OF COURSE YOU WOULD

Suppose you had $10,000

cash capital, and were seeking a mercancile connection, and that Mr. Smith, who had a similar amount of stock, but with an indebtedness of $3,000 on it, invited you to become his equal partner; and suppose further that Mr. Jones, who had a stock worth $10,000 wholly paid for, together with a business connection as good in every way as Mr. Smith's and probably better; suppose Mr. Jones also invited you to become an equal partner, would you hesitate a single moment before accepting the offer of Mr. Jones in preference to that of Mr. Smith?

Let us Suppose Again

you have a certain sum to invest in life insurance Would you be inclined to invest it in a company whose surplus earnings for years to come will be pledged more or less towards a stronger reserve basis, or would you unhesitatingly cast your lot with that company whose policy reserves are ample for the next generation at least, and every cent of whose surplus earnings is genuine surplus, free from any obligation or charge on account of reserves?

You Would of Course, Choose

the company with strong Reserves, especially when with this advantage went also liberal policy conditions and a long record of good management.

You would in a word choose the Canada Life, for it is the only Company on this continent which fully complies with the above specifications.

Interesting Items.

Farmers in Sanpete County, Utah, are having "pin-shows," only they use grasshoppers instead of pins as tickets of admission. The crops last year were ruined by the grasshoppers. This year the farmers determined to destroy the pests, so they arranged for a series of entertainments to which only those might be admitted who brought half a bushel of grasshoppers with them. Seventy-five bushels were the receipts of the first entertainment. The grasshoppers were burned at the close of the evening's amusement.

The Eastern manager of the Pennsylvania Railway has issued an order forbidding passengers to exchange kisses with their friends in the Jersey City station. They must give such greetings and farewells where they will not obstruct traffic. The Western manager says this order will not be enforced on his side of the Alleghany Mountains. And there you have it—the broad, expansive osculatory freedom of the West pitted against the exclusiveness of the East!

In London a curious experiment was recently tried by a South American named Papuss. Having wrapped around his body three hundred and fifty yards of flannel he lay down in a sort of glass coffin, which was then hermetically closed and placed at the bottom of a large tank filled with water. By means of an electric ventilator and of a tube, one end of which passed into the coffin, a constant supply of fresh air was assured, and this air was the only nourishment which Papuss received during the eight days that the experiment lasted. An eight days' fast is not an extraordinary occurrence, but what is particularly interesting about the present case is that the faster did not consume any water.

The "Lancet" has unearthed the curious fact that nearly all the important events in the life of His Majesty King Edward VII. have happened on a Tuesday. He was born, baptized, and married on a Tuesday; on a Tuesday he was appointed a member of the Privy Council; on a Tuesday it was definitely ascertained that he had contracted typhoid fever, and it was on a Tuesday he attended the public thanksgiving service for his recovery. On a Tuesday he succeeded to the throne; on a Tuesday the Royal Standard was first hoisted at Marlborough House, and on a Tuesday His Majesty underwent an operation for perityphlitis. Students of "the occult" may be able to deduce something from this dominance of the day dedicated to the god of war in the life of the King, but without any such deduction the series of coincidences is a very remarkable one.

Not only the horses but the powers of the law, says the London "Chronicle," are swift at Ascot, for the course has a special tribunal for the punishment of evildoers. No sooner is the pickpocket, welsher, or ticket-snatcher arrested than he is standing before Sir Albert de Rutzen in a little room in the royal stand where the evidence is heard and the verdict and sentence pronounced before the offender fully realizes that he is caught. Nowhere else does punishment so swiftly follow crime as at this court, which is decreed by clause 31 of the Indictable Offences Act of 1848. This race-course tribunal arose curiously in the eighteenth century from an assault upon a royal personage. In his indignation at the impossibility of instant punisment of the assailant, he ordered that in future a magistrate should always attend the royal race meeting. This has ever since been done, and by the above-mentioned act the chief magistrate of Bow street was constituted ex officio a justice of the peace of the County of Berks, in order to enable him to hold this court at Ascot.

LOST HEARING QUICKLY RESTORED.

No matter whether of long standing or not deafness can be permanently cured by Catarrhozone, which never fails even in the worst cases. The pleasant scented vapor of Catarrhozone allays inflammation, prevents and cures the catarrhal condition that causes deafness and relieves right away. Thousands have proved the efficiency of Catarrhozone, and with such a valuable remedy within easy reach there is no longer any reason for people to remain deaf. Catarrhozone is recommended also for Coughs, Colds, Catarrh and Bronchitis. Complete outfit, $1.00; trial size, 25. Druggists. or N. C. Polson & Co., Hartford, Conn., U. S., or Kingston, Ont.

What a Prominent Manufacturer Says

"Regarding the wear of **TRYON TWEEDS** I do not think there is any doubt on this point. They are more suitable for our Island trade than any other make. They are made of pure P. E. I. wool and every yard guaranteed to give the wearer satisfaction. They are equal in appearance to the best, and I feel confident will outwear any other make."

To The Farmers of Prince Edward Island

THE DOMINION PACKING COMPANY, Ltd., which is incorporated under the laws of Canada with capital of $1,000,000 (one million dollars), has purchased the Pork and Beef packing business hitherto carried on here by Messrs. B. & M Rattenbury. It is the intention of this Company to very largely increase that business. To that end the company will be prepared to make very large purchases of live and dressed HOGS, CATTLE, SHEEP and POULTRY. In fact in a very short time it expects to be able to handle at least five times as many hogs, cattle, sheep, etc., as the farmers of P. E. I, are at present raising, and it indulges the hope that the farmers of this Island will furnish all that is required.

Owing to our expert knowledge of killing, curing, etc, and our facilities for marketing our product, through our own cold storage warehouses which we intend to build at the points of consumption, such as Sydney, Halifax, St. John, N B. and St. John's, Newfoundland, and elsewhere, we will be in a position to pay SPOT CASH and HIGHER PRICES than any company now doing business in the Maritime Provinces. We believe you will make more money by selling us your live animals than by either killing them yourself or shipping them abroad on the hoof, as the Company will be provided with the best facilities for saving all the by-products or offal which have heretofore been thrown away.

Arrangements will be made whereby all goods purchased will be properly weighed by duly sworn officials at different points on the Island.

The preliminaries incident to taking over the Rattenbury plant and property and increasing its facilities for the new business will probably cause a week or two of delay. We, therefore, request our patrons to hold their marketable stock for a short time; but should you have any animals you find it is necessary to sell immediately, kindly communicate with us before offering elsewhere. We ask as a special favor that you kindly fill in the enclosed postal card and return to us without delay so that we can make our records more complete, and thus facilitate further communication.

Thanking you in advance for your co-operation, we are, sirs,

Yours sincerely,

THE DOMINION PACKING COMPANY, LTD.

Co-Operation Versus Monopoly.

To the Farmers of P. E. Island.

Our Company has been formed with a capital of $100,000 to equip and operate at Charlottetown a Pork and Beef packing and Canning plant with such cold storage as will be considered necessary for all Island products. One half of the capital is already subscribed but having in mind the fact that you might wish to take some stock and be represented on the Board of Directors, thus deriving the profits from the manufacture instead of allowing it to go to Capitalists we have reserved the balance 5,000 shares at $10.00 per share until such time as you can consider the proposition.

It is not necessary for its establishment that you should take stock in the Company, yet we would be pleased to have you do so, and you can readily see that it will be to your advantage and the very fact that we are taking a very large interest in it and will continue the management as we have our own business, is sufficient evidence that it will be succesful. In fact we can assure you dividends from the start.

We will pay cash at market rates for all hogs, cattle etc. when delivered and at the end of each year you will derive your dividends from the earnings on whatever stock you may hold. You practically become your own packers.

By taking stock and supporting this company you debar any promoters or speculators who may be endeavoring to form a monopoly from getting you into their grasp.

The matter will be brought more fully to your attention within a short time but should you wish further information or desire to take stock you can address
