A FIGHT FOR LIFE.

TOI-STOI ON MATRIMONY.

LONDON, May 23.—Count Leo Tolstoy was not a friend of matrimony, according to Prof. Lazurski, who was a tutor of his children, and he so declares in his memoirs in a book soon to be published.

Prof. Pazurski, in order to emphasize his point, gives this talk with Tolstoy on marriage: "A man goes his way alone, if he places a load of 50 pounds on his shoulders he can still be happy because he is alone; but if he chains a woman to his leg and drags her along she hinders him at every step."

Prof. Lazurski, who is married, did not see the point of the argument, and replied: "I did not know all this before, but every human being must strive for protection. For myself, I cannot complain about marriage, I also know of other happy marriages."

Despite this, Tolstoy said: "Marriage is not a feast or a festive holiday. Two beings unite to be in each other's way. If a man wants to marry let him do so; perhaps he may find it a means to make his life happy. Before doing so, however, he should consider that he is about to take a step downward and that he must do everything in his power to make marriage happy, if that, after all be possible."

DUPLICATE SIAMESE TWINS

HOLYOKE, May 24.—Twin babies, joined together in the matter of the famous Siamese twins, were born early today in the City Hospital to John and Mrs. Griggs of this city.

The doctors said with the exception of the joining of the babies the children were perfect. Specialists are to be called to see if it is possible by operation to separate the babies. The impression of the doctors was that such an operation would be like to prove fatal to one if not both of the little ones. The ligament that connects the children extends from the lower part of their backs.

All Should Use Parisian Sage

Prevents Baldness—Dandruff—Stops Falling Hair and Itching Scalp

PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home. The man who uses PARISIAN SAGE if only occasionally will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, devour its nourishment and cause the root to die and the hair to fall and thin out.

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair root just the same nourishment that nature gives it.

PARISIAN SAGE first kills the germs; then nourishes the weakened hair root and causes a growth of healthy hair.

This same nourishment (PARISIAN SAGE) causes the hair to grow vigorously which means that the hair becomes full of life and lustre, and grows radiant and beautiful. Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germs, thrives and multiplies.

TRY PARISIAN SAGE for all hair trouble; it means death to the germs and life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

Get a 50 cent bottle today, and if you are not satisfied, your money back as good as claimed. Your money back without any scribbling. Sold by Geo. B. Hughes and drugists everywhere. Girl with Auburn hair or every carton and bottle.

WELCOME SWEET SPRING.

Sweet Spring, thou messenger of life, We hail thee with delight. Thy magic wand has loosed the streams Held bound by Winter's might, Thou carpetest the landscapes o'er In hues of purest green, For all thou art to our fair land We welcome thee, sweet Spring.

The May flowers, given so freely, From out thy boundless store, When last, thou didst pay thy visit, Are with us, once more. As winter came along, Thou hearest back in thy bosom, To chant thy glad Spring Song.

Made restless by life's varied forms, To which thou gavest birth, The kings of toil, again, go forth To till the waiting earth, They scatter seeds with willing hand, With faith in nature's king; That he—whose messenger thou art—A harvest, sure, will bring.

Not only, does thy gentle breath Bure nature's face renew, And send the husband man a-field, His calling to pursue; Bit to our hearts—beset with care—Thou dost fresh courage bring, And welcome do we join the host, That welcome thee, Sweet Spring, Henry S. Erb, Hazelbrook Parsonage, P. E. I.

TWO BEAUTIFUL PARKS.

NEW YORK, May 24.—Prospect Park in Brooklyn, is more beautiful than Central Park, and all the parks are in fine condition, Mayor Gaynor said yesterday in telling of a trip he made through parks on Sunday.

"I went through the parks to see what the people were doing on Sunday," the Mayor said, "I do think people ought to go to church in the forenoon if they wish to go out and take recreation in the afternoon. I do not understand it is any more sinful to play tennis in the parks than to row a boat in the parks. I have no quarrel with those who wish to take recreation on Sunday."

The Mayor said many persons seem to think that Central Park is intended primarily as a place for driving and that he always tells of those who complained of too free use of the park by the public that the parks are designed to amuse all and not the few.

ACTRESS REFUSES ASTOR.

CHICAGO, May 24.—If William Vincent Astor, son of the late John Jacob Astor, marries Miss Ina Claire, "the Quaker Girl," it will be many years hence. The little actress, sat in the Elizabethan Room of the Congress Hotel and explained why she is not to be an \$80,000 bride.

Before the death of his father Vincent Astor was the almost constant companion of Miss Claire during the past winter, and the thing that puzzled New York society was that the head of the house of Astor made no decided objection to his son's being up to his ears in love with an actress. They are declared to be only friends.

MORSE BACK TO NEW YORK. NEW YORK, May 23.—Charles W. Morse, the former banker and ice king, who was wheeled aboard the Hamburg-American liner Kaiserin Augusta Victoria three months ago for a seeming physical wreck, with a few more months of life before him stepped off the White Star liner Olympic, yesterday from Southampton, unassisted and bronzed and apparently in good health. With Morse came his wife, Mr. Morse's three sons met him at the pier and there was a happy reunion.

Morse met the reporters after lunch in one of the forward reception rooms and allowed himself to be interviewed and photographed.

"I'm very much improved in health," he smiled. "I haven't been paying any attention to business, but have been attending to my health entirely. We travelled in Italy and Germany and I spent a month with good results in Wiesbaden."

"My doctors tell me," Morse said, "that if I am careful and take care of myself I shall be able to live a long time yet."

"When I left for Europe I couldn't walk across the room unassisted, but now I can get around without the use of even a cane. On the voyage back I walked about a great deal on deck."

Morse was asked concerning the rumor that he will form a new Hudson River navigation line.

"That's news to me," he said, smiling. "I haven't made any plans for the future." He denied that he intended to start a
