

TO THE ELECTORS

To my friends who went out under disagreeable weather conditions to vote for me yesterday, my sincere thanks.

Percy W. Turner

TO THE ELECTORS

I wish to extend my sincere thanks to the electors of Charlottetown for the victorious support they gave me yesterday at the polls.

D. L. Mackinnon

FOR SALE AT BUNBURY

Two and a half miles from Charlottetown on improved road, within a stone's throw from school and railway station. 183 acres choice land, close to 100 clear, balance under hard and soft wood.

Farm well watered, with a brook and a number of springs. Wonderful pastureland.

Large double house in good repair, newly painted, with all modern conveniences, including electric lights, bathroom and sewers.

Barns in good repair, with electric lights and running water, supplied by automatic electric system.

J. WENDELL MUTCH

Bunbury.

League of Nations To Expire April 8

GENEVA, March 28 — (Reuters) — The assembly hall and committee rooms of the League of Nations building here are ready to receive the delegates of the 40 countries invited to attend the final meeting of the League April 8.

For six years the building has been shuttered and closed to all but a skeleton staff dealing with the current business of the secretariat. But the various halls and committee rooms have been kept in perfect condition, ready for immediate use.

British Columbia's salmon traps are intended to do just what their name implies—catch salmon. But the unusual salmon sometimes have a conglomeration of trap-mates. (By the way, British Columbia salmon traps are big devices worth something like \$15,000 apiece, and

Carbonyl from powder, first made in the United States in 1941, has unusual magnetic and electrical properties, it is claimed, that make it ideal for use in manufacturing electro-magnetic devices.

Discovery May Make Atomic Power Possible

By HOWARD W. BLAKESLEE Associated Press Science Reporter (AP)—The denaturation of plutonium and of uranium-235, announced in Washington Monday, is the greatest discovery that scientists have been hoping for to make it possible to produce atomic power.

This discovery may mean that a piece of metal the size of a watermelon will produce as much heat as hundreds of tons of the uranium now used to make atomic fire.

Heat that makes power, such as boiler fires, is concentrated in a small area. It was not possible when the war ended, to use a small amount of uranium 235 or of plutonium to make an atomic fire because of such concentrated pieces of either metal would instantly explode.

Denaturing is described as rendering the metal unable to explode, but without stripping their ability

to produce heat by the explosion of their atoms. If that is true then efficient atomic fire can be made to create steam, drive a train, produce electricity or for operating turbines or for heating gases to operate the gas turbine engines that are just beginning to come into industrial use.

It is not clear yet from the Washington reports whether some other chemical elements will have to be mixed with the atom-splitting metals. But the discovery is certainly a stride toward education of the vast size of the pile that has been the first stumbling block to atomic power.

The denaturation does not apparently remove the great handiwork of dead rays that come from the atomic fire. These rays require 50 to 100 tons of shielding even for the smallest atomic power plant.

Denaturing is described as rendering the metal unable to explode, but without stripping their ability

Ministerial Travelling Expenses

Answer to the following question was tabled in the Legislature yesterday:

Mr. R. B. Bell: In the item of \$4,022.40 for Ministers' travelling expenses under "General Government," Public Accounts, 1945, give a detailed breakdown of item as to whom the amount was paid and how much to each.

Table with 2 columns: Name and Amount. Includes Hon. Walter Jones, Hon. William Hughes, Hon. George H. Barbour, Hon. W. F. A. Stewart, Hon. Marj Galloway, Hon. J. A. Campbell, Hon. Horace Wright, Hon. T. W. L. Frowe.

C. C. F. Leader Supports Price Ceilings, Floors

OTTAWA, March 27.—(CP)—M. J. Caldwell, C.C.F. leader today in the Commons placed his party behind the government in its policy of maintaining ceilings and floors on prices and wages.

When Mr. Caldwell finished speaking, the House defeated by 166-34 vote a Social Credit motion of want-of-confidence in the Government, which called for the establishment of a "Christian democracy" which would raise the Canadian standard of living.

The third such motion defeated in the Commons, it was moved by Victor Quetch (Se-Acadia) who said the Government should keep the purchasing power of the people high enough to enable them to buy all they wanted or could produce.

Mrs. Gladys Strum (CCF-Quebec) adjourned the debate after the defeat of the motion, which was in the form of an amendment to the main motion for adoption of the Throne Speech.

Agriculture Minister Gardiner said in his report to the Commons that the food contracts with Britain, announced yesterday, assured good prices for the next three years. Liberal Party policies had given Canadian Agriculture its best period in its history.

The bluntness of India is no relation to the American bird; when perched the nest three years. Liberal Party policies had given Canadian Agriculture its best period in its history.

from several ships in harbor. The majority of the winter fleet, now in riding free of ice for the first time since late December. The Nasopole, Arctic supply ship, was reported still icebound but expected to be freed shortly.

Provincial Junior Red Cross Committee Meets

July 2nd-10th, were set as the dates for the 1946 Red Cross Summer School for Health at an enthusiastic meeting of the Provincial Junior Red Cross Committee held at the Society's Headquarters on March 26th, with the Chairman, Mr. I. W. Shaw presiding.

It was announced that the Division had been fortunate in securing Miss Jean E. Brown, National Director of Junior Red Cross, and Mrs. Allan Stevenson, National Director of Red Cross, as instructors for the Summer School. The former will give lectures on the method of teaching health to children, and the latter on the relation of good nutrition to the healthy individual.

Physical Fitness will also be included in the programme which promises to be a very worthwhile one open to all teachers in the province.

In discussing the work for handicapped children in this province, Mr. Shaw stated that the Junior Red Cross Branches, should receive letters and reports from the children and the Junior Red Cross Fund is prepared to arrange for indigent children to receive treatment.

The members of the Committee expressed their approval of the approach of the Provincial Red Cross Nutritionists and made plans to hold a meeting with her after she commences her duties on April 23rd in order to curtail her work with that of the Junior Red Cross.

School Improvement League Meeting

The regular meeting of the School Improvement League was held in the Harris Memorial Gallery on Tuesday evening, March 26th, with the president, Mrs. Gordon McDonald presiding. A large number of members were present and several new members were welcomed into the League.

Letters were read from the Canada and Newfoundland Education Department and the Ontario Education Department, following a short business session.

Mrs. P. A. Creighton gave a very interesting and thought-provoking talk on the composition of the art collection, pointing out the differences between the two collections.

The president gratefully acknowledged the loan of chairs from the Ontario Education Department and a hearty vote of thanks was tendered to Mrs. A. W. Grant, who had done so much in connection with the work held in the Art Gallery on March 21st.

The meeting will be held on April 11th at the home of Mrs. Gordon McDonald.

CARDINAL MCGUIGAN

(Continued from Page 1)

the station by clergy and laymen. His face was wreathed in smiles as he drove through the streets at the head of a parade of cadets, Holy Name men and Catholic Legionnaires. The watching crowd was particularly dense in downtown Toronto and office workers watched from their windows.

As the parade was being held tonight in his See Church, St. Michael's Cathedral, and further down the street, the Cardinal planned for the next few days. The chief event will be a mass reception by the archdiocese in the Cathedral on Sunday.

A Roman Catholic press photographer was introduced by Mayor Saunders to James Cardinal McGuigan today at a civic reception marking the Cardinal's return to his home in Ottawa. "He is rather famous," the Mayor said, "and he is taking pictures of the 12th of July Orange parade."

The photographer blushed. The Cardinal laughed and said: "Apparently he is taking pictures of all men."

When the Cardinal's parade passed a downtown office, a man leaned from a third-storey window and shouted: "Hurrah for the Cardinal!" The Cardinal responded with a smile.

P. E. I. DELEGATION

(Continued from Page 1)

ive representation given by Prince Edward Island in the House of Commons by our Queen's member, Mr. McLure.

Asked to what views the P. E. I. delegation holds on the leadership of the National Association, Mr. Holman declared he and his associates came to Ottawa with open minds on the question.

As far as Mr. Holman was concerned, he was prepared to throw my personal support to the most outstanding member of the group, regardless of any sectional prejudice. I feel that other members of the P. E. I. delegation hold the same views.

Coming from a business trip to Boston, Mr. Holman mentioned that a number of prominent people in both cities had been invited to the island for a visit during the summer.

Mr. Holman said that he and his associates came to Ottawa with open minds on the question. As far as Mr. Holman was concerned, he was prepared to throw my personal support to the most outstanding member of the group, regardless of any sectional prejudice.

N. S. Agriculture Production Down In '45 Figures Show

(By The Canadian Press) HALIFAX, March 27.—Estimated value of Nova Scotia's agricultural production for 1945 showed a drop to \$44,000,000 from the \$47,000,000 of 1944, according to the annual report of the Department of Agriculture and Marketing, tabled in the Provincial Legislature today by Premier Angus L. Macdonald.

The report quoted Dominion Bureau of Statistics figures, and the large portion of the decrease of the Annapolis Valley apple crop, which amounted to 1,700,000 in 1944.

Estimated value of field crops was \$18,000,000 and poultry and egg production was estimated at \$5,000,000 and provincial creamery production at \$1,800,000. The report stated approximately 7,000,000 pounds of butter were imported into Nova Scotia.

Angus L. Macdonald, as Minister of Highways, tabled the annual report of the Department of Public Works, showing 5.7 miles of road were paved during the year. Because of the conditions, the report said, only small amounts of bridge reconstruction were undertaken.

Summerside, in the Island, Louisbourg, Glace Bay and Annapolis. A total of \$26,000 was spent on trunk highways and \$2,000,000 on provincial and maintaining country highways.

Make Private Loan To Czech Industry

PRAGUE, March 27.—(AP)—A private \$1,000,000 (\$4,400,000) loan to Czech industries, arranged through the Standard Bank Ltd. of London, has been announced here.

The loan is in addition to a \$5,000,000 Government loan obtained from British last year.

Typical comment appearing in newspapers here is that it appears that even British capitalists gave confidence in Czechoslovak industrialization.

Sturgeon of big size are sometimes taken in British Columbia. One of the fish taken last summer weighed over 800 pounds.

CENTRAL GUARDIAN

This column is reserved for news of local interest, but advertisements of a newsy nature may be inserted at a word, strictly payable in advance.

CRASWELL for photographs. CONFEDERATION LIFE INSURANCE. HOWARD MCINNIS for Fitted Footwear. 2-9-24-4.

FLUE FIRE—A flue fire yesterday evening at 13 Park Terrace necessitated part of the first equipment being called out to extinguish it.

FUNERAL TO LOT 40 — The funeral of the late Dwight Mosher of the MacLean Funeral Home to Lot 40 United Church, where services were conducted by Rev. Mr. Mercer noon and Mr. MacPherson. Interment was in Midgill Cemetery. The pallbearers were: Ray Cairns, Jerry W. Bakker, Andrew H. MacPherson, Hawboldt and Sidney Anderson.

CITY POLICE COURT — Yesterday morning at the city police court nine men appeared before Magistrate E. M. Martin. There were four charged with being drunk and disorderly. Of these, three received 10-day suspended sentences. Of two charged with being intoxicated while operating an automobile one was released on a \$50 bail while the other was given one month in jail. Two cases of breaking and entering were remanded until today and tomorrow respectively. The raiding squad picked up two slot machines yesterday and the owner will be prosecuted.

BUDGET DEBATE STILL ON — The Budget debate was continued in the Legislature yesterday afternoon. The speakers in the debate were Messrs. Eugene Cullen, Third Queen's; Leslie S. Hunter, Third King's; H. H. Oor, Second King's; Fred C. Ramsay, First Prince, and Walter G. MacKenzie, First Queen's. Mr. MacKenzie moved the adjournment shortly before 11 p.m., when the House adjourned until 1 o'clock this morning.

FEELING WAS GENERAL — In his speech last week in the Budget debate Major J. A. MacDonald, Third King's, stated that Canadian taxpayers were not getting their money's worth in the industry, had very little faith in Prime Minister Mackenzie King's government, and were not satisfied with the way the deal with the conscription issue. Through a typographical error, Mr. MacDonald was quoted as referring to "Conservative combatants."

FUNERAL YESTERDAY — The funeral of the late William MacCallum of Brackley Point, who passed away at Annapolis, N.S., on March 26, was held yesterday afternoon from the Outfit Funeral Home. Services at the home and grave-side in the People's Cemetery were conducted by the Rev. Mr. MacCallum, pastor of the Salvation Army. The pallbearers were: Bruce Jones, William MacCallum, Bruce MacCallum, Andrew Ward, George Larter, Spurgeon Diamond.

20,000 PERSONS

(Continued from Page 1)

value of discovery at this stage is illustrated by figures quoted by Mr. Walter Frydman in a recent address. These figures, obtained from Mr. Eric Pound, estimate the average cost to the province of curing an early case of tuberculosis at \$800 to \$1,000 as opposed to \$2,000 for a moderately advanced case.

Dr. Creelman's statement follows: "The value of the 5450 X-ray films taken by the mobile X-ray unit in Charlottetown have been examined, so far, 100 per cent. Of this number 75 or 76 individuals were found to have tuberculosis, and 38 of these need treatment. The treatment requires a varied modified rest of a few hours daily at home to complete bed rest and hospitalization in the sanatorium. The percentage of those found was only slightly higher than that found by the Department of Defense among recruits for the armed forces."

The response to the discovery of tuberculosis in Charlottetown is being met by the Department of Health. There must be at least 1,000 people in the city who have not been examined. The value of the 2,970 individuals who are free from tuberculosis and don't know it, and 30 individuals with tuberculosis and don't know it, is being met by the Department of Health.

Unless the mobile unit is kept busy 6 hours a day for 5 days a week the films cannot be taken for the full 50 cents. In order to improve the health of the people of this province it is the duty of every one to be X-rayed."

DEATHS. MGNALY.—At the Prince County Hospital on March 17, 1946, Mrs. Leonard McNally, a son of Patrick Joseph McNally, who was born in the P. E. Island Hospital, March 27, 1946, to Mr. and Mrs. Arthur L. Wright, a daughter.

Britain's New Health Service: Wartime Plans Worked Out

(Continued from Page 4)

offices. As those are developed, local doctors will be able to use their facilities as they please if participating in the new service.

The chief difference between the British and the American plan is the transfer of the Government of all hospitals, voluntary or public, in England and Wales, to the control of the voluntary hospitals, however, will pass to a new hospital authority, which will have the duty of providing hospital and constant services of all kinds, including general and special hospitals, maternity accommodation, infectious diseases units, provision for chronic sick, mental hospitals and mental deficiency institutions, accommodation for convalescence and medical rehabilitation and all forms of specialized treatment, such as orthopaedics, cancer, neurosurgery, plastic surgery, paediatrics, gynaecology, and ear, nose and throat.

These services, together with blood transfusions and pathological laboratories for the control of epidemics, are to be organized nationally but administered by regional hospital authorities and local management committees. The capital value of the new endowment fund will be approximately £1,000 million, the regional boards may receive gifts or legacies and property on trust.

There will be sixteen or twenty of these boards, which will thus plan and operate a complete hospital and specialist service for areas much larger than the existing local Government divisions (cities, counties, towns, etc.). They will employ the hospital staffs. Specialists taking part in the service will be attached to the hospitals, but like the general practitioners will be free to practise outside the service.

A new Central Health Services Commission will be the authority of the new services. Its members will be drawn from the medical and other professional people and those experienced in hospital management and local Government.
