ACCIDENT AVERTED—What might have been a serious accident occurred during the early hours of Monday morning at the residence of Mr. Daniel Birt, Mr. Stewart. As his son was passing a window a load of shot hit the house, some of them striking the window. It appears that one of the sportsmen was taking a casual early shot, and in the excitement failed to observe that the house was within range. The shot was a warning to all who handle a gun within the village limits, as Mr. Birt will not tolerate a repetition of this offence.—1.

QUITE AN EXPERIENCE.—The Pictou Advocate says:—Mr. J. J. MacKinnon, Charlottetown, P. E. I., on Monday the other day which was very annoying but which did not lack some elements of humor. He had a car of gasoline due here and came over from Charlottetown to look after its transfer from car to casks for shipment across the strait in a schooner. He soon found the car and the number was O. K., so he gave his men orders to go ahead with the unloading. After they had taken out 60 casks one of them submitted a sample for test to the customer, who was Mr. MacKinnon. It turned out that a car containing kerosene bound for Halifax had the same number as the one having the gasoline for Mr. MacKinnon and the two cars had got mixed. One was Standard Oil Company's car and the other was from the independent company which is represented by Mr. MacKinnon. For a time Mr. MacKinnon had visions of his gasoline being used for kerosene and of explosions in hundreds of homes, but the mistake was discovered in time to prevent the selling of gasoline for kerosene.

LETTERS FROM THE FRONT.—The Guardian has received from the Head Office of the Canadian Bank of Commerce a neatly put up brochure containing letters from members of the Bank staff now at the front, "a partial record of the part played by officers of the Bank in the Great European War." The letters, some of them written in the trenches, some in hospitals, some from "Somewhere in France" or Flanders are all interesting, each telling in its own way of some phase of the war, and giving thrilling personal experiences. The pamphlet also gives a complete list to date, August 1, 1915, of members who have undertaken military duty and information regarding casualties. In the Honour Roll are the names of seventeen killed in action or died of wounds or illness, 28 wounded, four missing, three prisoners of war and four sick. The booklet will be found a valuable fund of information on some of the most thrilling episodes in the war.

Following was the programme: Opening hymn; prayer, by the pastor, Mr. T. W. Hodgson; hymn; chorus, by the choir; diet, Mrs. Dingwell Jenkins and Miss L. Ross; solo, Miss Lavinia Ross; chorus, choir; address, by the pastor, Mr. Hodgson; recitation, Miss Grace Jenkins; solo, Mrs. Gault Murray; Quartette, Messrs. Fred and Walter Richards, Mrs. A. D. Jenkins, Miss L. Ross; Solo, Mr. Hodgson; Diet, Mrs. W. J. McEachern and Miss Ross; chorus, choir; God Save the King. This concert was, the writer thinks, the best ever held in this church, and that is saying very much. The address by Mr. Hodgson, on missionary work, was the best we ever heard, an address which reflected great credit on the talented young speaker.

HARVEST COMMENCED.—Many of the farmers in and around Crapaud have commenced their harvests, indeed some have already some housed. During the past couple of weeks of excellent harvest weather the grain has ripened rapidly. Everywhere in this vicinity the crops are excellent.—V.

SPECIAL TRIP.—The S. S. Harland made a special trip to Victoria Monday to convey Lea & Clark's Holstein herd to Charlottetown from whence they were conveyed to Halifax to be shown at the Exhibition. She left Victoria at about 5 a. m. in order to make connections with the S. S. Northumberland. It is understood that one of the young heifers and that they had to proceed without her.—V.

GOOD WORD FOR THE GIRLS.—Apropos of Mr. Paton's remarks re the pupils of Prince Street School, a bagman from Western Ontario, who lately spent some time in this city, made the unqualified assertion that he had never come across a city that contained so many pretty girls as Charlottetown. They seemed to be everywhere. He had spent an evening at the band's performance in the Square and the "glorious garden of girls" he saw there left him speechless. He proceeded to draw rather distasteful comparisons between the girls of his native province and the girls of the Garden of the Gulf. The young ladies of Ontario did not retain the peach-like bloom of youth so long, which he said was probably owing to the more trying extremes of temperature which the Western province enjoys. The burning glow of the summer sun and the keen winds of the zero winter told on the complexion very soon, and the maidens of the West began to look old before their time.

FAREWELL RECEPTION.—On Monday evening, Sept. 6th a large number of the residents of Lot 16 gathered at the home of Mr. and Mrs. James McLaren, to do honor to Mr. E. L. Curry, student pastor of Belmont Baptist church, on the eve of his departure from the community. The

guests were members of the Belmont congregation including a goodly number of friends from neighboring churches. A very enjoyable evening was spent with music, songs, and games. Miss May Campbell presided at the organ gracefully and efficiently and did much to make the reception a success. Social cheer and good fellowship abounded. Late in the evening about eighty or more guests sat down to a repast calculated to tempt the most delicate appetite. When all had partaken the meeting was called to order and Mr. Alfred Simpson, appointed chairman, with a brief opening word the chairman called upon Rev. L. E. Ackland of Summerside to speak. With becoming feeling and seriousness the latter told of the exceedingly pleasant relationship existing between the young pastor and his people, a relationship about to be severed by the stern call of duty—the Empire's need of men. He spoke truthfully of Mr. Curry's unusual fitness and natural endowment for his chosen profession, and voiced the deepest wishes of all that he might be safely kept amid the dangers of war and urged to resume his high vocation. Then on behalf of those present the speaker presented Mr. Curry with the visible token of his congregation's affection, a large sum of money voluntarily contributed on the occasion. Mr. Curry came to Belmont only three months ago as summer supply, but in so short a time won the esteem of the whole community by his sterling worth of character and his unusual talent as a preacher for one so young—still in his teens. He left Tuesday morning for his home in Port Matilda, N. S., where, with his brothers, who also have volunteered for active service, he will join the defenders of the Empire. This is the second time the Belmont church has given up its pastor to the Empire's need. Last year Mr. Robert Horne left to join an ambulance corps, and is now an officer serving in France.

Don't Bequeath Your Debts
WHERE there is a mortgage or other encumbrance on the home, the farm, the shop or the factory, a Mutual life insurance policy should be secured for an amount sufficient to liquidate the debt.
Then, should death occur, the policy becomes payable and the proceeds cancel the debt. In other words, if you live, the debts will in time be cleared off; if you die the insurance money achieves the same purpose.
Thus by means of a Mutual policy the most desirable of all bequests can be made to your heirs—a home free of debt.
Additional insurance should be taken if possible to help in maintaining the home but sufficient to "lift the mortgage" is the very least that should be considered.

BEAVER FLOUR
Scientifically Blended from Ontario and Manitoba Wheat.
MIXING does NOT mean BLENDING. Anyone can take two kinds of flour and stir them together. But blending is only arrived at by careful, scientific, practical tests.
As you know, Ontario wheat flour is generally regarded as "a pastry flour". It has the necessary lightness; the delicious, homemade flavor. It makes the most delightful Bread, too—white and light and fine.
Western wheat flour makes a big loaf of bread—but it is gray, coarse, full of holes and not a bit inviting.
Now, in milling "Beaver" Flour, we add the proper proportion of Manitoba wheat to the choice Ontario wheat. It is due to this fine blending of the wheat that "Beaver" Flour has just the right strength to make a good sized loaf of Bread; and at the same time, have the sweet, tasty, "homey" flavor.
"Beaver" Flour is perfectly balanced; it has the strength and nutriment—it has whiteness, lightness and flavor and is the same in quality and strength at all times.
This is why "Beaver" Flour—the only scientifically balanced flour—is equally good for Bread, Rolls and Biscuits, Cakes, Pies and Pastry.
Your grocer has "Beaver" Flour or can easily get it for you. Ask for it by name—"Beaver" the true blended flour.
