On Thursday evening, Christmas night, the S.S. will give a Christmas concert in the church. Santa Claus has sent word that he will be on hand to do the honors.

## Fiery, Itching Skin Healed By Sulphur

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly says a noted skin specialist.

The mentho sulphur preparation is applied to the itching spots and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

**The HOOVER**

## Give Her A Hoover.

Do you know what your wife wants for Christmas? You need not guess about it, nor make embarrassing mistakes on "sizes" or "colors," nor spend your time and temper in futile "shopping."

A Hoover will mean real happiness to her. It will last for years. It will take drudgery out of her life. It will clean and refresh and prolong the life of rugs and other household things she treasures. Your wife knows about The Hoover—knows it is an electric sweeper, electric suction cleaner, and electric rug beater, all in one. Her smile will tell you just how much she appreciates your thoughtfulness when her eyes alight on a Hoover for her very own.

# The HOOVER

It **BEATS** . . . as it Sweeps . . . as it Cleans.

All you have to do to place this much-prized gift in your home on Christmas morning is to telephone us, drop us a line, or call. If you can, drop in, so that we may show you just how fine a present this is that we suggest.

## FAWCETT PIPELESS FURNACES

are considered to be equal if not better than any furnace on the market. They are made by a Maritime concern that has been a household name for the past 65 years. They embrace every good point that goes to make up a QUALITY FURNACE. Note some of the points: The large RADIATOR either toncan steel or all cast. The large heating capacity of this RADIATOR provides space for whatever heat is produced thereby getting it all through the register, (no need of extra attachments). The extra heavy asbestos which is used between the two casings in order to retain the heat. (instead of allowing it to go into your cellar) is used in all the FAWCETT FURNACES. Note the LARGE WATER PAN in the proper place in front of the fire pot where the water is heated sufficiently to give you the proper moisture. The prices on these furnaces are as low if not lower, (taking into consideration the heating capacity) than any of the other kind.

Why send your money out of the Maritimes? Be Patriotic, trade AT HOME.

Price and terms arranged to suit customers.
