**PROVINCE OF NOVA SCOTIA  
 NOTICE**

FISH BUYERS AND OPERATORS OF FISH PLANTS AND CANNERS IN NOVA SCOTIA will please take notice that the Nova Scotia Fisheries Act has been proclaimed effective the 1st day of January, 1948.

The Act contains the following provisions: (1) Every person who operates a fish plant (or a cannery in which fish are canned) will require a FISH PLANT LICENSE; (2) Every person who buys or collects fish from fishermen otherwise than for his personal use or for sale only at retail will require a PURCHASER'S LICENSE; (3) The annual license fee for each plant or buyer is Two Dollars (\$2.00) payable in advance; (4) The penalty for purchasing fish or operating a fish plant or cannery without a license is One Hundred Dollars (\$100.00 per diem).

The expression "fish plant" means any plant or cannery in which fish are prepared for food and includes cold storage plants which handle fish, fish reduction plants and fish liver oil plants, but does not include an establishment used only by a fisherman to prepare or cure only his own catches of fish or an establishment in which fish are sold, only at retail.

The expression "fish" includes shellfish and crustaceans; also whales, seals, and other marine animals.

A fish buyer who purchases fish only in the capacity of a salaried agent of a licensed fish plant operator will be issued a license without charge if the fish plant operator applies for a license for him. All other fish buyers, including independent buyers, commission buyers, and buyers representing firms outside of Nova Scotia should apply direct to the address given below and will be required to pay the regular fee.

The holder of a Fish Plant License does not require a Purchaser's License to buy fish.

Forms of application for licenses and copies of the Act and Regulations are available and should be written for at once.

**REVALUATION**  
 The true mark of an expert is not how he values a given hand at first sight, but how he re-estimates its trick-taking power after he has heard some bidding and passing by the other three players. If this seems absurdly evident, perhaps we should examine an actual case:

Straightforward, unexceptionable defense defeated the doubled contract no fewer than four tricks, South winning only three spades, one heart and one club. Thus, East-West collected the pleasant (to them!) penalty of 1100 points. This was a high price for South to pay for the sheer luxury of outbidding the opponents without any substantial hope of "getting some place."

It is quite true that, on its face, the South hand is fairly impressive. Any expert would be extremely pleased to be dealt this hand! Nor can any criticism be leveled at South's first bid of two spades, despite the punishment that could have been heaped on even that modest contract. In reopening the bidding after East's pass of one heart, it was logical for South to inform his partner that he had a strong holding—that he was not reopening merely "on suspicion."

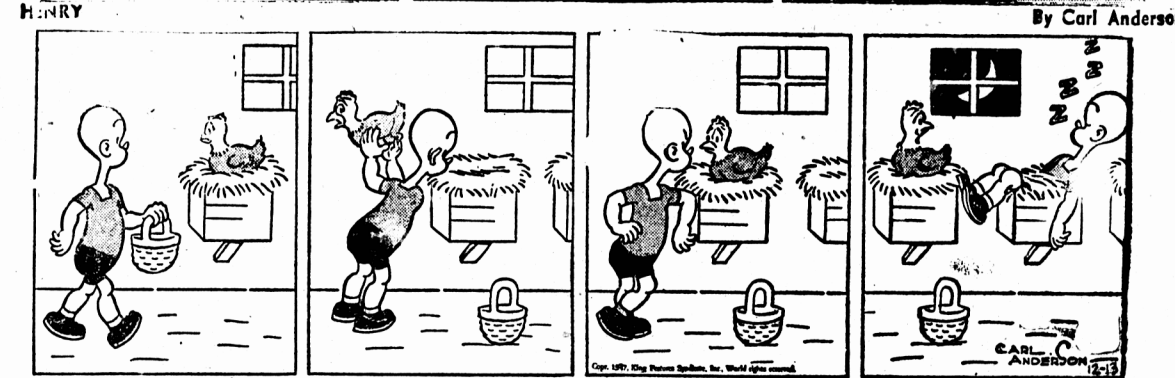

But the situation changed radically when West, who also had heard East's pass and therefore was presumably not worried about a very bad hand opposite him, over-called the spade bid with diamonds. Then when North could do nothing, South should have subsided!

West, dealer. Both sides vulnerable.

♠	7 6 4 3	♣	Q 10 9
♥	Q 8 6 2	♦	8 6
♠	10 8 5	♣	9 7 4
♥	10 8 5	♦	9 8 7 4
♠	A K 7 5 4 3	♣	3
♥	Q	♦	A 6 4

This was the bidding in a high-stake club game:

West	North	East	South
1 ♠	Pass	1 ♥	Pass
Pass	Pass	2 ♠	Pass
Pass	Pass	Double	Pass
