The HOUSEWIFE and HER ACTIVITIES

"NOTHING BUT—" "Nothing to do but work; Nothing to eat but food; Nothing to wear but clothes...

ALL RIGHT TO LEARN TO SAY NO BUT JUNIOR MUSTN'T GET HABIT

"My child says no to everything," say the parents. "I can't get him to do anything without making a scene."

When handled tactfully during the first stages, this negative form of response soon drops away and the child forgets about it.

We should, when the child first begins to say "No," take the attitude that he does not, by this mean a definite refusal.

During this period of negativism, it is best to present him only with situations in which there is no opportunity for him to refuse.

In situations where you can not avoid giving him a chance to refuse, weigh the importance of your request and if it warrants strenuous measures, you may simply have to disregard his refusal.

Method proves easier and seems to be more permanent good. As you give your child fewer and fewer chances to say "No" to your requests, you will probably find that he is forgetting this method of behavior...

YOUR VERY OWN.

Just to prove whose belt it is, tell the world about it by having your monogram done on the buckle.

COLOR EXPERIMENT IN A SIMPLE LUNCHEON

Did you ever try shutting your eyes and trying to imagine how your meal was going to look when you put it on the table? It's very important, psychologists tell us, that we should enjoy the appetizing appearance even before we take a single bite of food.

ADMIRAL BECOMES EARL

By the death of the Earl of Cork and Orrery in his 70th year, Admiral Sir William Boyle, Commander-in-Chief of the Home Fleet, succeeds to his cousin's title.

SHORT CUTS

A Waldorf salad may follow the meat course. It is made simply by mixing diced apple and celery in equal portions; moisten with mayonnaise and a little lemon juice.

If you do not want the filling of a pie to ooze during the baking try this: Before putting the top crust on, dampen the edge of the lower crust. Then press the two crusts together with the fingers or the tines of a fork.

Smoked meats should be cooked thoroughly at a slow or moderate temperature.

If the Kiddies 'Catch Cold' Easily

Mothers, especially, welcome the introduction of Vicks Vapo-Rub, for nose and throat...

THE COOK'S CORNER

LEMON MINCEMEAT

This mincemeat is meatless, uncooked, economical, will keep for several weeks—and is easy on the digestion.

ENGLISH TOFFEE

Two cups brown sugar, 3 tablespoons corn syrup, 1/2 teaspoon salt, 1-1/3 cups sweetened condensed milk, 1 tablespoon butter, 1 teaspoon vanilla.

INFANTS' COLDS Relieved!

Young children easily catch cold. Dr. Russell Ward, of Hilton Beach, Ont., wisely says: "If I notice that there is any sign of a cold I give Baby's Own Tablets and find they are a great help."

BREAD SAUCE

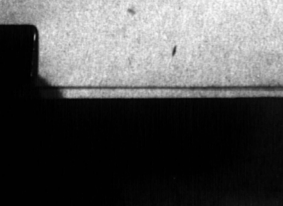

As the traditional accompaniment for turkey, and to use with chicken too, bread sauce is "coming in" now.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions the best remedy that can be got is Miller's Worm Powder.

How Would You Like to Change Places With Your Husband or Wife?—One Day of Unremitting Toil at Either Business or Housework Would Forever Still the Cry "I Wish I Had it as Easy as You do!"

A man—whose middle name surely must be Solomon—who is at the head of a big business in which he employs many men has given orders that the wives of all of the married men must come down to the shop once a month and spend the day watching their husbands work.

For there is no other subject in the world over which there are so many family scraps as there is over which one of the high-contracting parties gets the hot end in matrimony.

Now the reason that husbands and wives undervalue each other's labor and show each other so little appreciation and sympathy is that, as a general thing, neither one has the slightest idea of what the other one does.

She does not realize that the reason her husband is peevish at home is because his nerves are worn to a frazzle abroad.

And if women have little appreciation of how hard men work to support their families, men have even less appreciation of the endless labor that women perform in rearing a family and making a comfortable home.

Somehow the fact that wife gets up half an hour before he does in the morning and is still at work when he goes to bed escapes his attention.

Yet husbands continually express wonder at what women do with their time. They can't understand why wife, who has been up all night walking a sick baby and who has got breakfast and heard the children's lessons and got them off to school, doesn't look as peppy and fresh and have her hair as beautifully combed as the stenographers.

PUFF: Now you're removing stale cosmetics the modern way—with Lux Toilet Soap. PEGGY: Sure—I'm taking no more chances. No ugly Cosmetic Skin for me!

When they have nothing to do but cook and wash and iron and make one dollar do the work of five.

The old proverb says that one-half of the world does not know how the other half lives. Of none is this truer than of husbands and wives. And there would be a great domestic reformation if the wife and husband could occasionally change jobs and find out from actual experience how heavy are the other's burdens, how much of effort, or self-denial the other put into the making of the home and the supporting of it.
