A Quick Cure For Catarrh

Make Wonderful Cure for Catarrh, Colds, Bronchitis, Throat Weakness

To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhzone, which alone can be breathed in one second to every air cell in the breathing organs. The healing vapors of Catarrhzone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich piney essences that ease, heal and cure.

Catarrhzone has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, tablets, and sedative powders. It contains none of the opium, chloral and drowsy narcotics, so commonly found in liquid cough and catarrh remedies. The extraordinary curative power of Catarrhzone is well explained in a letter from A. B. Cowan, the well known restaurateur of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but one continual cough, hawk, headache from morning till night. My nose and throat were so completely stuffed up that I could scarcely breathe. Catarrhzone eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhzone relieved and by pursuing this treatment I have been permanently cured of all trace of Asthma, Catarrh and Bronchial Irritation."

Once you try Catarrhzone you'll realize how indispensable it is—the large dollar size contains an indisputable hard rubber inhaler and sufficient medicine to last two months. Smaller trial sizes 25c. and 50c. Beware of the substitutor and imitators of Catarrhzone—use the genuine and you'll get cured. By mail from the Catarrhzone Company, Kingston, Ont.

CALLING ON ROYALTY.

The arrival of the king and queen to open parliament means that for some days a procession of people will be seen entering and leaving the gates of Buckingham palace.

"It is etiquette directly the season begins that all who are on the list for their majesties' entertainments should leave their names as soon as the court comes to town, either in February or at all events at the beginning of the real London season. Nowadays the queen is apt to return rather late from her spring sojourn abroad, so those who wish to make sure of being kept on the list will do well to write their names before Easter, when such lists are usually undergoing a process of revision."

"Those who do not appreciate the attention to detail that obtains in royal circles might think that writing one's name in a book, even though presided over by a royal footman resplendent in scarlet and gold, would be a detail too unimportant for their majesties' notice.

"Yet it is a fact that the book kept just inside the eastern entrance to Buckingham palace is submitted every day for inspection by the king and queen when they are in residence. This was also the rule in the days of Queen Victoria, who always found time to look through her visitors' book, however pressing the cares of state might happen to be.

"The rule as to inscribing names extends itself also to Marlborough house, where all those on the court list make a point of calling directly the prince and princess of Wales come to London. Their royal highnesses' book is kept in a quaint little low room of the porter's lodge, immediately to the left of the gate leading to Marlborough house.

"All the other royalties with residences in town have books in which callers inscribe their names instead of leaving cards. And not only is it necessary to go through this formality at regular intervals when one is acquainted with any member of the royal family, but it is also a matter of strict etiquette to write names at once should it chance that one has been invited to meet a prince or princess or has the honor to be presented to one."—The Gentleman.
