LOCAL BRIEFS

CRICKET at the Park this afternoon.
RIFLE LEAGUE. The last match of the league series takes place today. The Engineer's teams are requested to be on the range at sharp two o'clock, whether admitting.
ADMIRAL BEDFORD and the North American Squadron, after the recent visit to this port called at Sydney, went thence to St. John's, N. F. and sailed thence on Thursday to return to Halifax.

So far as THE GUARDIAN has been able to learn the supply of milk to the cheese and butter factories surpasses in amount that of any previous season. The pasturage has been more than usually abundant.

Be sure and attend the meeting in the Salvation Army Barracks tonight led by Major Pickering of London, England. The accomplished musician Brother D. E. Forest will render some beautiful selections.

In transmission of news items by telephone it is often difficult to be quite sure of names and initial letters. This fact accounts for some regrettable errors which recently appeared in THE GUARDIAN's valued Summerside correspondence.

We are pleased to note that cricket is being vigorously pushed this season. In addition to the game this, and we presume every Saturday, it is learned that an all day's game is being arranged for Thursday next. We look for some good foreign matches during the season.

FRIENDS of the First Methodist choir will have an opportunity to practically show their interest on Monday evening next. The choir have chartered a boat and will have a sail in the harbor. Choruses and college songs with a piece of instrumental music are promised. Fair caterers will be in charge of suitable edibles. Tickets on application to members of the choir.

The S. S. City of Ghent arrived in port last evening at 4 o'clock with four inward passengers and a general cargo. She sailed at nine o'clock for Summerside where she will take away a large cargo of cheese, oats and potatoes. She had two outward passengers besides a large quantity of furniture for Cape Breton shipped by Messrs Mark Wright & Co. of this city.

The International Exhibition at St. John from 11th to 20th September promises to be unusually rich in special attractions such as are now looked for on these occasions. These will include a famous hippodrome with trapeze and athletic performances by men on trained horses going at full speed, a plenty of fireworks &c. Mr. George F. Owen, agent for the exhibition in P. E. Island, will be in Charlottetown on 1st August equipped with full information for intending exhibitors and visitors.

Of the large number of tourists who have visited the Island within the past few days not a few came from New England and other parts of the United States where the season has been unusually dry, and at times very warm. Here they have found sufficient coolness at least, and have also had their enjoyment somewhat interfered with by the frequent showers. The fact show how widely different are the weather conditions in countries but a few hours distant from each other by steamer or railway.

A DANGEROUS SUBSTITUTE

We learn that some parties are imitating FOOT ELM. and some dealers are pushing dangerous imitations because they make bigger profits by doing so. Avoid such men. There are lots of honest druggists you can deal with who will not give you brass when you expect gold. Foot Elm positively cures tender sweaty feet, and is beneficial and purifying to the skin.
