

FRIDAY
AN AUTO TOUR.—Messrs. Willard McFadyen, Harry Perry, Harvey Gray of New Glasgow, N. S., arrived in the city by the Annapolis yesterday. They left with Dr. Austin Chapman in his car yesterday afternoon for Summerside and intend going through to Tignish.

A GOOD APPEARANCE.—The Post Office Garden, Georgetown, which are designed and owned by Mr. A. D. McLellan, Fort Mac, are a credit both to himself and to the town at large. If there were a few more beauty spots on Main Street, Georgetown would indeed be an ideal place.

TWICE WOUNDED.—Mrs. James McNelis, Upper Queen Street, City, received a telegram notifying her that Gunner James Kinsman, artillery, has been admitted to the 15th General Hospital, Camiers, with a gunshot wound. It is only a few months since this gallant young soldier was wounded the first time and only returned to the front a short time ago. Mrs. McNelis is an aunt of Gunner Kinsman.

THE BAND APPRECIATED.—The patients at the Dalton Sanatorium were very agreeably entertained on Sunday afternoon last when the band arrived from Charlottetown and rendered some very delightful music. The members of the band were conveyed to Dalonia by Mr. Sterns in his big car. Before leaving, the members of the band were treated to ice cream and other light refreshments and altogether a very enjoyable afternoon was spent. The boys at the San appreciated the music very much and also the spirit that prompted the band to furnish their services in such a worthy cause. Too much thanks cannot be accorded Mr. Sterns for allowing the use of his car and driving the band out.

Keep Children Well During Hot Weather

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if trouble comes suddenly, as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The fourth annual convention of the Prince Edward Island Women's Institutes opened yesterday afternoon at 2 o'clock in the Prince of Wales College. Miss Hazel L. Sterns, the supervisor, presiding. The proceedings opened with the singing of "O Canada," with Miss Bessie M. Crosby, presiding at the piano. An address of welcome was delivered by Hon. Murdoch McKinnon, Commissioner of Agriculture, who expressed his pleasure at meeting the delegates and welcoming them to the city and province. He welcomed them as they were too prone to consider themselves but as an institution which has come to stay. The members have done well so far and are destined to do much better. The work being done has a future ahead of it. While the whole province has not yet been covered with institutes, very satisfactory progress has been made. As far as the institutes have extended, the results attained have been highly commendable. The assistance rendered to the schools has been particularly good. In Red Cross and similar patriotic work wonders have been accomplished. The time will come when this branch of endeavor will pass, but the institute will still have its work ahead of it.

The sum of \$450 was spent on the school in providing new floors, desks, covers, drinking fountains, individual drinking cups, libraries, painting schools, improving the grounds, etc. Two of the institutes have supplied four honor rolls in their districts. In addition to these amounts of money 419 boxes were sent to soldiers, also 2,800 pairs of socks, 47 pyjamas, 123 shirts, 21 sheets and 32 pillow cases have been supplied. Evening Session.
 A splendid meeting was held in the evening, Miss Maud Haslam, of Springfield, presiding. A fine patriotic song by Professor Barlow and a delightful humorous reading by Mrs. Charman were greatly appreciated. Prof. McLarty, B. S. A., gave an illustrated address pertaining to educational improvement, improving the home life, having better teachers, better schools, and an educational system suited to the needs of the people. He showed how the home, the school and the church have their place in the life of the people. There was an address teeming with good common sense ideas; progress was the keynote and it dealt in large measure with factors making for the ideal country school, especially as they apply to this province. Rev. Dr. Fullerton in a capital address referred to the overwhelming influence of women along the lines indicated by Prof. McLarty. Some, he said, would see these ideas realized, but not all.

The speaker spoke largely from a patriotic standpoint. He said that in the first year of Red Cross work this province was the banner one per capita in giving due largely to the way the Institutes gave up their time to the work. He said that there was to be shortly a Union Collection for the Red Cross, the proceeds going towards the French, British and Canadian Red Cross. By the cooperation of the women this could be made a huge success. The fact that the Canadian soldier in the trenches now receives a clean pair of socks every day is a tribute to the devoted work of the women. The doctor said that when the men returned at the close of the great struggle they would be changed men. "We look, said

he, "to the women to be the guiding forces in influencing our changed men, that the far-reaching influence of this war for the better upon them, may not be lost."
 Mr. Percy Pope also gave an excellent address on the work of the Handicrafts Guild, touching on various matters of vital importance. The National Anthem brought the meeting to a close. The next session will be at 9 a. m. today, a feature of which will be an address on Women's Institutes in Nova Scotia, by Miss Jennie A. Fraser.

Witley Camp, Surrey, Eng. June 23, 1917.
 Mr. Clayton Morrison, Trion received the following letter recently from friend Clayton—
 I suppose you will think it funny that I have never written to you before, but you will have to forgive me for not doing so.
 Today, as I was thinking about old Trion and friends, I thought it would be only right to drop a line to let you all know I'm still in the land of the living, and well, and I hope that this letter will find you and all the rest enjoying the best of health.
 It is quite a while since I've seen you, and I suppose things have changed considerably around the old town. I see you today, and send their best regards to you all. I suppose you know that A. Letourgey has gone to France. We had a letter from him the other day. He is fine. Also, that Earl is better again, and he hopes to be able to get up to see us soon. He doesn't think that he will be able to go back again.
 Well, Clayton, it's about time this outfit was in the trenches, isn't it? But suppose we will see lots of scrapping yet, so we should worry. There are a lot of air raids in one place and another. There are some sports on today in Giddalming. It would be nice if you were here to take part in them. There is base ball, running and jumping, etc. It's a good way to pass the time away, but still it would be far nicer if this war was over and the boys all back safe home again. May God speed the day when we shall all be together again.
 Give my best regards to your Father or Mother. I hope they are both here amongst the camps. I was quite ill for some days myself, but am better now.
 Well, Clayton, I hope to be praved for that I may arrive back safe home

again after I've done my share in this awful struggle. And please remember me to all my inquiring friends, and write me a nice letter. With Best Regards,
 I remain, Your True Friend,

Fourth street, is looking for some American relatives who he believes are residents of this city. The young soldier's name is W. H. Collins, and he is a member of the 236th Battalion. His father is Dr. W. C. G. Collins, of the Gables, Brewham, England. The story of how Private Collins, who, judging from the way he rolls his "R's" is probably called "Wuh-lee" by his father, came to enlist in Canada is a story of Scotch determination. About a year ago young Collins, enlisted in a company of Highlanders at Bath, England. He was considerably under eighteen years of age at that time, and his mother took steps to get him out of the British army. She was successful, but that only made her son more determined to go to the front. He left home and worked his way to Canada, and immediately enlisted in the Canadian battalion, of which he is now a member. He hopes that he will be on his way to France before long, but before he leaves New York he is anxious to find his relatives.

The Story of the Stairs
 Every time you go up stairs you can test your state in health—the condition of your blood. Do you arrive at the top of the stairs breathless and distressed? Does your heart palpitate violently? Do you have a pain in your side? Perhaps you even have to stop half way up, with limbs trembling and head dizzy, too exhausted to go further without resting. These are untelling signs of an anemia. As soon as your blood becomes impoverished or impure the stair-carrying becomes an instrument of torture. When this is so you are unfit for work; your blood is watery and your nerves exhausted, you are losing the joy of an active life and paving the way for a further break down and decline. In this condition only one thing can save you. You must put new rich, red blood into your veins, without delay and so built up your health anew. This new, rich blood can give Dr. Williams' Pink Pills a fair trial, and they will give you new vitality, sound health, and the power to resist and throw off disease. For more than a generation this favorite medicine has been in use throughout the world and has made many thousands of weak, despondent men and women bright, active and strong.
 You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Everyone Else Has One
 The stamped for flag outfits which marked the opening of the grand distribution has settled down to a steady stream of eager flag seekers. Stacks upon stacks of these excellent and timely banners have fairly melted under the ceaseless onslaught made upon them. The allotment for this city is as large as this newspaper could secure through the cooperation with the leading daily newspapers in all Canadian cities to place the Empire's emblem directly into the hands of our citizens, and though the number was great, continued inroads may soon exhaust them.

Did You Get Your Flag?
 There's no need to be without a flag outfit now—the way has been made smooth, the expense almost eliminated, the quality of the flags high. Every emblem is the most procurable of its kind—not to be compared with the cheaply made flag, or small flags or stamped or inkprinted flags, but a "regular" Union Jack in every sense of the word.
 Easy to put up—just the work of a minute. Into the socket, securely clamped to the window sill, slip the end of the rod and let your colors snap in the breeze. The colors are dyed in—fast and brilliant, the bursting is wind-tested and weather-tough, the pole is six feet long, brass ferrule joined in the middle, complete with ball and ballard. The window socket is rust-proof metal, and the whole outfit comes compact in a stout carton case in which to preserve it for a lifetime of use. The \$5.00 Outfit Complete is \$2.25.
