What Will You Say

when you see the immense range of spring shirts I am showing?

The only truthful exclamation that you would make, would be, that it is by far the largest and most complete range ever shown in P. E.

Some people imagine they have to send to Montreal or Toronto for their shirt supply.

Spend your money home this season.

You can get a choice from just as good a range and the prices will be a little lower.

First day you have five minutes to spare drop in and I can surprise you.

Japan Wants War With The U. S. A.

Sensational Statement Made By Vice Admiral Matsumoto at a Banquet in Tokio - American Writes Home and Makes Startling Statement.

NEW YORK, June 4.—An American resident for many years in Japan writes to a friend:

"Yesterday at a banquet in Tokio Vice-Admiral Matsumoto stated that Japan would not reach the highest rung of the ladder until she had a war with England or America. He preferred America, and at once, as Japan was ready and America admits she is going to prepare. He thought that the wealth of America would be a great advantage, but in a quick war Japan would soon compel America to seek terms of peace. If, on the other hand, Japan lost, she would still rank higher than at present, as she had fought the largest and richest and richest nation in the world. But the United States could not whip Japan except in a long war, and the world admits Japan's supremacy on account of her inferior resources and lack of funds."

PHYSIQUE LOW ON VEGETABLE DIET.

BERLIN, June 4.—Some curious statistics comes from southern Baden. During the recent enrollment of recruits in the Lindau and Allgau districts, out of 601 young men liable for service, only twenty were found who were up to the physical standard required by the military authorities, 217 were placed on the doubtful list, and the unusual number of 367 were put aside as wholly unfit for active service.

It seems that the peasantry in those districts were at one time among the most robust in the empire, but owing to the first place to the dearth of meat and to the fact that milk, which was one of their staple articles of food, is now carefully collected for the cheese factories, their physique has sunk to a dangerous low level. Their principal food for years has been potatoes and skimmed milk.

Information About

Steel Shanks

and 30 p. c. Duty

When buying boots, ladies should know that it is not necessary to buy American Boots and pay a dollar a pair duty in order to get steel shanks. We have made thousands of pairs of boots in our own factory with steel shanks; other Canadian shoe manufacturers have used steel shanks for many years.

There are some objections to steel shanks. The right arch for the instep, the right fit, and the right support to the foot is to be found in the Canadian made "Art Shoe" without having to pay a dollar a pair duty.
