

COAL

is one of the things that contributes largely to our enjoyment. While it goes up largely in stock, it leaves behind genial warmth to the occupants of the house.

Cold weather rapidly decreases the coal bin, and if your supply is growing small, better let us replenish it at once. Prices will be no lower and you may have difficulty in securing coal later.

To The Electors Of Charlottetown Ladies and Gentlemen.

In soliciting your votes for the election for Commissioner of Sewers and water supply I thank you for the very hearty support accorded me in the past.

Should it be your pleasure to again elect me to this important position in the city I shall endeavor as in the past to discharge the duties faithfully and to the best of my ability.

Improvements in Service will be required during the present year requiring the direct vote of all good citizens.

Respectfully Yours

PAIR OF BLACK FOXES COSTING \$6,000.00

TRURO, Feb. 3.—The Truro Fox Farm Company, composed of T. G. McMullen, G. B. McMullen, E. D. McMullen and H. S. Cruikshanks, this week contracted for a pair of pure black foxes, from the Park Farm Co., Ltd., of Summerside, P. E. I.

The Truro fox farm is now an established business proposition, having a very ample farm on the Harmony Road.

Already there are three pairs of foxes, including a pair of silver grays.

The foxes contracted for from the P. E. I. company are of a generation yet unborn but will see the light about April next.

The price to be paid would amaze the unthinking reader, being in the neighborhood of \$6,000 for the pair of youngsters.

It is the determination of the Truro company to have only the very best stock for breeding purposes and their option with the Park Farm Co. of P. E. Island, who sell only the finest breeds, shows that this policy is being pursued in the earliest stages of the enterprise.

Park Farm, Summerside, has been a successful enterprise since its inception, the company, in its first year's operation, clearing up \$24,000 from an invested capital of \$18,000.

They deal in live stock only, and the demand for the live black and silver grey foxes is far in excess of the supply.

The P. E. I. Company have a splendid farm for their animals and everything is done in a scientific manner.

Skins from the farm of Mr. Dalton, from whom the original animals were purchased, have brought the enormous sum of \$530 and \$540 each in the London market.

J. S. Hinton, secretary of the Park Farm Co., Ltd., was in Truro on Tuesday last and expressed himself as well pleased with the appointments of the Truro fox farm, and also with the spirit of enterprise prompting the promoters.

The Sackville Fox Co. also contracted with Mr. Hinton for a pair of youngsters in the spring.

The members of Christ Church were very pleased to see their rector Rev. S. J. Woodroffe, in his accustomed place on Sunday morning. He was unable to take the services for three or four weeks on account of ill health, but is now pretty well recovered.—Halifax Exc. (Rev. Mr. Woodroffe was formerly pastor of St. Paul's Church in this city.)

Militia orders of recent date give notice that Capt. A. H. Borden of the R. C. R., at Halifax, well known in Charlottetown, has been transferred to Fredericton. Captain Borden is a nephew of Sir Fred Borden, and a native of Canning, Nova Scotia, and has been connected with the service for some years. Previous to his appointment as physical drill examiner, several years ago Capt. Borden was adjutant of the Royal Canadian Regiment at Halifax. He is at present at Kingston, Ont. The number of officers at the Fredericton depot has not been up to the required complement for some years and Captain Borden will be second in command there. It is probable that another subaltern will be transferred there shortly.

The basket social held at Kelly's Cross on 31st January was a most successful affair, every one going home glad they had been there and the sum of \$120 having been realized. John P. Bradley has proved himself a very good auctioneer, and got fancy prices for some of his goods. The soloists of the evening were Miss Millie Gorman, who uses a fine voice with ease and grace; little Miss Georgina Trainor, who delights the audience by her distinct yet musical voice, and Frank J. Flood, always a favorite, even here at home. The star of the evening was J. Austin Trainor of Charlottetown who is a whole concert in himself. He made oarrels of fun for the crowd, and they would have wished him to stay with them a little longer. His special references to some of the local characters, and his predictions of realities in Kelly's Cross in 1919 opened the eyes of those present. Come back again Austin—in 1919. Perhaps the most enjoyable item on the program was the dance after lunch and hot coffee, the music being supplied by Levi Trainor.—Com.

The Windsor Swastikas and the New Glasgow Shamrocks are so far the only teams which are likely to play here for the Amateur Hockey Championship of the Maritime Provinces and the star Trophy, competing against the winners of the P. E. I. League. Not much has been heard of the New Glasgow boys who seem to be quietly at work in preparation for the deliverance of the goods when they cross the straits. The Swastikas are champions of the Western Hockey League. The Windsor boys have not suffered a single defeat in the league, and their splendid showing has already been creditable. An exchange referring to games outside the league, says:—"The Windsor Swastikas met their second defeat of the season when they were renounced by the Amherst Ramblers Thursday night. The Swastikas are considered very formidable, and altho everybody knows that the Ramblers are practically invincible in their own rink, it looks as if Amherst has a real good amateur team." Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Ry., has had a wonderful proof of the healing power of Zam-Buk. He says: "Four years ago, I had an accident. I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and let up."

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse."

"This was condition when I got my first box of Zam-Buk. Greatly to my delight the first box gave me the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema or any trace of it."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, colds, sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, cuts, burns and bruises. CHANGES MADE GAME BETTER, SAYS ROPER.

PHILADELPHIA, Feb. 6.—That the old Yale style of line-hatting football will be the order of 1912 as a result of the changes in the rules was the prediction made here today by William Roper, coach of Princeton's champion eleven last year. "The poor defence is going to take a pounding next fall," said Roper. "Line-hatting will be the order of the season. The additional down, legalizing of the forward pass in any position and the retention of the same distance to be gained have made the game a great one from the offensive standpoint. It will make sport worth watching."

FINDS TEN KINDS OF LIES.

CHICAGO, Feb. 6.—Ten kinds of lies have been discovered, diagnosed and analysed by Dr. Allen Hoben, professor of sociology in the University of Chicago. The different kinds of lies he characterizes as follows: The fantasy or fairy-tale lie, the vain-glorious or boasting lie, the depressive lie, the heroic lie, the white-permissible lie, and professional lie, the art lie and the adulterative lie.

"The society lie is the most frequent," says Professor Hoben. "We all know the society lie—it is on the increase, I fear; the business lie, a thousand forms and many business men know them to their sorrow. For a definition of the professional lie I would refer to any high-minded lawyer or physician. The most injurious and one of the most common of all lies is the modern adulterative lie, which results in giving us oleomargarine for butter, cotton-seed for olive oil, red ink for wine and wood alcohol for whisky."

thing which would give employment to citizens. He was for honest government, boosting industry, civic health, good streets, cleanly backyards and attractive buildings, and anything tending to civic health, beauty and independence would be encouraged by him. He had a closing word for the workmen, showing his interest in that class.

H. H. Brown, owing to a death in the family was unable to be present.

Dr. McLaughlin, Ward Four, offered his services to the city and emphasized the necessity of health and hygiene. The great problem of many cities was the disposal of its by-products so that there would be no contamination. He thought every city had a limit of expansion and if Charlottetown had already reached that stage it would be necessary to prepare for that time by establishing industries. If the city council cannot do much it could at least direct attention to its advantages or opportunities to capitalists. He had flattering words for the Ward in conclusion.

A. McLean, Ward Five, felt proud of Charlottetown, and was ready to devote his time and energy to its interests as councillor. He stood for civic improvement and advancement.

John McNevin, Ward Five, said he had no councillor's aims to answer for and would serve the ward and city to the best of his ability.

W. K. Rogers, Ward Five spoke of the procuring of a department engine for the Fire Department and the consequent lessening of the fire hazard would lower insurance rates and would be equal to a lowering in tax.

A Bald-Headed Woman

Shorn of Her Crown of Beauty, Lost in Love and Marriage.

Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness, and success. Yet, right here in Charlottetown, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over-heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.

Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We have that remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall "93" Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair troubles; that it will grow hair even on bald heads, unless all life in the roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.

We want you to try Rexall "93" Hair Tonic at our risk. You surely cannot lose anything by going so, while you have everything to gain. You had better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Remember, you can get Rexall Remedies in this community only at our store—The Rexall Store, The McKinnon Drug Co.

He thought Charlottetown was paying to the local government income tax from which no benefit was derived and would suggest that this be removed to be applied to the increasing of teacher's salaries. The last was necessary but no citizen he thought would stand for further taxation. In closing he said he and others were doing no canvassing and thought the electors of Ward Five intelligent enough to choose their representatives without solicitation or advice.

W. P. Tidmarsh, Ward Five, had little to add to his circular and card to electors, and nothing to take from them. He praised the retiring council and said he was in favor of adopting proper measures for the health and hygiene of the city.

W. W. Walker, Ward Five, was in the field and would extend his energies in the interest of Ward Five and the city in general.

Geo. Wheatley, Ward Five, proposed a plea for the cleaning of backyards by having men for the work to be paid by the city. He went at some length on proper drainage, present conditions in certain sections being not conducive to health. He was in favor of milk and food inspection and the encouragement of industries.

Ex Mayor Paton moved a vote of thanks to Mayor Rogers, the chairman. This was seconded by J. P. Gordon and carried, after which the meeting was brought to a close.
