Two young men from the country districts were severely threatened by a prominent city gentleman, a few days ago. The two were leading a cow into the city behind their carriage, when the rope in some mysterious manner became entangled in one of the wheels, thus causing the animal to turn a somersault. The onlooker, above referred to, considered it a case of cruelty to animals, sufficient to subject the young men to prosecution and several days confinement behind prison bars. After a severe reprimand and penitent promises for the future they were allowed their freedom for an indefinite term, pending good behavior.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he showed its carrying power to be much ahead of what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise. Instead of disappointment, it is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.
