

A Friend to Women

IF Lydia E. Pinkham were alive today she would be one hundred and nine years old. Her descendants continue to manufacture her famous Vegetable Compound and the integrity of four generations is behind the product. In many families today, mothers are teaching their thirteen year old daughters to depend upon the same medicine their grandmothers praised back in 1870.

An Indiana inventor's motor cultivator uses disks with sawlike teeth, a way that it can be used at any time to cut and pulverize the soil and destroy weeds and rodents at the same time.

Suspended from a ceiling in such a way that it can be used at any angle, a motor driven saw has been invented for cutting either metals or wood.

—LECTURE IN CHURCH HALL.—Rev. J. P. C. Fraser, M. A., presided over a large audience in the Epworth Hall, Summerside on Wednesday evening when Miss Ne Tannis Semmens, National Children's Work Secretary for the United Church of Canada, gave an interesting and inspiring lecture on the spiritual education of children in the home and in the church. The gifted speaker spoke with much feeling and eloquence on the development of the spiritual education of children and their conception of God. She said there should be a sympathetic understanding between the children and their parents and teachers. Impressions that the child got from the home, the first five years of his life, formed the background of his future understanding. She also said, parents should have more knowledge of the friendships, their children formed in school and elsewhere outside the home. A great deal of the responsibility of the training of the child has been left more and more to the church. To help with this the Maritime Religious Educational Council has been trying to get the people to reserve one hour per day for religious education. A vote of thanks was tendered Miss Semmens by Rev. Mr. Fraser on behalf of those present. The various churches were well represented. The meeting closed with prayer and benediction. —S.

Is Honored By Shipmates

Captain Asch of the Customs Cruiser "Margaret" was given very substantial proof of the respect and esteem in which he was held by his officers and crew in the form of an address and presentation to mark the occasion of his transfer from the cruiser "Margaret" to the cruiser "Conestoga".
When the officers and crew were all assembled he was presented with a beautiful silver tea set.
The presentation was made by Herbert Cassive, Chief Officer of the "Margaret", and the following address which was read by C. B. Harris, Purser of the "Margaret":
Dear Captain Asch:
It is with pleasure we learn of your appointment as Captain of the Customs cruiser "Conestoga". While we regret your retirement from the "Margaret", we must also tender you our sincere congratulations.
In leaving us, let me say, sir, that

Island Man Cured of Sciatica

Here is another grateful tribute from an Island man who finds himself freed from a very painful form of rheumatism.

Milton, P. E. I., Oct. 8th, 1928.

Dear Sir—A little over two months ago I was a terrible sufferer from sciatica, was unable to work and could not walk without much pain. A man whose wife was cured of a very severe form of rheumatism by means of the Farador, recommended the treatment to me and I began its use soon afterwards. The result was a complete cure, and I can tell you I feel happy enough for having given it a chance to help me. My general health is also much improved and I feel like a new man. You can make what use you like of this statement, which I give in order that other sufferers may know how to find relief.

Yours sincerely,
THOMAS McLEAN.
The foregoing letter is addressed to W. E. Enman, Farador Representative, 268 Sydney Street, Charlottetown. Ask for literature, including long list of cured P. E. Islanders. Mr. J. S. Perry is agent for the Farador in Summerside. 8518-10-19-11.

Parks are Valuable Possessions

Canada to-day counts her national parks among her increasingly valuable possessions, they represent one of the finest systems of public reservations, from the recreational point of view to be found anywhere.

As an earnest of our good will toward you, we ask you to accept these remembrances, feeling assured that the manly, straight forwardness which has won for you this slight token of esteem will be easily recognized and appreciated in whatever action you may be called upon to fill, and we hope that you may live to a good ripe age.

Very sincerely yours,
On behalf of the officers and men of the Customs Cruiser "Margaret", Herbert Cassive, Chief Officer, John Koenig, Chief Engineer, Albert Asch, 2nd Officer, C.B. Harris, Purser.

Captain Asch was greatly overcome by this token of appreciation from his old shipmates with whom he has always been very popular, and made a happy response, thanking his fellow officers and men. He assured them that although he would not be with them, his thoughts would be often carried back to the good ship "Margaret" and the splendid personnel. The memories of his associations with the officers and men of the "Margaret" would be most pleasant ones.
