How Self-Denial Funds are Used

The Self-Denial Fund has always been used to extend practical Christian work at home and abroad.

What is meant by practical Christian work? This—

There is hardly any form of distress in which men, women and children—either as individuals or in families—can find themselves, but The Salvation Army is already equipped to help them.

The following are only a few of the many institutions—every one of them established and maintained on an out-and-out Christian basis.

These Institutions are manned by Officers whom gold cannot buy. They would not consider their service to be a joy unless it involved day-to-day, life-long, personal sacrifice for God and their fellowmen.

Maternity Homes for poor mothers and their babies. Children's Homes, not "orphanages" or institutions, but small homes where parental care can be closely approximated.

Rescue Homes for wayward girls and unmarried mothers and their babies. Women's Shelters for temporary care of dependent cases. Police Court Work where men

and women not habitual criminals are taken in hand, induced to go straight, and followed up.

Prison, Jail and Penitentiary Work.

Working Men's Homes and Shelters where men may have clean beds, and decent surroundings at nominal charge, or, if they have not the price, free.

Free Labour Bureau. General Hospitals. Home Mission Department. Hospital Visiting Bands.

Industrial Workshops; where derelict men support themselves and work out their own Salvation.

Lost and missing friends worldwide enquiry. Military Hostels for Soldiers and Dependents. Military Social Service District Visitors.

Traning College for Candidates for Officership. Young People's Work.

It is in demand. So great is the demand for Dr. Thomas Electric Oil that a large factory is kept continually busy making and bottling it.

To be in demand shows popular appreciation of this preparation, which stands at the head of propriety compounds as leading Oil in the market, and it is generally admitted that it is deserving of the lead.
