the
Bride"

June is "Home-making Month" and we are Ready for the occasion Get the Woman-We'll furnish the Home

As customary the flowery month of June will witness many weddings. June is the traditional month for marriage. Before the echo of the wedding bells grew still the minds of the bride and groom wander consciously or unconsciously with pleasant anticipations of the place they can call their home. So much depends upon the home surroundings—the home furnishings, they really make the home itself.
