MUST BE SHOW DOWN IN SUGAR BUSINESS

Refiners Refuse Sale of Supplies. Big Refineries Have Shut Down and Will Remain Shut Indefinitely, Owners Declare.

(Special to The Guardian.)
MONTREAL, Oct. 17.—So far as present conditions go in the Canadian sugar industry there is every indication that matters have come to a point where there is to be a "show-down" which will settle the matter for good. The big refineries here and in the Maritime Provinces are closed down, and it was stated today that they would remain closed for an indefinite period or until the situation cleared. Further, the big refineries have refused to sell sugar until they can do so at a profit.

Manufacturers Confer.

A conference was held today between Messrs. Huntley R. Drummond, D. Lorne, McGibbon and J. W. McConnell, representing the majority of the big refinery interests here, at which the whole situation was thoroughly discussed and plans laid for future developments.

Beyond deciding to suspend business for the present, little else of what passed at this conference came out. It was, however, stated that the refineries were busy preparing their case for hearing before the Governor-in-Council at the hearing fixed for October 20th at Ottawa. They will be represented by their leading members and also by counsel.

Quitting the C. M. A.

Mr. Drummond said he had sent in his resignation to the C. M. A.

A MILLION COAL MINERS WALKED OUT IN GREAT BRITAIN ON SATURDAY

Twelve Seamen Drowned at Sea

HAVANA, Oct. 16.—Twelve members of the crew of the schooner W. P. Post were lost two miles off Santiago de Cuba, when the vessel collided Thursday with the United States steamer Cayo Mamba, says a despatch from Santiago de Cuba today. The schooner is in a sinking condition, the despatch reports. The remainder of the schooner's crew were saved. The captain of the Cayo Mamba declared the collision was due to the schooner misinterpreting a signal.

Asquith View Dominion Home Rule in Ireland

LONDON, Oct. 16.—Former Premier Asquith, speaking at Ayr last night, made the following reference to Dominion Home Rule in Ireland.

"There were," he said, "genuine friends of a Dominion settlement who were perturbed over the special dangers which they thought they saw in regard to the question of strategy and foreign policy. He saw no difficulty whatever. No Dominion had anything more than a consultative voice in these matters. They did not propose to give Ireland more than they gave to any other Dominion.

"As regards the maintenance of forces for loyal defence, they could not possibly deny to Ireland what had been given to the other Dominions. Anybody who thought that the maintenance of an Irish militia would be a real menace to Great Britain or the Empire must be left to his own imagination." He did not believe Ireland would create a navy. She would be a great fool if she did. She could get all her navy work done for her much more cheaply and efficiently by the Imperial navy close by her door.

Imperial Navy Sufficient

Ireland had all sorts of inlets and creeks in which smaller vessels might enter, but it was a cardinal principle with the self-governing Dominions that the Imperial Navy should have unrestricted use of all their ports. He would never agree to give Dominion self-government to Ireland on any other terms.

Fatal Accident In Saw Mill

(Special to The Guardian.)
A fatal accident occurred at Millerton this morning when Alfime Pineau a young man of 21, son of Andrew Pineau, employed in a mill owned by his father. He was putting a belt on the trimmer when the saw came back suddenly practically severing his left leg. He was immediately taken to the hospital and succumbed from the shock.

FARMER BURIED DAUGHTERS ALIVE.

LANSING, Mich., Oct. 14.—Earl Roop a farmer, was arraigned today on a charge of murdering his daughters, Dorothy and Bernice, aged three and two, respectively, whom he buried alive on his farm ten miles from here Monday, according to his reported confession to Sheriff Silbee. Preliminary hearing was set for tomorrow after Roop had stood mute, and a plea of not guilty had been entered by the court.

Mr. P. Barlow Writes From California

(Special to The Guardian.)
A very interesting letter dated from San Jacinto, California, has been received recently by Mr. J. A. S. Bayer of this city from Mr. Percy Barlow, so well known here as the efficient Manual Training Instructor of our City Schools. Mr. Barlow is now engaged in bee-keeping and in the canning of peaches and olives in that country of perennial sunshine. He expresses himself delighted with California and with his new line of work, which so far has proven very successful. His season's canning of olives and peaches amounted to between two and three hundred tons, and from his twenty-seven honey-combs he has drawn 5439 pounds of honey. The many friends of Mr. Barlow here will be delighted in this news of his successful undertaking.

Lloyd George Issues Official Statement Placing all Blame on Miners and Asking Co-operation of People to Avert Crisis. Gave Assurance of Equitable Distribution of Fuel Supplies. Rail- road Workers Threaten Sympathetic Strike. Iron and Steel Plants Closing Voluntarily.

LONDON, Oct. 17.—The British Government has accepted the challenge of the striking coal miners for a fight to the finish. As a million men began leaving the mines today, in response to the strike call, Premier Lloyd George issued an official statement placing the blame on the miners and asking co-operation of the people to avert an industrial crisis.

The Premier intimated that the government was confident of the outcome and urged that there should be no needless alarm. He gave assurance of an equitable distribution of fuel supplies.

Meantime the possibility of a sympathetic strike by the railway workers was seen in the action of their executive committee which declared, following a conference today, that "serious consequences" would result from the defeat of the miners and called a special meeting of delegates for Wednesday to decide what action shall be taken. Iron and steel plants, threatened

MARITIME INDUSTRIES WILL BE TIED UP

If Nova Scotia Miners Strike. Much Hardship Would Follow Cessation of Work. Radical Elements Urging Strike.

(Special to The Guardian.)
SYDNEY, Oct. 16.—Eighteen thousand men out of employment will be the result of an affirmative strike vote among the mining locals. At that the eighteen thousand men mentioned are centred in the coal operations of the Maritime Provinces, plus the men engaged in the iron and steel industry in Cape Breton. Other manufacturing centres, such as New Glasgow, Am-

GREAT REVOLT HAS STARTED IN MOSCOW

Kremlin Territory Invaded. Entente Officials Greatly Exercised Over Attitude of Forces in Vilna.

(Special to The Guardian.)
WARSAW, Oct. 16.—General Zelignski, head of the new government formed at Vilna, after his recent occupation by his troops, has sent the Lithuanian government at Kovno, an ultimatum demanding that all the Lithuanian troops be withdrawn twenty kilometres to the south of the Vilna-Grodno railway.

The ultimatum contained a twenty hour time limit.

Meanwhile General Zelignski's troops are taking positions in various parts of the newly claimed territory.

The establishment of the provisional government of Central Lithuania, the name adopted by the new regime at Vilna, is absorbing

WENT TO MASS AND LOST JOBS

CORK, Oct. 16.—Nearly fifteen hundred employees, or virtually all the entire staff of the new Ford automobile tractor plant here, are reported to have found themselves at least temporarily out of work when they returned to the plant this afternoon from mass collections in all the Cork churches today for the hunger strikers in prison.

Notices were posted at ten o'clock this morning forbidding the men to interrupt their work to attend church services, on pain of dismissal or having their wages locked. Nevertheless, a majority of the men left the works at 11.30 o'clock and when they returned found that the plant had been closed down.

A prominent Sinn Feinivist of the plant and appealed, on behalf of the men, to the manager, Edward Grace. Mr. Grace is said to have declared that he was content to install an entire new force of operators, but he finally consented to take the present workmen back, but not until next Monday.

Fatal Riots and Strikes in Italy

BRESCIA, Italy, Oct. 16.—One person was killed and several wounded during serious disturbances yesterday at the conclusion of a meeting of strikers, revolver shots being fired at the police. Order has been restored.

GENERAL STRIKE CALLED

ROME, Oct. 16.—A general strike has been declared in Trieste, Bologna and Brescia, the Messagero announces today.

'Citizens' Cold Feet Helped Bandit's Escape

(Special to The Guardian.)
WINNIPEG, Man., Oct. 16.—"Cold feet" on the part of the Winnipeg residents alone is responsible for the escape of the bandits who early Wednesday morning robbed the Union Bank of that place of \$19,000. Colonel J. Ratray, provincial police commissioner, said today, "virtually the whole town knew about the robbery."

"Some of them were held enough to come to windows, but most of them remained trembling in bed," he declared.

The Attorney General's department today considered offering a reward for the capture of the bandits. The question will be placed before the next meeting of the cabinet council.

City, suburban and provincial police today worked on the assumption that the bandits might have doubled back after making for the border and come to Winnipeg or vicinity.

MACSWINEY BEING FED, DOCTORS SAY

NEW YORK, Oct. 14.—That Terence MacSwiney, hunger striking Lord Mayor of Cork, is being fed in Brixton Prison, London, is the view of a large number of representative medical men of New York, according to the Herald today.

The Herald took the trouble to interview many doctors on the Brixton phenomenon, and the unanimous view of these men of science was that the Lord Mayor of Cork must have been taking nourishment of some kind, in addition to water.

MADE-IN-GERMANY CARS

Belgium Places Order There Instead Of In Canada
OTTAWA, October 14.—Canada has lost the order for 2,400 steel railway cars which the Belgian Government through the Canadian Trade Commission, sought to place with manufacturers in this country. Instead of "Made in Canada" cars the Belgians will ride in coaches of the "Made in Germany" variety, when the order is filled.

Advices to the Trade Commission are to the effect that Belgium has placed the order with Germans and will pay for the railway material with foodstuffs which are to be supplied to Germany.

NO BILL AGAINST PRISONERS HELD IN RUM RUNNING ROW

EDMUNSTON, N. B., Oct. 16.—P. Collin, Sr., his son, P. Collin, Jr., and Fred Levesque, who were charged with shooting Mrs. Gesneau at St. Hilaire in what is declared to have been one of the most sensational of many rum-runners' fights along the international boundary in this vicinity, have been released by order of the Madawaska Circuit Court, now in session here, the grand jury failing to bring in a true bill against them.

The shooting resulted when a lot of liquor was said to have been hidden in the woods at St. Hilaire about the time a raid was taking place and Mrs. Gesneau was shot when she was in the vicinity of the hidden liquor.

HIS OBJECTION IN NEW JERSEY—CAMERA MEN VERY ACTIVE

ORANGE, N. J., Oct. 13.—New Jersey's first jury of women reversed a judgment against another of their sex in a district court trial here today. The judge apparently approved the verdict, though remaining silent, but the sergeant-at-arms, thrown into a fractious mood by incessant activities of camera men during the trial, said he did not think another woman's jury would be called here. It caused "too much trouble," he complained.

BRITAIN READY TO FIGHT FOR BELGIUM IF EVER INVADED

BRUSSELS, Oct. 15.—During the recent conference in London between David Lloyd George, the British Prime Minister, and M. De La Croix, the Belgian Premier, concerning the question of German reparations, the Franco-Belgian military convention also was discussed, according to the Ettoile Belge. The newspaper quotes Mr. Lloyd George as having said that if Belgium's territory was again invaded Great Britain, as in 1914, would consider such violation a casus belli.

SHOT TO DEATH ON HIS OWN DOORSTEP

Suspected of Being "A Traitor to Ireland" Was Shot by Band of Raiders Claiming to be I.R.A. Merc.

(Special to The Guardian.)
DUBLIN, Oct. 17.—A number of armed men knocked at the home of Peter O'Carroll in Manor Street early this morning. O'Carroll opened the door, there was a sound of shot and his wife found O'Carroll's dead body with bullets in the head and bearing a paper on which were the words, "A traitor to Ireland, shot by the I. R. A." The O'Carroll home had previously been raided frequently by the

Investigating Muder Case

(Special to The Guardian.)
EDMUNSTON, Oct. 16.—Excitement among a townspeople long known as law abiding folks, as a result of the murder of Miss Minnie Stevens of Middleton, N. S., a young telegraph operator employed by the Western Union Telegraph Co. here on the night of Oct. 11th is gradually subsiding although little else has been the subject of conversation several days or since the finding of the young woman in the Madawaska River on Tuesday. William St. Pierre who was placed under arrest in connection with investigation of the brutal tragedy was taken before J. B. Michaud, police magistrate of the town, today. The magistrate read the information laid against the prisoner who is charged with having a suspicious knowledge of the crime. St. Pierre, was remanded for preliminary hearing here at 10 o'clock on the forenoon of Friday 22nd.

Hon. Arthur Meighen To Privy Council

(Special to The Guardian.)
OTTAWA, Oct. 16.—The Hon. Arthur Meighen, Premier of Canada has been appointed a member of the Privy Council.

PARIS MYSTIFIED BY DISAPPEARANCE

PARIS, October 16.—The Paris police are looking for a man who disappeared out of an elevator. How he did it is a mystery, and another mystery is being made of who he is and where it happened.

The man was a cashier in an important Paris business house and when he disappeared he had with him a large sum of money in bank notes. He had just returned from the bank bringing the notes with him, and the fact that he was seen to enter the building with them seems to dispel the idea that he voluntarily disappeared. It is wished to do so he had plenty of opportunity on the way back from the bank. When he entered the office he was seen by the hall porter to take the elevator to the first floor. There several clerks were waiting for him in order to finish their work and go home. In ten seconds between the time he was seen by the porter entering the elevator and the time it stopped at the first floor, the story is that in some way or other he disappeared. As the doors were locked the whole business savors more of the supernatural than of ordinary crime, and there is a great amount of clerks to believe that it was only the ghost of the cashier which was seen by the porter to enter the elevator. Whether or not it was a ghost, the police and detectives are busy investigating.

FRENCH WAR HERO HERE AS FOCH DELEGATE TO MEET AMERICAN LEGION

(Special to The Guardian.)
The commission is composed of Mr. Justice Mellish, of the Supreme Court of Nova Scotia, who will be chairman; Judge Allan MacDonald, of Antigonish, of the County Court, and Mr. F. W. V. Doane, City Engineer of Halifax.

General Emil Fayolle.

During the World War General Emil Fayolle commanded the largest number of American soldiers which directly came under foreign guidance. He is now in the U. S. as the delegate of Marshal Foch to the Cleveland convention of the American Legion. He had reached the age of retirement when in 1914 the great war broke. He was called to the colors and fought so well that his name is linked with those other old French fighters, Joffre, Petain and Foch. This photograph was taken when he landed from the steamship La Savoie at New York.

THE WEATHER, TEMPERATURE, TIDE, MOON, ETC.

High tide this morning at 3.14 and tomorrow morning at 2.18.
Sun sets this afternoon at 5.00 and rises tomorrow morning at 6.22.
First quarter of moon, Tuesday, Oct. 19th, 8.29 p. m.
