimer's hilarious comedy drama "George in a Jam", before an audience that completely filled the Healy Hall at East Royalty.

INSINCERITY

Opinions and performing their part in the development of their country. "I suggest that there is no question as to the policies of our party on great national problems," the Prime Minister continued.

Dismissing the Ottawa trade agreements and other trading arrangements reached with non-empire countries, the Prime Minister declared they had been fought by the opposition on every occasion, particularly the preferential Empire agreements.

"I thought Mr. King was sincere when he attempted to negotiate preferential trade agreements in 1923," said Mr. Bennett. "But when what had been dreamed of and hoped for became a realization in 1922 they voted against them on every occasion."

"But now the Opposition leader is no longer so vigorously opposed to the agreements," said Mr. Bennett who saw in a recent speech by Mr. King a "recantation" from the stand he had earlier taken.

CITY POLICE SEIZE LIQUOR—City police seized a small quantity of liquor on Alley Street last night. An arrest was made in connection with the seizure.

FERRY HAS DIFFICULTY IN CROSSING—Charlottetown harbor is frozen over and the Rocky Point Ferry had considerable difficulty in making the crossing yesterday. Last year the ferry made its last crossing on December 10, while the previous year the last trip was made on January 19th.

QUEEN SQUARE SCHOOL CONCERT REPEATED—The Queen Square School concert was presented again last night to a packed house. As on the previous night each number received enthusiastic applause which well deserved. The boys acquitted themselves very creditably and showed that they had been carefully trained.

GYROS HOLD CHRISTMAS DINNER—The Gyro Club held their annual Christmas dinner at a large happy return to the club. Santa Claus arrived during the meal. With him he brought Governor Rod MacDonald from Moncton, who was present during the ceremony of presenting the gifts, after which hearty felicitations were tendered to Mr. Sterns and to Mr. Mould, managers of both hotels where the Gyro Club lunch during summer and winter. A program of new songs was rendered, and each member of the club wished happy returns to the chairman, Mr. Russell Chandler, and to the proprietors of the hotels. Governor MacDonald brought the good wishes of the Moncton club and stated that very soon the Boston club would be included in District Six.

Bennett, and had "profoundly affected the system under which we live." Profit as a dominating motive of business had existed so far back as history could reveal and abuses had developed.

Depression has brought a realization of abuses existing in the system and the Parliamentary Committee—now a Royal Commission—had been set up to investigate these abuses, and recommend to Parliament what remedies should be effected.

"The policy of the Liberal party has been against interference in business," the Prime Minister continued. "They said to leave things alone and all would eventually be well. We know by the history of the past that the policy of laissez faire is no longer sufficient. The day of the robber barons is over."

"ABSOLUTE PACIFISM"—Sir, Permit me one more word, (my last for the present), on the subject of pacifism. I realize, of course, that in any newspaper controversy the editor always has "the last word."

Surely, Sir, you did not expect anyone to take seriously your reply to my letter in the Guardian of December eleventh.

It is quite true that Christ said, "I came not to send peace but a sword." But permit me to finish the quotation. "For I am come to set a man at variance against his father, and the daughter against her mother, and the son-in-law against his mother-in-law. And a man's foes shall be they of his own household. It is very seldom that a "sword" or any similar weapon, is made use of in any family quarrel."

His life here on earth may very properly be described as "one long fight for truth and justice and mercy, but it is a fight carried out not with weapons of destruction, but with loving self-sacrifice and non-resistance, and whose crowning act was not the taking of other's lives but the giving of His own life for the sins of the world."

As for your citing the driving of the money-changers from the temple as an argument against pacifism, I do not see the force of the argument. A father may chastise his child with a "whip" or some similar instrument, but that is usually different from shooting it down or crippling it for life.

LAUD HEROISM OF CREW OF ASCANIA

Captain J.G.P. Bisset and Members of Lifeboat's Crew Displayed Seamanship and Courage in Rescue.

(By John LeBlanc, Canadian Press Staff Writer) (C. P. By Guardian's Special Wire) HALIFAX, Dec. 18.—The sea tonight gave up nine men who might have been dead but for the seamanship of a liner's skipper and the heroism of a lifeboat's crew.

And as the seamen of the freighter Usworth walked ashore from the Cunard-White Star liner Ascania, the man who had steered a tiny boat across 100 feet of storm-lashed water to their rescue confessed he had been scared a nerve before in his life as he set out to take them off their storm-tossed, sinking ship.

This was third officer E. R. Pollitt, the slender, blue-eyed sailor who headed the group of volunteers who rescued the Usworth's crew in the teeth of one of the Atlantic's worst gales in years, 600 miles off the Azores last Friday.

Frightened To Death "I was frightened to death," the Ascania's third officer declared after he and his sturdy crew had gone through the ordeal of being photographed as they came to land with the rescued. To them, the glaring lights and the barked orders of the photographers were almost as terrifying as their journey of rescue.

But not quite. "The worst part," said the third officer, "was coming down the great side of the Ascania; at any moment we felt the boat was going to be dashed to matchwood against the ship's hull. Once we were in the water, it was all right."

"All right," the third officer declared. He did not mention—others of the crew did—that a 90 to 120-mile-an-hour gale was blowing; that the seas were running from 30 to 50 feet high as the Ascania's boat set out. Nor did he remark on the fact that a lifeboat had spilled 14 men to their deaths before the Ascania's boat came alongside, three more jumped to death in the sea, over-eager to enter the tossing craft. As the boat rose on the swells against the stricken British freighter's side, the third officer said that he had seen the Usworth's decks into the boat.

So close to the Usworth was the lifeboat that most of her oars were crumpled in the hands of the oarsmen as the boat scraped up and down. Only six were left as they were taken aboard the Ascania, to be taken aboard after 1.2 hours in the wind-whipped water.

"It was the best piece of rescue work I've ever seen," Captain J. G. P. Bisset said tonight. "The boat crew who put out did magnificent work." And he added that he could have had 10 more boats in the sea had he listened to all the volunteers who wanted to go to the rescue.

From three o'clock the Jean Jodot waited for the daybreak to see what to do. Then the Ascania came along. She made large circles around the wrecked ship and tried to approach it as close as safety would permit. The sea was so rough that nothing workaday did.

Throughout the investigation, auditors said they made no comparison of the selling prices today and five years ago. This broad question of comparable prices will be investigated later, probably through the Dominion Bureau of Statistics.
