Gov't Revokes Orders Covering Jap Deportation

OTTAWA, Jan. 24.—(CP)—Most of the Government powers taken to deal with the wartime problem of Japanese in Canada—23,000 were within her borders in 1941—have been lifted and Prime Minister King said today their repeal marked the "substantial completion" of the Government's internal Japanese program.
Specifically the Prime Minister announced:
1. Orders permitting deportation of Japanese have been rescinded.
2. Repeal of orders-in-council authorizing establishment of a special commission to investigate loyalty of persons of Japanese origin.
3. An order revoking the Canadian status of naturalized persons of Japanese origin who leave Canada has been repealed.
4. Restrictions on movement of Japanese in Canada, at present in effect, will be continued along with provisions respecting issuance of fishing licences to Japanese.

Stalin Agrees With Bevin But Suggests Pact Be Revised

LONDON, Jan. 24.—(AP)—Prime Minister Stalin has agreed with Foreign Secretary Bevin that the 20-year British-Russian alliance has not been "repudiated" but has suggested that it will have to be revised and strengthened if it is to be extended to 50 years, an exchange of notes disclosed tonight.
"It is now clear that you and I share the same viewpoint with regard to the Anglo-Soviet treaty," Stalin said in a note written Jan. 23 and released by the British Foreign Office.
But he added with regard to Bevin's repeated proposals to extend the treaty until 1992: "I must say that if one is to speak seriously of such an extension, then, before extending this treaty, it is necessary to change it, freeing it from the reservations which weaken this treaty."
The exchange of notes appeared to have settled the tempest which began Dec. 22 with Bevin's radio review of foreign affairs which contained the statement that Britain "does not tie herself to anyone."

Coldwell Says 3 Parties Back Free Economy

OTTAWA, Jan. 25.—(CP)—M.J. Coldwell, C.C.F. leader said tonight the government "is determined to lead the Canadian people back to a so-called free economy" and that it was being "staunchly backed" by the Progressive Conservative and Social Credit Parties.
In an address prepared for delivery on a CBC free-time political broadcast, he said "the Liberal Party is committed to that goal... rumor has it that they aim to reach it by the end of 1947."
"Yet," said Mr. Coldwell, "their policy is the precise cause of our difficulties. For it is clear that we need a national plan for peace, as we had one for war. Planned production for human needs is no wild suggestion. It is a 'down-to-earth' practical policy now being undertaken by most democratic governments."
He maintained that Canada had no choice between "controls and no controls."
"The real question is what kind of controls—by whom for what purpose? And the choice is clear."

brought to a close by singing Hymn 242, "Light of the Lonely Pilgrim's Heart."
Business period was then taken up. The minutes of the last meeting were read, approved and adopted, followed by the roll call which was answered by 16 members and four visitors. Treasurer reported \$246 collection and \$6.21 from "Mite Boxes."

It was agreed to bring same to the next meeting. The president also read a letter regarding Presbyterian to appoint delegates to attend the meeting held in Charlottetown next month. Those appointed were Mrs. Mark Cameron and Mrs. William MacFarlane.
Mrs. Clayton Morrison kindly invited the members to her home for the February meeting.
The meeting was then closed with a prayer by Rev. Mr. Jackson. Lunch was served by the hostess and a social half hour spent while the secretaries of the different branches of the work made out their financial reports, which showed that the allocation was over-reached.

On the one hand a choice of irresponsible controls by private corporations over which you or I or the House of Commons have little or no influence, exercised in a hundred and one ways by private interests for private profit.
"But, on the other hand, we have the choice of democratic control, under broad economic policies laid down by Parliament by the freely elected representatives of the Canadian people, and dedicated to the welfare of all. That is what the C.C.F. wants."
Mr. Coldwell deplored the action of the government in dropping the milk subsidy against "the will of Parliament" and said that two weeks after this step the subsidy being paid to the Dominion Steel and Coal Company was jumped. Such corporations had been granted subsidies amounting to millions of dollars over the years.
He said less than one-third of every dollar spent on construction in 1946 was spent on housing and held that the answer lay in the fact that "the government cannot control or is not interested in controlling private interests who can make more profit by building a brewery or a theatre than they can by building houses."
His party, in the session of Parliament opening this month, would call for a revival of the milk subsidy, restoration of effective price control, a public housing program, a planned policy for agriculture, a national labor code and "a comprehensive plan for industry."
