IN MEMORIAM

MRS. MALCOLM DOCKERTY.

There passed peacefully away at her home St. Peter's Road, Cardigan, on the morning of June sixteenth, Christina relict of the late Malcolm Dockerty in the seventy-fourth year of her age. Being of a quiet and loving disposition Mrs. Dockerty won the love and esteem of all with whom she came in contact.

The deceased was born in Orwell the daughter of the late Malcolm MacQueen and Margaret Martin and leaves to mourn three brothers, John A. living on the old homestead in Orwell, Daniel in Ontario, and Peter in Australia; also two sons and four daughters—Robert on the homestead, with whom she lived, and Oliver also of Cardigan; Mrs. Jonathan E. Birt, Pisiquid; Mrs. James MacRachern in British Columbia and the Misses Katherine and Jean of Boston, Mass; the latter having come home to nurse her mother during the last few weeks of her illness.

Her remains were laid away on Wednesday, June 18th, in Georgetown cemetery beside those of her husband who predeceased her over sixteen years ago. Services at the house and grave were conducted by her pastor Rev. Mr. Martin of Cardigan.

MR. D. L. MCKINNON.

(From Yesterday's Evening Guardian) The funeral of the late Mr. D. L. McKinnon, of Crapaud, took place Sunday at 3 p. m. The funeral was one of the largest held in Crapaud for some time, showing evidence of the esteem in which the deceased was held by all. A short service at the house was conducted by Rev. R. T. Dobie, rector of St. John's Church assisted by Rev. W. A. Thomson. The remains were taken into St. John's Church, where the rector conducted the impressive funeral service, after which True Brothers Lodge A. F. and A. M., of which the deceased was a member, took charge of the service at the grave. Rev. G. M. Young, assisted by Dr. Houston of Kensington leading the beautiful Masonic farewell to a departed brother. The deceased, who was in his 72 year, leaves to mourn a widow, one son Theo of Port Haddock, Washington, and two daughters, Mrs. Fred Fall of Crapaud and Miss Lizzie now teaching in Mayfield, P. E. I., to whom the sympathy of the entire community goes out in their sad bereavement. The following were the pallbearers Messrs W. Myers, H. A. McQuarrie, D. MacLean, K. C. Holm, Robt McVittie and W. C. Collett.

CONSTIPATION Can Be Cured.

You cannot expect to be well if you allow your bowels to become clogged. What is necessary is to have a free motion of them every day, and to keep them in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dyspepsia, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters; the remedy that has built up an unrivalled reputation, during the past thirty-six years, as a cure for all troubles arising from a constipated condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes:—"I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing like B.B.B. Since taking it I have not been troubled."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

THE TENNIS TOURNAMENT OF SPECIAL INTEREST

As mentioned in the Guardian a few days ago, it is proposed that Prince Edward Island should be represented this year in the maritime lawn tennis tournament which has been held annually but has hitherto been participated in only by representatives of Nova Scotia and New Brunswick. The custom has been for each of those provinces to hold an independent local tournament, and from the winners in this, were selected the players for the maritime tournament, which has taken place alternately in St. John and Halifax. There is no reason why Prince Edward Island should not have taken part in those tournaments, in fact there is every reason why this should have been the case, and therefore it is all the more gratifying now to find a move being made in that direction. The three maritime provinces are rivals already in more than one form of sport, and that rivalry has been for the good of the particular forms of sport concerned, so that there seems to be no doubt that tennis in this Island will be benefited and still more popularized than it is at present should the present arrangements for this province's participation in the maritime tournament be carried through to a successful termination. It is not surprising to find the proposal emanating from such a whole hearted supporter of sport as Mr. L. B. McMillan, of the Public Works Department. Mr. McMillan has put the matter before the Charlottetown tennis club and the Abegweit athletic Association and suggested that they should combine together in promoting an open tennis tournament for this province, and from the winners choose representatives for the Maritime tournament, which this year will take place at Halifax on the 18th August next. It is understood that the matter is to be brought before the executives of these organizations and receive their early attention. It would be a pity now that the proposal has taken definite shape, if P. E. Island should not be represented at the maritime tennis tournament this year. There is ample time for the arrangements to be carried through.

Granulation of the Eyelids

Is Cured by Dr. Chase's Ointment—Scores of Uses for the Great Soothing, Healing Ointment.

Most people know Dr. Chase's Ointment best as a cure for eczema and itching piles. Nor is this to be wondered at when you think of the remarkable record made in this class of cures.

But there are scores of other uses for this ointment, which are only discovered when it is kept constantly at hand.

Mrs. Martin, 13 Carroll street, Toronto, formerly of Bowmanville, Ont., writes:—"We have used Dr. Chase's Ointment for years, and found it invaluable in treating skin irritations and all sorts of burns and wounds. In fact, we would not be without it in the house. It is a most excellent treatment for granulated eyelids, from which I suffered without finding anything to help me."

Wherever there is itching of the skin or a sore that refuses to heal you can use Dr. Chase's Ointment with full assurance that it will prove entirely satisfactory. 60 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto.

Everybody is building Concrete Roads

CONCRETE roads have literally taken Canada by storm. From Halifax to Vancouver, road commissions, town and county engineers, town councils and good roads associations, have been quick to discover the remarkable advantages of the concrete pavement. Its use, either for country highways, or for city streets, is so clearly the best solution of the good roads problem, that there has been little of the delay which usually accompanies the introduction of a comparatively new method. Experiences such as the one which Mr. Hines reports are responsible for this rapid growth in popularity:—

An Authority's Statement

Extract from paper recently presented by Edward N. Hines, Chairman of the Board of County Road Commissioners, Wayne County, Mich., before the National Association of Cement Users, at Pittsburgh, Pa.

"It is a sad commentary on the conduct of an undertaking of any magnitude, that individuals, municipalities, states or nations, all seem to find it necessary to do a certain amount of experimenting and dilly-dallying before accepting the conclusions and avoiding the failures of previous demonstrations. This is particularly true of the various phases of the good roads movement.

"The initial cost of a good concrete road is little, if any, greater than that of a first-class bituminous road. One of the greatest fallacies indulged in by communities starting to improve their highways is that cheapness in cost of original construction of roads means economy and that the highway official who can build the greatest area of roads at the least outlay per square yard is working for the community's best interest.

"On one of the main highways out of Detroit, Grand River road, the first two miles is tar macadam. If someone had offered to build this road absolutely without one penny's cost to Wayne County, stipulating only that we should maintain it in a fairly average condition, at the end of eight years we would have been money ahead by re-laying the offer and building it of concrete under our present specifications. Of course, six years ago, when we built this road, we did not possess this knowledge, but our experience was one of the reasons for abandoning the construction of this type of road and turning to concrete. When it comes to the concrete road stands pre-eminent. With more than 60 miles of concrete road in Wayne County, some of it in its fourth year, we have spent less than \$300 on its surface for maintenance and this is what makes this type of road the cheapest of all roads."

Our Good Roads Lectures, illustrated with lantern slides showing photographs of roads of all kinds, and delivered by members of our own staff of road experts, will be given free of charge to town councils, road commissions, good roads associations, or any other organizations interested in better roads.
