MR. JONES IN OTTAWA—Mr. J. Walter Jones, M. L. A., Brunswick, is representing the Provincial Department of Agriculture at a meeting of the Dominion Fur Council at Ottawa. Mr. Jones is not expected home until late this week.

JUNIOR BOARD COUNCIL MEETING—The Council of the Junior Board of Trade met last night at the Board of Trade Rooms. Discussion took place on Board policy and it was pointed out that the chairman of the various committees would be called upon at the next general meeting to give progress reports of work accomplished thus far. It was decided to call a general meeting of the Board for next Monday, April 24th.

FUNERAL YESTERDAY—The funeral of the late Mrs. A. D. Fraser was held from 2 to 4 p.m. yesterday afternoon when services were conducted by the Rev. G. Carlyle Webster. Rev. Mr. Webster also officiated at the funeral. Burial was at the People's Cemetery. Pallbearers were Messrs. Murdoch Ross, P. J. MacDonald, Frank Dillon, John G. George, W. MacLeod, Gordon Warren.

FERRY TERMINAL WORK DELAYED—Construction of the ferry terminal at Wood Islands would not be resumed for another week or ten days. Mr. H. E. Miller of the Federal Department of Public Works here said last night. Earlier it had been intended to resume work about the 15th of April but Northumberland Strait at the terminal was still blocked with heavy drift ice preventing moving of floating equipment. Construction carried on by the Dominion Construction Company, Limited of Toronto, was well advanced when the work discontinued last night. The project was said to have survived the winter storms and onslaughts of drift ice very well.

ISLAND NATIVE IS INJURED—Suffering from a broken back, Mrs. A. Murphy, 203 Crichton Avenue, Dartmouth, was a patient in the Halifax Infirmary last night in serious condition. The injury was sustained in escaping from a burning home early yesterday morning. Mrs. Murphy was brought to hospital in Halifax yesterday morning after she had been attended by a physician in Dartmouth. Extent of her back injury was not known until she was examined in hospital. She fell 12 feet from the veranda roof in attempting to escape. A smoke-filled house after fire started about 1 a. m. Three children reached safety without injury. Halifax Chronicle, April 16. (Mrs. Murphy was formerly Miss Edna MacDonald, Georgetown, P. E. I. Mr. Murphy was formerly a resident of Panmure Island, P. E. I.)

B. I. S. Monthly Meeting Held

The regular monthly meeting of the Benevolent Irish Society was held in the Society's Hall Thursday evening, April 13th. There was a very large attendance of members. President F. P. Mahan occupied the chair. To the several members who were initiated, the president and members of his executive gave brief addresses of welcome in which the objects of the Society were outlined. The Secretary G. J. Costello received and read communications from many prominent citizens complimenting the Society on the raising of the plan for St. Patrick's Day and also for the excellent charitable work which the Society was doing throughout the City. The forthcoming business for the year was discussed and a considerable amount was voted for miscellaneous charity work. The 2nd Vice-President William Somers informed the meeting that the social evenings this year would be carried on in the usual manner. There had been a new social evening committee formed and everything was being done to ensure a successful year.

DEATHS

MUNN—At Belle River, April 17, 1939, John D. Munn, aged 70. Funeral from his late residence Belle River on Thursday at two o'clock.

WOOD—At Peake's Station on Monday, April 17, 1939, John Wood aged 86 years. Funeral Wednesday morning to St. Theresa's Church.

MORAN—Suddenly at Charlottetown on April 18, Arthur D. Moran, son of the late Michael J. Moran, aged 59 years. Funeral from his residence, 422 Weymouth St. on Thursday, April 20 at 8.45.

ENMAN—At Augustine Cove, on April 18, 1939, Mrs. John Enman aged 78 years. Funeral Thursday, April 20. A short service at the home at 1.30 P. M. followed by service at Tryon United Church.

In Memoriam

In loving memory of Rosa Stewart MacTurko, who died April 19, 1939. We often stand beside your grave With hearts still sad and sore And think we hear these loving words "Not dead but gone before." Sadly missed by Mother, Father, Brothers and Sisters. L-406-4-19-11.

Reviews Policies In Department Of Agriculture

Minister Pays Tribute To Press Of Both Parties For Cooperation Shown In Promoting Farm Activities

Policies pursued under his administration were outlined in the Legislature last night by Hon. W. H. Dennis, Minister of Agriculture. Dennis followed Mr. Trainor in the Budget debate and was in turn followed by Messrs. Barbour, Cox, MacKay, Foley and Mustard, the latter moving the adjournment at 11.30 p.m. when the House adjourned until 11 o'clock this morning.

New activities in his department were cited by Mr. Dennis in connection with hog extension, poultry extension, youth training, development of cranberry culture, adult education, horse breeding policies, poultry club clubs, ground limestone policy, community garden and fox promotion work.

It was decided when he took over the department to centre a great measure of attention on poultry and hogs, for the reason that in those phases of agriculture the poorer classes of farmers could more cheaply get into the business of producing than in any other line of livestock, and could more quickly recompense himself, Mr. Dennis said.

Poultry Clubs

Boys and Girls' Poultry Clubs were established with the idea of inculcating a love for livestock and the farm home. An unusual success was realized in this undertaking, 18,000 chicks being supplied to members of Junior Chick Clubs during the winter.

Assistance in the purchase of chicks by members was given to the extent of \$4.00 per hundred, 12 chicks were organized in Dartmouth. The interest that has been aroused in an organized way through the medium of these clubs, a vast amount of improvement in the poultry industry has been established, the Minister declared.

"In general," he added, "we find an unfortunate tendency on the part of flock owners to retain in their flocks a large number of unsatisfactory conformation, and non-producers. These birds have lowered the productive capacity of the flocks and have reduced materially their revenues. To overcome this weakness in the industry, the Department appointed poultry cullers who, during the season, handled 1014 flocks, in which 63,247 birds were handled and 14,820 were moved as non-producers. During the last three year period, 260,000 producing hens were handled in this way and over 60,000 misfits were removed for slaughter.

Hog Production

With regard to hog production, the Department had laid down a program of at least one brood sow for every farmer on Prince Edward Island. "Hog production which is an important phase of farm production at all times had sagged back to a very low level in the case of the hog population of Prince Edward Island was concerned. Through the establishment of judicious policies and particularly with reference to extension of brood sows in districts that were almost nude of marketable hogs, much has been accomplished. We have reached the happy stage in the affairs of the Department where we detect a widespread response to our policies and appeal and, as a result, the hog population is steadily advancing to new high levels which we are optimistic in the hope that our objectives insofar as exportable marketable hogs are concerned will be reached as our policies will be followed, we hope, for the next few years. Hog clubs have been established in every hog breeding area and have been opened up and the ground work of this profitable industry. Hog clubs have been established in Kentville, Liner Road, Mont Carmel and Grand River. Through these clubs, a large number of breeding sows have been distributed and the industry is receiving the attention to which it is entitled in these and many other districts. We have also selected 80 breeding sows of good bacon type during the past season and distributed these to the farmers throughout the Province at a reduced cost. A large number of other breeding animals were distributed and we feel that a great measure of benefit has been accomplished in this particular field. "During last spring, an acute shortage of seed oats, particularly in the western part of the Province, seriously handicapped the producers. In view of the scarcity of oats and the high cost of seed, our Department arranged, under the Seed Grant Security Act, to supply the farmers with their necessary seed requirements. Under this Act, the Government distributed approximately 60,000 bushels of oats. A great measure of the cost was absorbed by the Government and I may say, that the staff of our Department who had charge of the distribution of seed, are deserving of a great measure of credit for the completeness, facility and accuracy with which this work was conducted. The farmers of the Province were helped to a remarkable degree by this policy.

Soil Survey

"Alfred with the question of fruit production is the question of soil service in this Province. I note that the Charlottetown Board of Trade has introduced this question in the form of a resolution. While I am glad that this organization is taking an interest in this matter, I may say to the Board of Trade and to the members of this House, that this matter has been considered by our Department for a considerable time, and the Federal Department was approached a long time ago with the idea of having a soil survey conducted and facilities established for the testing of soil in this Province. This matter, therefore, is not a new one and has not been in any way neglected. I may say for the benefit of all concerned that some progress has been made toward the development of necessary facilities in this important field.

"The horse industry of the Province is today in a particularly healthy condition. The work of the Department in improving the type of stallions and in eradicating undesirable types has met with a splendid response. The rank quality of our breeding stock as a result of the educational work initiated by the Department in co-operation with the Federal Government has now a great appreciation of improved stock and are using the benefits of this policy. Some progress has been made toward the development of necessary facilities in this important field.

Horse Breeding

"The horse industry of the Province is today in a particularly healthy condition. The work of the Department in improving the type of stallions and in eradicating undesirable types has met with a splendid response. The rank quality of our breeding stock as a result of the educational work initiated by the Department in co-operation with the Federal Government has now a great appreciation of improved stock and are using the benefits of this policy. Some progress has been made toward the development of necessary facilities in this important field.

Soil Survey

"Alfred with the question of fruit production is the question of soil service in this Province. I note that the Charlottetown Board of Trade has introduced this question in the form of a resolution. While I am glad that this organization is taking an interest in this matter, I may say to the Board of Trade and to the members of this House, that this matter has been considered by our Department for a considerable time, and the Federal Department was approached a long time ago with the idea of having a soil survey conducted and facilities established for the testing of soil in this Province. This matter, therefore, is not a new one and has not been in any way neglected. I may say for the benefit of all concerned that some progress has been made toward the development of necessary facilities in this important field.

Cranberry Growing

"Recognition of the importance of wild fruits in this Province and the necessity for encouragement of their growth was one of the first things that I was appointed Minister of the Department. I feel that cranberry beds particularly are a source of great wealth in many people who are badly in need of revenue.

Foxes

"With reference to our fox work, under the management of our fieldman, Mr. W. F. Burke, we obtained the services of a parasitologist, and 371 ranches ranging from 10 to 100 acres were investigated. 97% of the ranches were infested with Hookworm, 29% infested with Roundworm. I might say to the ranchers throughout the Province that the well-known foxes that are the cause of so much trouble in their ranches and proper treatment of their foxes to do away with internal parasites will result in the well-being of the fox and we are asking them to take effective measures under our advice to eliminate those parasites and factors which reduce the revenue from the foxes. We would substitute such practices that will increase the value of fox production to themselves and this Province.

Adult Education

"One of the vital interests of the Department has reference to the education of the grown-ups of this Province. Adult Education and Study Clubs seems to be linked very closely with the Department of Agriculture and the present time is an excellent one for the study of the Department. The officials are busily engaged at the present time in evolving lines of new study and working out bulletins and materials which simplify the work of the adult groups. A large amount of material has been prepared and distributed to the study clubs throughout the Province. The officials are busily engaged at the present time in evolving lines of new study and working out bulletins and materials which simplify the work of the adult groups. A large amount of material has been prepared and distributed to the study clubs throughout the Province.

More Moonshine

"The scarcity of manufactured liquors," he continued, "is opening up a new difficulty in this Province, that of moonshiners. Just so hard as you make the obtaining of properly distilled liquor, just the greater will be the demand for illicit manufacture, and at the present time there is growing in this Province the old moonshining which was so rampant in the land very shortly after the Prohibition Act became effective.

TILLIE THE TOILER — THE "EYES" HAVE IT!

MR. DELROY, IF THERE WAS SOME WAY YOU COULD GIVE US A LITTLE MORE TIME... I'M SORRY MRS. JONES, BUT IT CAN'T BE DONE... I DON'T LIKE TO FORECLOSE ON ANYBODY... I SUPPOSE NOT, BUT... BUT AFTER ALL, WE'RE NOT IN BUSINESS FOR OUR HEALTH. WE'RE PRACTICAL BUSINESS MEN... BUT IF YOU KNEW HOW MUCH THIS HOME MEANS TO US... NOW PLEASE DON'T TRY TO PLAY ON MY SYMPATHIES. I'M SORRY, BUT IT CAN'T BE DONE... SAY ON SECOND THOUGHT I BELIEVE THAT WE MIGHT GIVE YOU SOME MORE TIME, AFTER ALL.

Unpaid Bills Of Campbell Gov't. Still A Mystery

Revelation Of Liberal Insincerity Made By Legislative Supporter In Quoting Journals

The absence of any reference to unpaid bills in the report of this session of the Public Accounts Committee of the all-Liberal Legislature was shown to be strikingly at variance with the Liberal attitude in Opposition, during last night's debate on the Draft address.

The revelation was made inadvertently by Mr. C. St. Clair Trainor, who quoted from the Legislative Journals, 1934, when the motion to adopt the Public Accounts Committee report was opposed by every Liberal member, on the ground that the report should be referred back to the committee of the whole House in order to take into account "all outstanding bills unpaid at the end of 1934." The Liberal motion to this effect was made by Hon. J. P. McIntyre.

Mr. Trainor's contention was that the Conservatives, in complaining that the outstanding bills of last year are not given in the report of the Public Accounts Committee, were inconsistent because they opposed Mr. McIntyre's motion. What he evidently overlooked was that the argument applied both ways and that Liberal refusal to divulge the outstanding bills of 1934—reported to be very considerable—was absolutely at variance with the Liberal attitude in Opposition.

Mr. Trainor made no reference to the 1935 report of the Public Accounts Committee under the MacMillan Government, which showed the amount of unpaid bills to be \$33,710.48.

"Albion Minister"

In his opening remarks Mr. Trainor congratulated the Premier on the mastery way in which he had dealt with the Budget. He also eulogized Mr. McIntyre as being "the ablest Minister of Public Works within this portion of the present century." He referred to deaths during the year of former representatives, to the forthcoming Royal visit, the Confederation celebration and the treaties by the King Government would, he predicted, bring a new era of prosperity to Canada.

While many farmers are still finding it difficult to make a living, Mr. Trainor contended that some had themselves to blame because they did not make the most of their opportunities. "I am of the opinion," he said, "that better farming and more fortunate circumstances of the ordinary farmer in Prince Edward Island should be able to make an honest living for himself and his family."

Prohibition

He had made a statement last year regarding Prohibition which he did not intend to repeat, Mr. Trainor continued. "It would serve no useful purpose. We have the Prohibition Act on the statute books. While many of the provisions of this Act are entirely at variance with my views, nevertheless they are the law of the land and the Attorney General when he enforces the enforcement of that law must in conscience be levelled at him; for following the dictates of his conscience, no lawyer who the men are—and I believe there are certain ones who consider they have a portfolio in such laws—are on the statute books until the people see fit to change them."

Last year he had suggested that the Federal Government could give a great deal of help in the limit of liquor duties, Mr. Trainor said. On Aug. 6 a regulation was brought into effect whereby ships of British register, if found within the twelve-mile limit of Canadian waters with a cargo of liquor aboard, may be seized by the Canadian Customs officers. "That regulation," he predicted, "is going to have the effect of stopping the illicit landing of rum and liquor because it is impossible for those ships to come within the limit and is very likely to be the answer to the contact them from the land."

More Moonshine

"The scarcity of manufactured liquors," he continued, "is opening up a new difficulty in this Province, that of moonshiners. Just so hard as you make the obtaining of properly distilled liquor, just the greater will be the demand for illicit manufacture, and at the present time there is growing in this Province the old moonshining which was so rampant in the land very shortly after the Prohibition Act became effective.

"I believe personally that all the evils—and they are many—brought about by the landing of illicit liquors—properly distilled liquors—are not to be compared with the evils that are brought about by the illicit manufacture of moonshine. The landing of liquor had its bad effect among the fishermen, but the making of moonshine has a demoralizing effect in every community."

Funeral Of Rev. Mr. Thomson Held Yesterday

Funeral of Rev. W. A. Thomson was held yesterday at Trinity United Church. The service was conducted by Rev. Hugh Miller. Rev. Mr. Thomson, a retired United Church clergyman, died at his home here Sunday, April 15.

Those who assisted in the service were Rev. George Ayers of Summerside, Rev. E. R. Woodside, chairman of the Island Presbytery, Rev. A. MacQuarrie of Hunter River, Rev. H. L. Denton of Charlottetown, Rev. S. T. Boyce of St. Stewart, and Rev. S. C. Cooper, Charlottetown. Honorary pall bearers were Lieut.-Governor George D. DeBlas, Dr. G. D. Steel, B. G. Taylor and George W. Ritchie.

After a long and illness, Rev. W. A. Thomson quietly passed to his reward early Sunday morning, leaving behind a memory of singular richness of life and a pastoral duty that he performed with exemplary Christian fortitude and resignation. Rev. Hugh Miller said: "We are one in our admiration and grief."

"He endeared himself to all classes and was made so many and so lasting friendships, both when he was in the active and busy days of his long career. "After a number of years in the teaching profession, he prepared for the Christian ministry and served as pastor of the Trinity United Church, both in New Brunswick and his native province. His ministry was marked by fine gifts of mind and spirit, devotion to pastoral duty and profound interest in the general work of the Church."

After going on to pay further tribute to the work of Rev. Mr. Thomson, the speaker continued: "When still a young man entering upon the richest period of his ministry, his health failed and he was obliged to resign. It was a great trial and a great test. What it meant to him and his family few realize, only those who are called to pass through similar affliction. He was supported by one of the leading Churches in his conference, to become its Minister, where his gifts would have a wider appeal and his family educational advantages realized. He was again would be permitted to resume the work he loved so greatly and for which he was so fitted. The grave he commended to others was sufficient to indicate the all-around man he was. He accepted God's will and throughout his long affliction the strength and faith of his soul never failed. The beauty of the Lord in God upon and within him, manifested in a deep, strong faith that came only with resignation and assurance."

Part Songs— (a) Under the Greenwood Tree; (b) 4 part Come Again Sweet Love; (c) Sweet and Lowly; (d) The Sky Clouds; (e) Three part, being perhaps particularly fine. The accompaniment by Miss Bretnick, was carefully modulated and very well done.

The absence, because of illness, of Mrs. Holman of the Serenades was very much regretted. Following is the programme, the only work which was its being: Part Songs— (a) Under the Greenwood Tree; (b) 4 part Come Again Sweet Love; (c) Sweet and Lowly; (d) The Sky Clouds; (e) Three part, being perhaps particularly fine. The accompaniment by Miss Bretnick, was carefully modulated and very well done.

PIANO NUMBERS FEATURE MUSIC CLUB PROGRAM

April Meeting Held At Canadian National Hotel Yesterday

The April meeting of the Women's Music Club was held in the Canadian National Hotel last night. The programme, composed entirely of piano and vocal numbers, was greatly enjoyed by the members, many favorable comments being heard.

The soloist of the evening, Mrs. Wood, pianist, an active member of the Club, was warmly welcomed on her appearance, and her interpretations of Mozart, Schumann, Chopin and Beethoven were a joy to listen to. Her distinctive touch and firm, clear tones as well as her splendid technique bind her listeners to her and mark her as an individual artist in her own right.

The Serenades, under the direction of Mrs. Full, were wholly delightful. Their expression and shading, their beautifully clear words, pianist, an active member of the Club, was warmly welcomed on her appearance, and her interpretations of Mozart, Schumann, Chopin and Beethoven were a joy to listen to. Her distinctive touch and firm, clear tones as well as her splendid technique bind her listeners to her and mark her as an individual artist in her own right.
