Dorothy Dix Says—

SECOND WIFE HAS ADVANTAGES

She Reaps Benefits Of First One's Work; Can Profit From Predecessor's Mistakes

Second wives are often eaten up with jealousy of their husbands' first wives. Frequently this is not without cause, because many a poor, flustered, tactless husband will not let his departed Maria stay buried in the cemetery, but is forever dragging her out of her grave and throwing her in the current wife's face.

Of course, it is silly for a woman to get green-eyed over a ghost, but no wife enjoys being reminded that she was not her husband's first wife.

FIRST WIFE REAL BENEFACTRESS

Now, in reality, instead of regarding their husbands as their benefactors by marriage, so to speak, and being jealous of them, the alive wives should look upon them as their benefactors and be grateful to them. For where the first wife sowed, the second wife reaps.

Every man has to be broken in to domesticity. He has to be taught how to handle a broom and dustpan, and get hardened to seeing his money go to the butcher and baker and doctor and beauty and specialty shops, instead of buying him good times.

Oh, it takes a lot of work and worry and tears and heartaches and elbow grease to take a green boy and polish him off into a good husband, and that is what the first wife does.

SECOND WIFE KNOWS JEALOUSY IS FOOLISH

Now futile as is the jealousy of a second wife for a first wife and incomprehensible as it always is to her husband, it is a heart-breaking problem to many a woman who lies awake at night, sobbing bitter tears.

Perhaps these unhappy wives will take a tip from a clever woman of my acquaintance, who is the third incumbent of her husband's heart and home, and who deliberately gets herself to cut her dead rivals out by surpassing them.

So, instead of banishing her predecessor's portraits to the attic, she hung them where they confronted her husband whenever he raised his eyes from his newspaper, and where he could not help contrasting them with the glamorous young creature at his side.

Her she went sleuthing among his old acquaintances until she admittedly found out the little peculiarities of the ex-wives that were likely to have gotten on a husband's nerves.

So Number Three made good on all the counts in which the others had failed, and she never, never has to listen to her husband tell about the "dear departed."

Living & Leisure The Woman's Realm

So each of us however small, who bravely does his best will find by his example he is helping all the rest.

Never read or write in your own shadow. It robs you of light and causes eyestrain. When reading it doesn't make any difference whether light comes from the right or left, but lamp should be placed to one side of chair and a little back of shoulder.

To remove an argyrol stain from a white cotton article, moisten stain with clear water, then apply a solution of photographic hypo one tablespoonful in one pint of water. Household ammonia may be used in place of the photo hypo.

Baking spilled over in the oven creates offensive odor and unpleasant smoke. Sprinkle salt over the spilled food and it will stop both of these. Be sure to clean out the oven as soon as the baking is over so that the next time the oven is used you do not go through the same ordeal.
