## KING GEORGE SLIGHTLY INDISPOSED

### Inflammatory Attack of Rheumatism in His Right Hip Ob- liges Him To Forego Court Function.

(Canadian Press)  
LONDON, May 27.—For the first  
time in a twelve month the British  
people were scanning the press for  
reports of the illness of their Sov-  
ereign. Confined to his quarters in  
Buckingham Palace with a painful  
attack of inflammatory rheumatism  
centering in his right hip, King  
George was obliged to forego the  
third court of the season this even-  
ing, his place being occupied by the  
Prince of Wales. Otherwise accord-  
ing to official announcement, the  
King is maintaining his usual sched-  
ule. George V. is 64 years old.

## Bill Provides For Employees

(Canadian Press)  
OTTAWA, Ont., May 27.—The bill  
which grants a bounty of 49 1/2  
cents a ton on Canadian bituminous  
coal used in smelting in this  
country, provides that the firms re-  
ceiving that bounty must give their  
employees the eight hour day and  
fair wages according to the terms  
of the Treaty of Versailles. The bill  
was brought into the House this af-  
ternoon.

## The Weather, etc

FOR EVERY  
MAN WITH MONEY  
TO BURN THERE'S  
ANOTHER WHO  
FREEZES ON  
TO IT!

TORONTO, May 28.—Weather:  
Moderate to fresh wind, mostly  
cloudy, with a few scattered showers.  
High tide this morning at 10.7 and  
low tide at 11.52.  
Sun sets this evening at 7.37 and  
rises tomorrow morning at 4.17.  
Summerside tide eighteen minutes  
later than Charlottetown.  
New moon Wednesday, May 28, 11.3  
a. m.

## LEADERS IN INDIA'S DRIVE FOR FREEDOM

The photographs here show interesting personalities in India's drive for freedom. Pandit Motilal Nehru, president of the National Indian Congress. He takes an active part in the boycott movement against British goods, in India's passive campaign. (2) Most recent photo-graph of Maulana Mohammed Ali, leader of the Indian Mohammedans, who does not agree with ideas of resistance campaign, for gaining India's freedom from England, and (3) V. J. Patel, former president of the India, who now heads the boycott movement against British goods in the passive resistance campaign. This is the first photograph which Pa-tel ever allowed made in his home at New Delhi.—Copyright, 1930, Pacific and Atlantic Photos.

## Canadianism Emphasized At University Exercises

### Lady Astor Weary Of Beer Question

(Canadian Press)  
LONDON, May 27.—Lady Nancy  
Astor today engaged in a lively dis-  
cussion in the House of Commons  
of a motion to reduce the duty on  
beer. The members knowing that  
Lady Astor always takes part in any  
debate connected with liquor, gave  
her a rousing cheer as she entered  
the Chamber, and another round of  
derisive applause when, a little later,  
she said, "I'm tired of all this  
nonsense about beer, and I'm tired  
also of beer." She then told her audi-  
tors to watch and see what the rest  
of the Empire is doing in regard to  
drink, whereas a Conservative mem-  
ber interjected "bootlegging." This  
theme was developed later by Right  
Hon. Winston Churchill, who de-  
clared that what astonished him  
was that the noble lady should pro-  
ceed unabashed to reiterate her  
views on drink, "in view of the  
ghastly muddle made in her own  
country in the treatment of this  
problem." Lady Astor was born in  
the United States.

(Special to The Guardian)  
OTTAWA, May 27.—To show  
their appreciation of their leader,  
Hon. R. B. Bennett, Conservative  
members tomorrow will present  
him with a massive silver cup.  
The presentation will be made at  
a party caucus.

## 76th. Annual Commencement O St. Dunstan's Yesterday. En- couraging Report From Rec- tor And Spirited Addresses.

The great opportunities in Canada  
and the need of developing a true  
Canadian spirit were emphasized at  
the 76th annual Commencement Ex-  
ercises at St. Dunstan's University  
yesterday by His Honor G. Gavin  
Duffy, Judge of the County Court  
of Queens County, upon whom fell  
the responsibility of formally ad-  
dressing the thirteen young men  
comprising this year's graduating  
class. The exercises were largely at-  
tended, both the clergy and laity be-  
ing well represented. In the absence  
of Bishop O'Leary, Monsignor Rt.  
Rev. J. C. McLean, Vicar General,  
presided and presented the medals  
and special prizes.

The programme, enjoyably inter-  
spersed with vocal music, was in  
accord with the high standard of  
previous years.

Among those present were Premier  
Lea, Hon. J. D. Stewart, K. C., Con-  
servative leader, and Dr. W. J. Mc-  
Millan, M. L. A.

The high order of the work ac-  
complished during the year, and the  
satisfaction of the faculty in the  
conscientious and harmonious ef-  
forts of the student body generally,  
were expressed in an inspiring report  
of the Rector, Rev. Dr. James A.  
Murphy. In Dr. Murphy's absence  
from the Province the report was  
read by Rev. J. N. Poirier, Vice Rec-  
tor. The full text together with  
Judge Duffy's address and the excel-  
lent Alumni and Valedictory essays,  
appear elsewhere in today's Guard-  
ian.

The chairman, at the conclusion  
of the programme, stressed the great  
advantage to the Province of St.  
Dunstan's University, and the  
amount of work which it has ac-  
complished without very much re-  
sources. It is perhaps the only uni-  
versity in America that has no en-  
dowment fund. He spoke appre-  
ciatively of Judge Duffy's address,  
and strongly indorsed to the gradu-  
ates the advice to "stay in Canada."  
He cited similar advice given to the  
young men of Quebec by Premier  
Taschereau.

Other Speakers.

Premier Lea, called upon, con-  
gratulated the graduates on having  
received such splendid training, and  
the faculty upon having maintained  
such high standards of efficiency  
with the limited means at their dis-  
posal. He too stressed the value of

## SITUATION MUCH WORSE IN RANGOON

### Sixty Deaths Reported In Two Days of Dis- orders — Police Fire Into Mob.

(Canadian Press)  
RANGOON, India, May 27.—Sixty  
deaths were reported officially to-  
night in two days of disorders at-  
tending a dock strike in this Burman  
Capital. Many more are believed to  
have been killed in the rioting be-  
tween Burmese coolies and Hindus  
with whom the police have been  
battling unremittingly since yester-  
day morning.

The streets tonight were deserted  
except for police and the contending  
sides. The rioters are armed with  
iron bars, sticks and daggers. The  
situation has grown so bad that pol-  
ice have on several occasions been  
obliged to open fire into the mobs.  
The populace was thrown into ter-  
ror by the rioting and remained in-  
doors afraid to venture forth even  
for food.

## R-100 NOT TO LEAVE ENGLAND TILL JUNE 30

(Canadian Press)  
OTTAWA, Ont., May 27.—Britain's  
giant dirigible, R-100, will not leave  
for Canada before the end of June,  
according to cabled advice received  
by J. A. Wilson, Controller of Civil  
Aviation, from Great Britain this  
afternoon. The delay of one month  
in the departure of the R-100 is due  
to minor repairs for which material  
is not immediately available, and  
which will require to be manufac-  
tured specially for the airship.

## Advisory Board Paid High For Technical Experts

EMPLOYED FIVE EXPERTS IN  
CONNECTION WITH THE REVI-  
SION OF THE IRON AND STEEL  
DUTIES.

OTTAWA, May 27.—The advisory  
board on tariff and taxation em-  
ployed the services of five technical  
experts in connection with the re-  
vision of the iron and steel duties.  
These were D. H. McDougall, for-  
merly Vice President of the Domini-  
on Iron and Steel Company, G. D.  
McDougall, and J. D. Fraser, engi-  
neers and Professor G. T. Jackson and  
Professor W. A. MacKintosh, econ-  
omists.

Prof. Jackson's work began as early  
as June 15, 1927, and was completed  
in October of the same year. The  
others were employed variously from  
the other date.

D. H. McDougall received \$100 a  
day, while Mr. Fraser's remunera-  
tion was \$75 a day. G. D. McDougall's  
honorarium was \$50-daily. The two  
professors were paid at the rate of  
\$400 a month.

## Prosecution For The Crown Ends

### Many New Details Added to Facts Already Known At Prelimin- ary Hearing Yesterday Of Ches- ter Anti, Charged With Murder Of Boatswain.

In addition to the general outline  
of facts already made known thru  
the evidence given by a number of  
witnesses at the first session of the  
preliminary hearing Friday in the  
case of Chester Anti charged with  
the murder of Antonio Roderiques,  
more intricate details regarding the  
origin of the dispute between the two  
men, regarding the attempts of Anti  
and his alleged accessory, Fritz Posselt  
to secure a gun in Georgetown,  
and regarding the characters of the  
individuals directly involved in the  
case were brought to light yester-  
day at the continued hearing in  
Georgetown Court House before  
Magistrates Condon and Lavers.

According to evidence submitted  
for the defense by Leroy Hall, who  
accompanied Anti to the paint lock-  
er where the quarrel began, the  
boatswain entered the place where  
the two men were procuring the  
paint, and a quarrel resulted re-  
garding the authority of the officer.  
In the dispute which followed a  
Spanish sailor sided with his coun-  
tryman, but what followed when  
Anti and Roderiques were left alone  
is not known. After the fight on the  
wharf which followed, Anti accom-  
panied by Posselt, went up town and  
acquired Mr. William McLeod, in  
hope of securing a gun with which  
they stated they wished to shoot a  
mad German Police dog on board  
the steamer. Later the men went to  
Jenkins' store, and were again un-  
successful in their quest, but direct-  
ed to the home of Mrs. Allistair  
Stewart they procured a revolver  
with which, Anti later admitted to  
the chief officer, he shot Roderiques,  
throwing the weapon overboard.

On his return for his gloves, he  
told the chief officer that the boat-  
swain attacked him with a marlin  
spike and the accused had shot him.  
Mr. Thane Campbell, Attorney  
General, conducted the prosecution,  
and Messrs. David Mathieson and  
Reginald Bell the defense. Mr. W.  
E. Bentley was present in the inter-  
ests of the captain and the steam-  
ship company.

## Freight Car Passes Over His Body, Lives Over an Hour

(Special to The Guardian)  
SASKATOON, Sask., May 27.—Wil-  
liam Amundson, of Rose Valley, near  
Wadena died yesterday after falling  
off the tender of Canadian Pacific  
train No. 978 near Colonsay. Four  
wheels of a loaded freight car passed  
over his body. Although Amundson's  
body, according to the C.P.R. agent  
at Colonsay, who was an eye witness,  
was completely severed, he lived for  
an hour and a half after the accident  
and was able to tell the agent that  
they had a German police dog he had  
struck his knee and had fallen  
aboard which had been fed too much

## Supplementary Estimates Totalling \$11,632,461 Tabled In Parliament

OTTAWA, May 27.—Supplementary  
estimates tabled in the House of  
Commons just before adjournment  
tonight, for the fiscal year 1930-31,  
totalled \$11,632,461.43. The appro-  
priations provide for \$680,000 for the  
Department of National Revenue,  
made up of \$677,000 for salaries and  
contingent expenses at the several  
ports of the Dominion, for payment

## Science Discovers Key To Unlock Oil Treasure In Vast Tar Sand Field

### Gasoline in Almost Unlimited Quantities Can be Commercially Produced in Alberta, Research Council Told. New Process Found By Alberta Professors.

Calgary, May 27.—Gasoline in al-  
most unlimited quantities can be  
commercially produced from tar  
sands in Northern Alberta. An-  
nouncement of this discovery was  
made today by Dr. E. H. Boomer of  
the University of Alberta, addressing  
the National Research Council.

which yields light oils suitable for  
the production of gasoline goes to  
Dr. Boomer and Dr. A. K. Clark,  
also of the University of Alberta. A  
semi-commercial plant is now in  
operation in the field and results  
show that Western Canada, at least,  
will shortly be independent in the  
production of motor fuel.
