HORRIBLE MURDER IN BOSTON HOUSE

Body of Woman Cut in Pieces Found in Trunk. Chester Jordan Arrested.

BOSTON, Mass., Sept. 7—The most horrible and brutal crime committed in Greater Boston since the Susan Geary murder of four years ago, and much resembling it in its details, was disclosed tonight by the discovery of the dismembered body and mutilated pieces of flesh of Mrs. Honora Jordan, an actress, aged 23 years, of Somerville, in a trunk in a boarding house at 7 Hancock street, on Beacon Hill.

Chester Jordan, an actor, aged 29 years, of 509a Medford street, Somerville, is held by the police, charged with the murder, and made a full and complete confession of the crime according to the police.

According to Jordan's confession he accidentally killed his wife Tuesday night in a quarrel at their home and becoming frightened at the consequences, went out and bought a butcher's knife and hack-saw, cut up the body and hid it in a trunk. He then planned to take the steamer Harvard which would have left, according to schedule, on Wednesday night, for New York and throw the parts of the body overboard. The fact that the Harvard was laid off, owing to an accident, upset his plans, and he was obliged to hire a hackman to take the trunk to a Boston boarding house to await a more favorable opportunity.

MANY INJURED IN HOTEL FIRE

Midnight Alarm Causes Panic Among a Hundred Sleeping Guests—One Dead And Others Probably Will Die.

DENVER, Colo., Sept. 8—(Special)—One man plunged to his death and half a dozen others threw themselves from windows, sustaining probably fatal injuries in a panic that followed the discovery of fire in the Belmont Hotel early today.

The guests were awakened from their sleep by a cry of fire, rushed pell mell into the halls, were hemmed in by the flames on all sides and in the effort to escape fought and struggled until the rescuers were forced

back by a column of smoke and the mounting flames. It was estimated by the management that at least 100 persons were asleep in the building when the fire started. All of them jumped from their beds, dressed only in their night robes. As soon as they reached the street they were taken to other hotels and given shelter. It is believed that the fire started from defective wiring in the third story.

WAS IT FOUL PLAY CAUSED THE DEATH

OTTAWA, September 7—The coroner's inquest into the death of James Carroll of Nova Scotia, clerk in the audit office, began yesterday. Upon examination it was found that the neck of the deceased was broken, and it is thought that either this injury or the injury in the face could not have occurred while the body was in the canal. A post mortem was held last evening, and a report from it will be made to the coroner's court tomorrow.

The mistress of the apartment house where the deceased lodged had not seen him since Monday night, when he left the house his body was not found until Saturday. This lady, Mrs. Sprague, said that Carroll had been residing at the apartments three months. He was quiet and gentlemanly man and had no enemies. He was an intimate friend of the late Dr. McLennan, M. P., and was greatly distressed over the latter's sudden death. The body will be sent to Glace Bay for burial. It is understood that Mr. Carroll's brother, a barrister of Glace Bay, is coming up to attend the investigation.

FATHER SOLD HIS SON.

ONEONTA, N. Y., Sept. 7—Earl Hill, who, with an accomplice, is charged with the murder of Eldridge Davis, a Bainbridge farmer, on Thursday last, and for whom the officers of Norwich and Oneonta have since been searching, walked into his father's home here this morning and said that he was hungry. He was fed, and then the father walked him over to the municipal building, turned him over to the officer in charge and demanded the fifty dollars reward that had been offered for Earl.

THE MECHANICS HAVE NOW COME

MONTREAL, Sept. 7.—The first in statement of British mechanics being imported to take the places of the strikers landed here today, when 150 men landed from the C. P. R. liner Lake Erie. These men comprised machinists, boiler makers, blacksmiths and other metal workers and many of them were experienced railway workers. It was stated that the C. P. R. officials stated that this was merely the first instalment, and that several parties of mechanics are now on the Atlantic on their way to Montreal. The men, as soon as they arrived were driven to the Angus shops, where they will be housed until they are distributed to the various points along the line where they are needed.

It was stated at the C. P. R. offices that by now nearly two-thirds of the strikers have been permanently replaced and that when the last few of their way from England arrive the company will have a staff almost equal in numbers to that which it had before the strike, so that when the unions declare the strike over there will not be any opening for them.

Miss Renke was a member of a boating party on the Detroit River last night and the first news of her death was that she had fallen into the water when going ashore at Robarg's resort, at head of the river. A physician was called to attempt resuscitation, but the young woman was dead when the doctor arrived. Later the injuries found on the body aroused comment, and it was also remarked that the girl's hair was dry.

DON'T MAKE IT TO HAIRD FOR MULLA HAPID

Berlin, Sept. 7.—The delay in the issuance of the joint French and Spanish note to the powers relative to the situation in Morocco is due to the amendments made by Spain to the French proposals which prolong the negotiations. Spain, it is learned, officially here, thinks it is wise not to require Mulla Hapid to accept so many conditions as France first suggested. The position taken by France ten days ago is believed to have been materially changed in consequence of the attitude of Germany and Spain.

EXPLOSION IN BOSTON

BOSTON, Mass., Sept. 7.—A gasoline explosion in the basement of the Taylor-Palmer garage, a three-story structure at Back Bay, early today practically ruined about eighty automobiles and wrecked the interior of the building, causing an estimated loss of \$200,000. None of the seven or eight employees in the garage at the time was injured by the explosion, but two firemen sustained painful, but not serious injuries, during the fight to keep the flames from spreading to the adjoining buildings. The sharp explosion of the gasoline tanks on the automobiles spread the fire so rapidly that four alarms summoned a large amount of apparatus to the scene. Adjoining the garage on one side was the New Century building, containing Potter and Howe halls, several offices and stores. This sustained a smoke and water damage as did the brick apartment house on the other side. The tenants in this building were obliged to move hastily as it was feared the flames might sweep through the block. A large quantity of gasoline was stored in a fire-proof tank in the basement, but its thick walls and the deluge of water prevented a disastrous explosion. The majority of the losses are covered by insurance.
