DO YOU FEEL SEEDY?

IF YOU ARE NERVOUS, DEPRESSED, SLEERLESS AND SUFFER FROM SICK STOMACH, HEADACHE, CONSTIPATION AND INDIGESTION, YOU NEED A GOOD TONIC LIKE FERROZINE TO BUILD UP THE SYSTEM.

LAST SAILING OF THE SEASON. Steamer Halifax makes her last sailing from Charlottetown tomorrow Tuesday 25th inst.

Mr. B. Davies, brother of Sir Louis Davies recently government immigration agent at St. Paul, Minn., has changed his headquarters to Great Falls, Mont., from which point he will handle the work in five states—Montana, Wyoming, Idaho, Oregon and Washington. Since Jan. 1st, of this year Mr. Davies has personally sent 7,000 farmers from Minnesota into the Canadian West.

THE St. John Sun says:—Loaded down with orders; this the case with Ames' Holden Co., Ltd., of Montreal. To be loaded down with orders and keep a factory running as hard as men and machines can be made to work and still to have an accumulation of orders for early delivery, that will take some weeks more to run of, is a state of affairs that implies that the output of the Ames, Holden Co., Ltd., factory is of pretty high standard, and that is the condition of the Ames, Holden Co., makers of fine and staple footwear. Mr. Angus, manager at St. John, states they are making excellent progress, but orders have been so heavy lately that it required their best efforts to keep up with the demand for Ames, Holden union made stamped footwear.

PUTTING IT STRONG.

But Doesn't It Look Reasonable?

This may read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, nor is it such a difficult matter as at first appears.

The trouble with Dyspepsia is that they are continually dieting, starving themselves, or going to opposite extremes or else deluging the already overburdened stomach with "bitters" after dinner pills, etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained.

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its success and popularity leaves no doubt as to its merit.

The Tablets will digest the food anyway, regardless of condition of stomach.

The sufferer from Dyspepsia according to directions, is to eat an abundance of good wholesome food and use the tablets before and after each meal and the result will be that the food will be digested no matter how bad your Dyspepsia may be, because, as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,000 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be given, to some extent, a much needed rest. Your druggist will tell you that of all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.
