TORONTO, Ont., Sept. 27.—Allegations of bribery and technical irregularities are made in a petition fyled at Osgoode Hall today seeking to unseat Hon. James Malcolm, successful Liberal candidate in North Bruce in the recent Dominion elections.

The petitioners, Andrew Allen, Richard Farley and Frank Colwell, all of Kincardine, say the descriptions of the rival candidates on the ballot papers were not the same as those on the nomination papers and that Mr. Malcolm and Returning Officer W. B. Tomlinson were aware of this. It is also alleged many unqualified persons voted and that ballots marked for William Mitchell, Conservative candidate, were improperly rejected.

## FLYERS STILL AT HARBOUR GRACE, NFLD.

### Boyd and Connor Await Favorable Weather Reports Before Starting Trans-Atlantic Hop.

(Canadian Press)  
HARBOR GRACE, Nfld., Sept. 28.—Bad weather over the Atlantic held up Captain Errol Boyd and Navigator Harry Connor again today, preventing their hop off for England, but the flyers took to the air in the Columbia this afternoon for a test flight. They remained up an hour and a half to test the instruments, flying to St. John's and returning to this airport. No landing was made at St. John's however, the aviators circling there several times. They flew out the narrow, circled Cabot Tower on Signal Hill and returned to Harbor Grace, to await favorable weather reports for their Trans-Atlantic hop.

## POTATO PRICES MAY NOT BE AS GOOD AS HOPED

### Will Be Lower Than Last Year As Are All Other Farm Products, Says J. W. Boulter, Who Has Just Returned From The South.

Mr. J. W. Boulter, Secretary, Prince Edward Island Potato Growers Association, returned Friday last from a business trip to New York and southern points of the United States. Interviewed by a Guardian reporter, Mr. Boulter was unwilling to say much about the results of his trip giving as his reason that as it was so easy to give a wrong impression some growers might be influenced to either sell or hold their potatoes. The prices quoted are considerably lower than Mr. Boulter was willing to accept at the present time, and he stated that, if growers are compelled later to sell at a lower price than they are asking today, they will then have the information that the market will not pay more.

## MISSING MAN'S BODY HAS BEEN LOCATED

### Alex. Cameron Found Floating In West River Yesterday Morning Near Scene of Tragedy.

Floating in the water of the channel in West River about two hundred yards from where, it is supposed, he was drowned last Sunday, the body of Alex. Cameron was found yesterday morning shortly before 7 o'clock. The body was seen floating in the water by Messrs. Seymour and John Darrach, Police Commissioner Trainor was at once informed, and Coroner Houston was summoned. A coroner's jury was empanelled and viewed the remains. An inquest will be conducted this evening at 7 o'clock in New Haven School.

Following are the jurymen empanelled: W. K. Rogerson, New Haven; (foreman), Lawrence Kickham, New Haven; Duncan McNevin, New Haven; Hector Doull, Clyde River; S. H. Colwell, New Haven; Seymour Darrach, Dunedin; Neil Darrach, Clyde River. The body was removed to the late residence of the deceased by N. D. McLean, and the funeral took place yesterday afternoon. Services at the house and grave were conducted by Rev. Mr. Ross, of Cornwall. Interment took place in Argyle Cemetery. The pall bearers were Messrs. Michael Murphy, Duncan McNevin, Wm. Rogerson, Wm. McKinnon, Lawrence Kickham, J. McQuillan.

Mr. Boulter attributes the present indifference on the part of the purchasers to the very low price of all food commodities, flour, rice, and other food products and to the great business depression so marked in sections of the United States. The financial situation is a factor that enters largely into the sale of seed potatoes and credits are risky. "The estimated quantity of potatoes in sight should warrant fair average prices for this product," Mr. Boulter stated, "and yet when compared with the prices of other farm products it cannot be hoped that they will be as high as they were last year. There is a tendency on the part of southern farmers to withhold buying till next spring. One thing in favour of Prince Edward Island potatoes this year is their freedom from rot which is found to some extent in some large producing states."

## Five Are Drowned When Schooner Founders In Fog

### After Collision With Freighter Off East Coast Of Newfoundland—One of Crew Saved.

(Canadian Press)  
HALIFAX, N. S., Sept. 28.—The sinking of a schooner with the loss of five men off Ferryland, Newfoundland at midnight, Saturday was reported by wireless from Cape Race today to C. H. Harvey, local agent of the Marine and Fisheries Department, by the Master of the Norwegian steamer, Haugarland. The message, which did not give the schooner's name, reported the vessel had gone down after a collision presumably with the Haugarland; that one man, unnamed had been saved and that five were missing. A broadcast was requested in an effort to determine whether any other members of the vessel's crew had been saved.

The collision occurred three miles off Ferryland, about forty miles south of St. John's on the east coast. The Haugarland is a Norwegian freighter of 3,569 tons and according to shipping registers, has been plying between Sydney, N. S., and Wabana Newfoundland.

## IMPORTATIONS TO BE CHECKED BY DEPARTMENT

### Evasions of New Tariff To Be Guarded Against — Regulations Issued.

OTTAWA, September 27.—A rigorous scrutiny of Canadian import business during the next two months will be practised by the Department of National Revenue which will do all in its power to protect business interests in this country against attempted evasions of the new tariff legislation.

A last minute amendment to the tariff bill, it will be recalled, was made when there was inserted a provision that goods bona fide imported into this country prior to November 30 next would be exempt from the increased duties. That particular clause in the legislation will require vigorous enforcement, and it is reported that already some manufacturers' agents in this country and importing concerns are busy with orders by cable and telegraph.

There is another provision, though, that makes it more difficult to get around the new duties, as the department is demanding proof of acceptance of orders by the exporters prior to September 15, the date when the new duties became effective.

Hon. E. B. Ryckman, Minister of National Revenue, made it clear today that his department intend checking carefully any importations which are claimed to have been contracted for before the recent tariff changes were put into effect. He has issued a regulation which will require the importer to supply a copy of the original purchase order attested to by affidavit of the importer and, in addition, he is demanding proof of acceptance of the order by the exporter prior to September 15, 1930.

In addition to this, Mr. Ryckman points out that if any importer in any way attempts to defraud the revenue by ante-dating contracts of in any other way, misrepresenting
