MORE IMPOSING CHURCH TO RISE AT STE. ANNE

Devotions Will be Continued in Temporary Buildings. Only Stone Ruins Stand. Miraculous Statue and Priceless Art Relics Among Objects Saved.

QUEBEC, April 2.—As a result of a fire which broke out at a few seconds later the towering Ste. Anne de Beauce, only the gable ends of the majestic church which marked the site of the far famed shrine, where pilgrims have worshipped for more than three centuries, are left standing, while the sacristy, the monastery and the college are also a mass of debris.

The monetary loss is estimated at \$1,200,000 while the insurance carried will probably reach the sum of \$500,000. Although no definite plans have yet been announced by the demolitionist, it is stated that as soon as possible work would be started to rebuild the venerable pile, and it was said that it would be constructed on a large and even more imposing scale than the building which has just been destroyed.

When the news spread through this city and district that the cathedral was menaced it caused consternation. An appeal for help reached Mayor Samson and he rushed all the fire fighting equipment and men available to the scene. Thousands of people from surrounding parishes, as well as from the city, also travelled to Ste. Anne and witnessed the destruction of the renowned shrine.

When the flames were raging in the basilica the blaze, as well as the outbreak of smoke, were seen from this city, and Dufferin Terrace, the Ramparts and other points of vantage along the river front were lined with citizens, who could plainly view the ravaging flames in spite of the fact that the shrine is twenty-one miles from Quebec.

Discovered in Sacristy

It was 9:30 when the fire was discovered in the sacristy in the rear of the church. The fire was first noticed by a man who was passing along the road. He saw smoke issuing from the roof of the sacristy and gave the alarm. The cause of the fire is attributed to a short circuit in the electric wiring. A strong northeast wind was blowing at the time and the flames worked simultaneously to the west side and to the roof of the monastery and the college, where soon a mass of flames, but the fire made slow progress within the church. The villagers did what they could to fight the fire but were powerless to stem its progress. When the city firemen arrived they were handicapped by the lack of water and were obliged to haul over the ice to the St. Lawrence River, as the tide was low at the time.

By 10:30 o'clock it was seen that nothing could be done to save the cathedral and the village was concerned in keeping the flames from spreading to the outbuildings of the monastery.

U. S. Miners Quit Work On Saturday Night

6,000 Mines Tied Up, 600,000 Men Affected. Alberta and B.C. Miners Have Also Struck

(Special to The Guardian.)
INDIANAPOLIS, April 1.—The coal strike starting last night is 100 per cent effective, union officers at headquarters here declared today. Six thousand miners were tied up and nearly 600,000 men were idle.

Gov't Imported Hay Worthless

Extraordinary Situation At Montague Where Farmers Clubbed for Two Cars of No. 1 Timothy and After Paying for it Got Saw Thistles and Trash Now Want Commissioner of Agriculture to Hold Cows' Noses While They Are Made to Swallow It

Sir—A sample of what the Government is doing for the farmers was presented to the people of Montague a few days ago when the Government, through its organ, began to advertise what they were going to do to relieve the present unpleasant situation in regard to feed. Several of the farmers of the South of Montague clubbed, got one of their number to correspond and make arrangements for Government Hay which they were to receive for from \$26.00 to \$30.00 per ton. Finally the word came that the hay was at Montague, two cars of it. Those who had previously given their order were all on hand for its delivery, about twenty-five teams and as many people. Some naturally asked to see the hay but no "Your money first" was the order. So each one dug down and paid for the quantity ordered at a rate of \$31.00 per ton, in an up

representatives of most of the original settlers. The community had different names. The first was Ste. Anne du Petit-Cap, then Ste. Anne du Nord and finally Ste. Anne du Beauce or La Bonne Ste. Anne. In Normandy, and British devotion to Ste. Anne, the mother of the Virgin Mary, is held in high honor, and from the early days of the settlement in the Valley of the St. Lawrence this devotion was practiced by the colonists. One of the earliest settlers to be dedicated to that saint was erected on the river side at Beauce and the edifice which suffered yesterday was the modern development of the first modest sanctuary.

The first Chapel
Perland, the historian, notes the erection of a modest chapel at Ste. Anne, his book bearing the approval of Bishop De Laval, and there is an earlier witness in the person of the Venerable Mother Mary, of the Incarnation, foundress of the Ursulines of Quebec who in 1665 wrote:

CALGARY, Alta., April 1.—The Canadian mines in the Alberta and British Columbia coal districts, joined with the miners of the United States and at midnight threw down their tools. Somewhat over 10,000 are affected in the two provinces.

wards of \$300.00 with a promise of reduction of 25 per cent for the freight which would mean about \$2.50. So a messenger was dispatched to the bank to deposit the money and receive the bill-of-lading with draft attached. Then they were all made aware of the fact that the hay was shipped on March 11th, that the regulation granting a reduction of freight on feed did not come into effect till the 13th. Their hay was thus shipped two days too soon, therefore they could get no reduction. "All right, it is only \$2.50 per ton but we're getting the hay at \$3.00 per ton less than the dealer's price," said one of them. "I'm a little disappointed that the crowd here still in good humor about it, everything was now ready, all the red time ripened aside, and the railway officials had been given the doors open to display instead of Number One Timothy Hay, as promised, a combination of sweet clover, Alfalfa, Sowthistle, wild buckwheat and all the trash, white and more brittle than ice, when he said that if he could get it home without losing it along the road he could feed it with a basket. The Station Master was next in hand to give his opinion of what should be done in the case. He said that the shipper had delivered to them and that was all the railway had to do with it. The next move was to interview the bank manager, who expressed every sympathy but he gave up the draft and bill they money became the property of the shipper. The agent of the Government who took the people's orders guaranteeing No. 1 Timothy's Hay, was not, by this time, occupying a very exalted position in the Agricultural department, and those who would not take delivery of the hay did not know good hay when they saw it. This was surely the last straw, what happened further can be better imagined than described. Those who had the wherewithal bought a few bales from the local dealers, those who had none went away without any thought every one of them needed without a particular exception. It is known that the Government were to ship hay here at from \$26.00 to \$30.00 per ton the local dealers quit ordering and actually cancelled orders that had been given. Those who needed hay got it cheaper than they could arrive. The local dealers now at no wired rush orders for hay to save the situation and no doubt the Government will now rush to save the votes which they have no doubt lost, particularly of those who have been doing all they could to meet the unpleasant situation. The Commissioner of Agriculture will be able to hold the hands of farmers and make them swallow the "tax" Act, but now he has the job to hold the cows but the nose and let them swallow southwesterly clover.

I am, Sir, etc.
LIBERAL ELECTOR.

Importing Weeds?

One Interested Protests Against Government Official's Pending Seeds of Doubtful Quality to Farmers.

Sir,—In the daily Patriot of March 31st there appears an article signed "Department of Agriculture" warning the farmers against purchasing cheap Western Oats to seed their land, and the statement is made that large quantities of cheap Western Oats are being imported and sold for feed purposes. Said Oats contain large quantities of Noxious Weeds. This warning is timely and quite in order, but is not the Department of Agriculture doing this for the people of this Province to keep these gentlemen in Office? The work that properly belongs to this Department and not to become retailers of Hay, Oats and Feed, a business that properly belongs to our merchants who will be called upon to pay heavy taxes to keep these gentlemen in Office and pay them big salaries for not minding their own business and the business of the Department in that they are employed.

I am, Sir, etc.

"ONE INTERESTED"

Bad Fire Saturday at Oil Company Warehouse

Damage Estimated at Over \$10,000. Much Anxiety on Account of Nearby Oil Tanks. 9,000 Gallons Oil and 5 Tons of Grease With Cooper-Shop Equipment Completely Destroyed.

A bad fire which started shortly after 2 o'clock Saturday afternoon and which raged fiercely until late in the evening completely destroyed the warehouse of the Imperial Oil Company, Ltd., at the skirts of the city.

The proximity to the scene of the fire of the three high oil tanks of the Company, two of them containing kerosene oil and the other gasoline, created anxiety amounting even to panic among citizens. At the time, however, thanks to the strenuous efforts of the firemen and to the safety appliances with which the tanks were fitted, there was no serious danger of an explosion. The blaze was seen from the city and Mrs. G. McLeod, of the Commercial, saw the building fiercely ablaze with high columns of smoke, driving city-wards by the winds, enveloping the nearest oil tank.

The fire bell, the black pall of smoke, which could be seen from most parts of the city, and the rumor that the Oil Tanks were on fire, very quickly gathered a crowd of excited citizens to the scene. The difficulty of getting the blaze under control was due to the fact that the fire was burning in a building which was situated close alongside the railway siding and within a few feet of the main track. That no water hydrant was within easy reach of a plant stored with such dangerous material as oil and grease was commented upon by the fire-fighters in pretty strong language. The direction of the wind was right towards the tanks and there had been any real danger of an explosion the two available feeble streams of water would have offered very little security.

Mr. E. F. Weaver, local manager of the Company, wishes to express thanks not only to Chief Rotaghan and his firemen but also to His Worship Mayor Jenkins and the many citizens who rendered what help was possible. Thanks are also due to Captain and Mrs. G. McLeod for their kindness in furnishing the firemen with hot drinks and sandwiches.

Much of the damage caused by the fire is covered by insurance. The loss has not been total but it is estimated at between \$10,000 and \$15,000. This however will not cripple to any extent the activities of the Company here, as Avenue but in both cases the water pressure was unsatisfactory. One of the tanks was kept upon the blazing warehouse while the other played continuously upon the nearest tank.

Communion Service In St. James' Church

The first communion service under the pastorate of Rev. William Orr Mulligan, was held in St. James' Church, yesterday morning. At the preparatory service on Friday evening 21 new members were added to the communion roll, 9 on profession of faith and 12 by certificate from other congregations. There was a large attendance yesterday morning and the service throughout was most impressive. The pastor took as his subject: "Christ—the Only Hope of Salvation," basing his discourse on the words of Peter in Acts 4:13. Linking up the text and subject with the occasion of the Communion Service, Mr. Mulligan proceeded to show three things: 1st, Their Implication; 2nd, Their Symbolism; 3rd Some Practical Results, Past and Present.

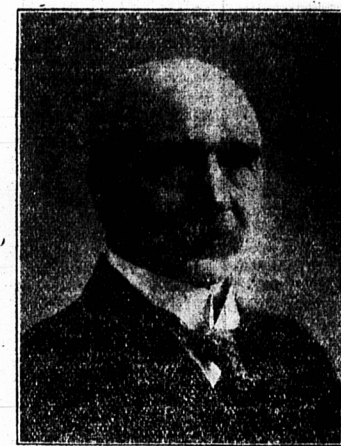

How many people fully realize the profundity of the great truths that lay behind the so-called "simple" gospel? When men came "registered" seed oats for sale at a big price, let the Department of Agriculture speak for itself and not blame it for the fact of the same being imported here. It is of the same grade. We believe that our Seedsmen and Grain dealers in this City have imported from Ontario and other Provinces some of the finest and best Seed Oats that are still left of vitality. Behind the ceremony lay a great fact and right. So in the Bread and Wine of the Sacrament lay the great fact of the work of Christ for men and women.

In the practical sphere the Religion of Christ had destroyed the Pagan Rome in spite of its tradition of 3,000 years; its art and architecture; its wealth and power and social and political prestige. It has outlived the terrible shocks of war and revolution, the French revolution being instanced—and it is still full of vitality. Russia is trying to build her ideal state with Christ; so far the experiment has not been a success for a perfect state can only be built up on the basis of a perfect people and the principles of the French Revolution and of Karl Marx are not such as would encourage the development of a perfect character. Only the principles of Christ had done that so far. The world had not yet found a substitute for Him. The words of Peter held as true today as 1900 years ago.

MR. JAMES PATON TODAY CELEBRATES JUBILEE

Fifty Years Ago Mr. James Paton Left Paisley for Charlottetown Where he has Spent an Active and Useful Career.

Today, April 3rd, marks an important anniversary in the life of Paisley and gentlemen were our esteemed citizen Mr. James Paton, C. D. Watson, Esq., on it being fifty years since he occupied the chair. After a very long and useful career he had been partaken of the

MR. JAMES PATON

Scotland to accept a position in the employment of Mr. Robert Young, a fellow townsman, in Charlottetown, occupying the premises now tenanted by Messrs. W. W. Wellner and J. Jawlless.

Mr. Paton had served his apprenticeship and remained, as was customary in those days, two years as journeyman with the firm of Messrs. Robertson & McGibbon, Paisley. In addition to having assisted served his employers, James Paton, then a mere lad in his teens, took an active part in his work and remained, as was customary in those days, two years as journeyman with the firm of Messrs. Robertson & McGibbon, Paisley.
