The President, Jas G McCallum, occupied the chair, and opened the meeting by reviewing the business of the past year, showing the excellent standing of the Company and the very successful year just close; he was satisfied that every policy holder would be pleased.

Representing nearly 90,000 Insurance.  
J. S. Hinton, Alex Campbell, Managers

We the directors of the P. E. I. Agricultural Mutual Fire Insurance Company, in presenting to our policy holders the above annual statement, have to say that the business of the year just closed shows a satisfactory record every policy holder being satisfied with some of the large insurances companies have staggered and the loss of heavy losses during the year has been enabled not only to pay all losses and expenses but to add materially to our capital as well, so that our net profit during the year by our assets have been called upon to pay, our assets have been increased during the year by \$1,055.51, leaving a balance now on hand of \$16,826.24 for the security of policy holders. Our business for the year amounted to 1066 new policies and renewals representing nearly 90,000 of insurance.

With continued good management, caution by agents and directors in the selection of risks and experience of the past eighteen years should lead us to face the future with equally bright prospects of success.

Signed on behalf of the Directors by  
D. E. CAMPBELL,  
JOHN JOHNSTON,  
ALEX. CAMPBELL,  
Committee.

The Board of Directors and Manager received an unanimous vote of thanks and on behalf of the policy holders re-elected for the ensuing year.

One day last year a city gentleman called at St. Martin's le Grand with the object of consulting a directory and finding the address of a customer who lived in a remote part of Dalhousie. He was not acquainted with the locality and was most anxious to see his customer at once. These facts he mentioned to an obliging clerk behind the counter.

He was at once informed that he could be sent to the required address by registered post at a fee of threepence a mile. The gentleman gladly accepted the offer, and in less than a minute found himself in charge of a smart messenger boy, who very soon guided him by the shortest route to his destination.

The boy carried in his hand a printed slip with a description of his charge under the heading "Articles required to be delivered," and this he required the gentleman and customer to sign before he left the factor's house.

It is probable that very few people are aware of the facilities under which this service is rendered. How far it is extended, it reads thus: "A parcel may be conducted by registered post to any address on

## PACKING HOUSES IN OPERATION

### Non-Union Men Filling the Places of the Strikers, and No Stoppage in Any of the Departments—

Charlottetown, July 13.—To-day there are no indications of the packing house proprietors that the big strike would not cause stoppage of operations. In the great abattoirs things moved a little today, but they moved. All the packing houses reported that they were slaughtering a little. Every department was said to be doing some work, and was expected to increase the activity tomorrow. Loading and shipping was in progress though heavily curtailed, as was the buying of cattle. Some hundreds of new workmen were hired in part to work in the places which had been vacated in thousands.

On the other hand the strike spread somewhat by the action of transmitters in considerable numbers, but ostensibly acting as individuals refusing to handle products touched by newly hired non-union workmen. This refusal was usually based on the plea that a different course, contracts notwithstanding, would put the teamster in peril of his life. Extensive installations of sleeping cots and cooking apparatus for strike breakers at the various packing houses was apparently the main irritant cause for action by the transmitters though there were a number of sporadic outbreaks on a small scale. The packing house proprietors did not appear to share the alleged fear of mobs. J. O'Brien, manager, alone in a runabout, made a tour of the dock yesterday and returned to the city. He was accompanied all the way by strikers, but met with no disturbance.

Attracting fresh allegations that the strike was increasing was President Donaldson's remark that he gave out the following statement:

"Our organization is taking a stand against a method of wages for labor in the plants owned and controlled by the following companies, which are those affected: Wm. & Co. S. I. & Co., N. I. on Morris & Co., Natio at Packing Co., Schwarz & Co. and Dozbeurzer and Carahy. All our organization asks is that 18 cents per hour be the minimum. All of the independent companies are paying a much higher rate than we are asking the transmitters to pay."

Will be paid by the World's Dispensary Medical Association, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 15 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not for a long time bear any solid food in my stomach; felt melancholy and depressed. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

A man can succeed and be strong if he heeds Nature's warnings. When there is indigestion, loss of appetite, ringing in the ears, dizziness, spots before the eyes or palpitation of the heart; any or all of these symptoms point to weakness and loss of nutrition. Dr. Pierce's Golden Medical Discovery is the medicine to turn to.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is strictly a temperance medicine. Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

The "Common Sense Medical Adviser," 700 pages, in paper covers, is sent free on receipt of 25 cents stamps, to pay expense of customs and mailing only.
