TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parmin (double strength), and add to it 1/2 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

A FISHERMAN FINDS MANY DIAMONDS.

Were on ill-fated Steamer Lusitania and Went Down When That Ship Was Torpedoed.

BANGOR, Me., Sept. 13.—One of the strange happenings at sea which can hardly be explained has become known here and has a local interest on account of the connection of an insurance company of Bangor with the incident related. The Bangor insurance company carried a risk of \$13,000 on a shipment of diamonds which was made from New York to London in the ill-fated Lusitania. After the sinking of that great ship, which constituted a world tragedy, the usual formalities were carried out in claims for insurance on the diamond shipment, among others, and the Bangor insurance company paid the loss in due course of time, the incident being considered as closed.

Found by Fisherman.

A long time afterwards a fisherman on the Irish coast upon hauling in his nets discovered a package which seemed worthy of investigation. Taking it ashore and drying it, he was able to discern the name and address of a London concern dealing in diamonds. The fisherman soon forwarded the package to the London concern, which discovered that it was the identical package of diamonds which had been shipped in the Lusitania. The fisherman was paid the proper salvage and in due course of time the insurance company received a refund of the amount of insurance paid by it.

As the diamonds were presumably safely locked in the purser's vault on the Lusitania, many people have conjectured as to how the package finally floated away from the wreckage. Of course there is no answer to the puzzle, but the most acceptable theory appears to be that the purser or assistant made an attempt to save some of the most valuable parcels and packages entrusted to their care, and had taken them from the vault, but had been unable to proceed further with the act of salvage.

WEDDING BELLS.—The home of Mr. Thomas G. Hodgson, Hills River, P. E. Island, was the scene of a wedding of unusual interest on Wednesday morning, September 12th when his youngest daughter May was united in marriage to Lieut. J. P. White a hero who served in the famous Princess Patricia Regiment from the beginning of the war till forced to return a year ago suffering from shell shock. The young couple, preceded by a tiny page, Tommy Larkin, nephew of the bride, entered the drawing room to the strains of the wedding march played by Miss Pearl Lockerby, and took their stand under a bell made of white flowers suspended from a cedar arch and where the wedding ceremony was performed by the Rev. George Millar. The bride was beautifully gowned in ivory satin made en train and trimmed with embroidery in silver and pearl. She wore the conventional veil and orange blossoms and carried a bouquet of roses. Her only ornament was a platinum and diamond necklace, the gift of the groom. After the ceremony, a dainty luncheon was served, the dining room was decorated with flags and bunting, and only the immediate relatives were present. A waiting automobile took the bride and groom to their new home in Charlottetown early in the afternoon, where they are followed by the good wishes of their numerous friends. Many beautiful gifts bear witness to the high esteem in which the young couple are held, conspicuous among them being a handsome cabinet of silver, presented to Lieut. White by the members of the Railway Construction Corps, who had received instructions from him prior to their departure.

105TH GIFTS APPRECIATED.—It will be remembered that a few weeks ago the Guardian announced that the Young People of St. Eleanor's, who held a dance and social, sent the proceeds \$20,000 through Mr. G. D. Montgomery of Summerside to the Secretary of the 105th Comfort Circle with a request it be used to purchase "smokes" for some of the boys of the old 105th. This was accordingly done, and as the 105th boys in the five other battalions were supplied with "smokes" purchased with some of the money earned by the Circle through selling buttons, the gift from the young people of St. Eleanor's was sent to the other 105th boys who are still with the 104th. This gift which has now arrived safely seems to have been a particularly welcome one. Speaking of it and other gifts from the Circle, Colonel Ings, O. C. 104th Battalion, in a letter dated Aug. 11th says: "Your letter of the 25th July arrived two days ago. I was very much pleased to find out how much work had been done for the 104th. The parcels began to come in yesterday and the following have arrived up to date: Parcels Nos. 26, 27, 28, 29, 30, 31 and 32. Cases Nos. 1 and 2 which were shipped will no doubt come in very shortly. I am writing Mr. Wadman, Boston, to thank
