

**What kind of roofing shall I buy?**  
The General says: You can buy a cheap unguaranteed roofing and save a few dollars in initial cost—or you can pay this slight difference and get a roofing guaranteed by the world's largest manufacturer of roofing and building papers. The final cost is what counts and you'll find it cheaper in the long run to buy

# Certain-teed Roofing

This roofing is the highest quality possible to make and it is guaranteed 5, 10 or 15 years, for 1, 2 or 3 ply respectively. When once laid, Certain-teed will remain intact at least for the period of the guarantee and the guarantee is a definite insurance against all roofing trouble.

Roofing that is cheaper than Certain-teed is cheaper in quality and is not guaranteed by a big mill and best responsibility. If the cheap roof falls down you will have to pay the double expense of laying a new roof all over again. Certain-teed Roofing is for sale by dealers everywhere at reasonable prices.

..\*SCHOOL EXAMINATION. — A most successful and interesting examination was held in the Green Bay school on June 23rd in the presence of the trustees and a number of the most interested ratepayers. The various classes were examined but might be said tested by Mr. W. J. McGinn a former teacher of the district. Judging from the prompt and intelligent answers given by the pupils of both advanced and primary classes, there has been a great amount of care and energy exercised by their teacher Mr. Louis Costello.
