

Important Telegraphic News of the Week for Saturday Subscribers.

SUMMERSIDE, July 3.—(Special by Phone)—About noon on Saturday Alexander C. Gallant and his brother of Egmont Bay, were in a boat when it suddenly swamped and went down. Alexander was carried some distance from the boat and having heavy boots, and other clothes on, was unable to reach the boat and sink. His brother caught the mast and was rescued in an exhausted condition. There were only about seven feet of water at the spot.

The body was found a few hours after the accident took place. Mr. Gallant was forty four years of age and leaves a widow and seven children.

ALEXANDRIA, July 2.—The P. E. Baptist Association met this morning in the house of worship of the Alexandria Church.

In the absence of the moderator, Rev. H. S. Erb acted as chairman. After a short time spent in devotional exercises a list of the delegates was read as far as received.

Adjournment then took place till afternoon.

In the afternoon session officers were elected as follows:—

Moderators: Deac. Arthur Simpson, Sec. Rev. E. A. McPhee, Asst. Sec. G. B. Lewis, Treas. Layton McEneaney, Rev. E. A. McPhee read the report of the committee on officers.

After the adoption of this report Pastor Cornwall offered an earnest and touching prayer on behalf of the friends and families of the deceased.

The report on Denominational Literature by Deac. A. W. Sturges was adopted after considerable discussion.

It was felt by all that more families should be taking the denominational paper, the Maritime Baptist.

The attention of pastors and churches is called to this matter. A warm welcome to the new pastor Rev. H. Morrison, R. G. Lewis, and C. S. Young by the moderator brought the afternoon session to a close.

In the evening session G. F. Campbell gave a report on Sunday Schools. During the year 1907 and 1908 six new schools had been organized, 300 new scholars had been added and there were 33 baptisms from the ranks of these scholars.

The discussion that followed was most interesting.

Among other things it was said that parents should be followed by their children to Sunday school in everything else and that the place for the lesson helps was at home and the Bible for actual class study, not vice versa.

Rev. W. V. Higgins then gave a most interesting address on "The Synagogue Missionary Movement."

Among many searching truths he gave the Association were these: Baptist churches in the Maritime Provinces last year gave not one cent for denominational purposes of any kind.

One hundred and thirty two gave not a cent to foreign missions. Some poor widow women are giving more than an average half a dozen of our churches.

Do you belong to one of these churches? Rockefeller might give \$50,000,000 but he can't discharge your obligation.

The Baptists of Canada have pledged themselves to evangelize 6,000,000 heathens.

Will you do your share at ten cents per week?

Mr. Higgins was in fine form and his earnest address made a deep impression on the audience.

After some special music by the choir the meeting adjourned.

CAMBRIDGE, Mass., July 3.—At the commencement exercises of Harvard University held last week the largest number of Canadians in the history of the University received degrees from the various departments.

Very few of the Canadians are undergraduates, most of them studying in the Graduate or Professional Schools, entering with degrees from Canadian universities. In the Graduate School six Canadians receive the Ph.D. degree, the highest given by the University. Nova Scotia has so many men given to Canadians in one year.

Cyrus Macmillan, who gets his Ph.D. degree from the Department of English, is a native of Charlottetown Prince Edward Island. He was prepared for the university at Prince of Wales College, where he won the Vice-Chancellor's medal for English. He was graduated from McGill in 1907 with honors in English language and literature, and received his M. A. from McGill in 1908. He received his A. M. from Harvard in 1905. From 1905 to 1907 he was instructor in English at Prince of Wales College. In the latter year he returned to Harvard to complete his work for the Ph.D. degree. At Harvard he held a University and Tutorial Scholarship. His research work was "The Folk Songs and Folk Tales of Canada and their Relation to those of Europe," and he is the first student to receive the Ph.D. degree from the Harvard English Department on a Canadian topic of research.

At McGill he was Editor-in-Chief of the McGill Outlook. He was also Secretary of the Canadian Intercollegiate Athletic League, Captain of the McGill Track Team, Intercollegiate Champions of Canada, and played half-back on the Intermediate football team. He held the Maritime Provinces championship in the quarter mile run for three years. He has been appointed instructor in English at McGill University, Montreal.

William E. McNeill, who receives his Ph.D. degree in the English Department, is a native of Montserrat, Prince Edward Island. He prepared at Prince of Wales College, Charlottetown, and was graduated from Acadia University, Nova Scotia in 1906. In 1901 he took his A. B. at Harvard. Next year he goes to Queen's University, Kingston, where he has been appointed Assistant Professor of English. His thesis is on the "History and Development of the Roman-Id Drama."

ALEXANDRIA, July 3.—The business of the morning session of the P. E. Baptist Association opened with a digest of church letters.

From these it would appear that the past year has been a most successful one.

122 baptisms were reported, the largest number since 1896.

But two of the churches have, up to the present date, contributed the full amount assigned them to the Convention Fund.

These two are Charlottetown and Digby.

The latter church is to be commended, since, though pastorless, it has raised over and above its assigned amount.

Rev. H. S. Erb then gave a brief history of the home mission work, speaking feelingly of the late Dr. Saunders as one of the early workers now gone.

Attention was called to the good work being done among the coloured churches in N. S. In this Province we have at present twenty-seven churches with ten settled and three student pastors.

At the least four more settled pastors were badly needed.

Last year the Board spent \$514 on the island for H. M. work and had received in return but \$261 for this same purpose.

He thought the H. M. work never should be self-sustaining and not paid for by brethren in N. S.

In the report on systematic beneficence prepared by Rev. W. M. Field it was recommended that some system of weekly giving be taken up by every church, and that an effort be made to make the H. M. work on the island self-supporting.

A lengthy discussion followed respecting this latter clause.

Home Mission secretary, as well as by the college representatives, to the great need for a further extension of our theological work at Acadia and for this improvement more funds were needed.

At present the young ministerial students have to go to Seminars in the United States to finish their theological work and most of them get pastorates there and so are lost to Canada.

A good course in Theology at Acadia would keep many students here and the great home need would be supplied from our own institution.

During a discussion of the report on Foreign Missions attention was directed to the fact that the task of evangelizing 2,000,000 Feloags was an imperative duty to the Baptists of the Maritime Provinces.

To do this in this generation, which is the only one we can reach, men and money were needed.

We had the men and \$120,000 per year would carry on the work.

This could be done easily if every church member would give regularity to his work.

Mr. Higgins explained that this amount, if given according to the convention plan, would pay for all the expenses of all the different denominational purposes and leave a good balance on hand.

He further explained that it was proposed to lay a new scheme concerning finances before the Maritime Convention this year.

By this scheme all the Boards for the different denominational objects would give into the hands of a committee, which itself would meet day before the convention, an estimate of its needs for the year.

This committee would then recommend to the convention a division of the funds in proportion to the edification of the churches.

Instead of the convention funds being divided in a field rates as at present it would be divided according to the needs of the year.

This scheme had its hearty approval of the delegates present.

A resolution was next introduced favouring a union of some form of the Canadian Baptists.

It was explained that this union would not do away with the convention as held at present nor with the work that these would be modified to some extent.

The work in India would be vastly improved by a Canadian union for then colleges, hospitals, and schools medical and industrial could be established on a basis at present impossible, then it would be possible to have a skilled man over each department work there and a missionary would not have to be the polyglot he is at present.

The resolution was unanimously adopted.

Rev. I. W. Porter gave a stirring address on Grand Ligon and spoke of the able sacrifice of the teachers in connection with the Feller Institute. He warmly commended the work done there to the Baptists of the island.

Rev. C. W. Corey then spoke most interestingly of the work in the North West and the need there.

The afternoon was given up to the W. M. A. Society, Miss Wadman of Charlottetown acting as chairman of the meeting, Mrs. W. B. Crowl led the devotional service, Mrs. Bomford Wood read an address of welcome to the visiting sisters and this was responded to by Mrs. Isabella Gidden, Summerside. Mrs. Arthur Simpson gave a warm welcome to the wives of the new pastors.

A resolution of condolence to Mrs. F. N. Atkinson because of the death of her mother was unanimously passed.

Then followed the reports of the various societies, and Miss Irene Clard gave a report of the Mission Bands.

It would appear from each of these reports that more women might be in their aid societies and that a few more mission bands could be organized.

Miss Ethel Brehaut then rendered a vocal solo in a most pleasing manner. Miss Blackadar in her address confirmed the favourable impression made by her talk of Sunday evening.

Her pictures of Hindu life were most vivid, and as she told in her own pleasant and sympathetic way the power of the gospel to change the awful conditions of "Telegu land" was emphasized.

"The work is decidedly worth while."

A pleasing feature and result of the meeting was the organization of a Mission Band at the church here. Committees for 1909-10 were then organized.

The evening was taken up with a Temperance platform meeting.

night crowds gathered about the streets, including a large number of women, whose actions are even more reprehensible than the men's.

At Number Two mine fully two thousand strikers and women gathered, all armed with stones, sticks and eggs.

They held up and assaulted all the men going to work.

General Manager Duggan with a squad of police charged upon the crowd, Duggan being struck in the face with a stone.

The Riot Act was read and after a short time a large body of police dispersed the gathering, arresting numbers of men and women.

The prisoners were hustled to jail, where during the remainder of the day an immense crowd waited, threatening to storm the jail and release their friends during the night.

At Number Three another riotous crowd assaulted all the non-strikers, the women playing a leading part in the disorders.

In the crush numbers of women and children were knocked down and trampled upon, while in the mixed fighting which ensued many heads were cracked.

A coal train from the pits was derailed by the strikers.

The majority of these men are physically powerful and are in an ugly mood.

Yesterday all the saloons were closed, but today the liquor was doing a flourishing business and the effect of whiskey on the already excited men everywhere apparent in the desperate tactics being adopted.

Manager Duggan has appealed to the civic and municipal governments for protection and a report states that the Royal Canadian Regiment will be rushed here from Halifax at a moment's notice if the rioting continues.

Public sympathy appears to be strongly with the company and against the leaders of the United Mine Workers, in introducing American influence into a Canadian industry.

Business men advise that the American organizers be tarred and feathered, and express the opinion that if the conditions were reversed, Canadian agitators in the United States would be lynched.

The leaders say a strike will be called at Inverness on Thursday morning, but no trouble is anticipated at Port Hood.

Today 1675 men out of a total of 2282 employees were working in the Dominion Company's mines.

DETROIT, July 8.—(Special)—A decision of far-reaching importance to the cause of temperance everywhere was handed down by the Michigan Supreme Court.

Mrs. Nettie Marrison brought suit against one Frederick, a saloon keeper, claiming \$1000 damages for his having sold liquor to her husband, thereby rendering the latter a drunkard and causing the plaintiff to lose home, money and the companionship of her husband.

It was shown that until Marrison took to drink he was a prosperous railway telegrapher and stood high with his employers.

The drink habit caused him to lose everything and finally his wife was obliged to leave him.

The case went before a jury which gave Mrs. Marrison a small verdict.

The woman appealed to the Supreme Court which gave a verdict against the saloon keeper for \$5,225.

GLACE BAY, July 8.—(Special)—The principal incident in the strike trouble today was the arrival of the troops, who detained here during the mid-afternoon.

They were received with mingled feelings. Popular opinion, especially among the strikers, is strongly against the employment of the militia and there is much comment on Major Duggan's action in demanding them.

The Town Council this morning on the Mayor's casting vote, forwarded to Ottawa a formal protest against the employment of troops, coupled with a declaration that as the militia are sent here contrary to the desires of the civic authorities, the town will not recognize their presence and will absolutely refuse to pay their expenses.

Compared with Wednesday, today's incidents were peaceable.

The majority of the mines have been closed in order to avoid further clashes, but several are still running and bringing up fairly large quantities of coal.

The intimidation was stopped, all the mines could be run on regular schedule.

ADDRESS AND PRESENTATION. NEWTON, July 7.—On Wednesday evening last Miss Minnie E. McKenna teacher, Newton, on the eve of her departure was presented with a beautiful dressing case, the gift of the pupils accompanied by the following address, signed in behalf of the pupils by Adelaide Mulligan, Clara Gallant, Mammie McCabe, Edith Molyver, Bertha Smith, Pearl McKinnon, Bertina McKenna, Wilfred Stewart, Mildred Farmer, St. Clair Murphy.

"It is with feelings of deep regret we learn of your departure from our midst. Since the time you took our education into your hands, you have by your kindness and impartial conduct, won our love and respect. We feel we cannot allow you, dear teacher, to leave without expressing in a few words our appreciation of your untiring zeal for the furtherance of our welfare. Your earnest and sincere efforts to teach us, we feel certain, will leave upon our young minds an impression that cannot easily be effaced. Your sterling integrity, uprighteousness of character, and indefatigable efforts in our behalf have won for you from both parents and pupils universal acknowledgements of favor. We ask you to please accept this small token of our esteem which will at least show that we appreciate your good qualities and valuable services. So now we must bid adieu and assure you the kindest wishes of those you leave go with you. Should we not be spared to meet again, may we meet in the blessed Home above.
