Railroads of America

Trains of the new era will cross the continent in fifty hours. They are being designed by aviation engineers to compete with the air lines. They will be operated at about half the cost of today's crack trains. Excursions from New York to Los Angeles will be available at a base fare of thirty or thirty-five dollars. The railroads will pay dividends once more.

These facts, revealed by railroad authorities, are recorded by Henry F. Pringle in the October Cosmopolitan.

"Tomorrow's train, soundly conservative estimates show, can carry a passenger for about one cent a mile under capacity traffic," Mr. Pringle writes. "The railroads are far from extinct; indeed, a new day dawns. It comes with the elimination of excess weight. . . .

"The trains for the Burlington and the Union Pacific are very similar. Their top speed will be a hundred and ten miles per hour. They can easily average eighty-five miles. Each will be limited to eighty tons. Contrast this with a minimum of one thousand tons for the average old-style train and you have some comprehension of the economies which will result . . .

"The two trains, one of aluminum and the other of stainless steel, will be beautiful sights as they flash past the countryside. The margin of profit in the operation of such trains will be large. It is for this reason that railroad officials look forward to the day when tomorrow's train crosses the continent in forty or fifty hours. The Burlington train will cost only fifty-five cents a mile to run. This is an almost unbelievable figure; so extraordinary that the data behind it have been checked and rechecked. See what is means; the government allows twenty-eight cents a mile for carying the mails. The Burlington will therefore be required to spend only twenty-seven cents a mile for this new and speedy train.

"Today's basic passenger rate is 3.6 cents per mile. Suppose, for the sake of simple calculations, that it were three cents. This means that only nine passengers would have to be carried for the train to break even! The rate could be slashed to two cents and operating costs met, with only thirteen passengers. The capacity of the train is seventy-six passengers.

"A ten-car conventional train needs 3,400 horse power. The Union Pacific's train will be equipped with Winton distillate engines instead of Diesels, and the fuel to be burned will cost only four cents per gallon. One gallon will pull the train one and one-quarter miles!"

The railroads are profiting from the data and knowledge accumulated by the aircraft industry, Mr. Pringle points out:

"Aviation engineers, not old-line railroad men, have designed the new trains which will soon speed across the continent."

To celebrate the 150th anniversary of the first balloon ascension, a new balloon is to be named the "M. Montgolfier" and will make an ascent in Paris.

PRODUCE

(Canadian Press)

MONTREAL, Sept 24—All lines with the exception of new Quebec potatoes advanced on the Montreal dairy and produce market last week. The sharp rise in egg prices has enabled dealers to bring out storage stocks, selling them two to four cents a dozen under fresh egg levels. Graded shipments in carlots or less of real fresh eggs advanced seven cents a dozen on top grades during the week. At the close of the week Ontario eggs were selling at 29 to 30 cents a dozen for extras, 24 to 25 cents for firsts and 15½ to 16 cents for seconds. Receipts totalled 4,711 cases as against a total of 7,288 cases the previous week, showing the sharp decrease in production as the season advances. A total of 3,050 cases of eggs was shipped overseas.

The butter market ended the week at 20 to 20¼ cents a pound for no 1 grade in carlots or less, a net advance for the week of 1¼ cents. Arrivals were 32,660 boxes, more than 8,000 more than the preceding week. Exports of butter last week from Montreal to the United Kingdom totalled 16,340 boxes, heaviest shipments of the year to date.

Ontario and Quebec cheese recorded a gain for the week of ¾ of a cent a pound, ending the week at 11½ to 11¾ cents a pound for Ontario white and colored and at ¼ of a cent less for Quebecs. Receipts were 30,097 boxes as against 32,401 boxes the previous week. Cheese exports were 28,774 boxes.

New Quebec potatoes remained at 70 to 80 cents per 80 pound bag.

New York—Stocks continue slow rally.

Winnipeg—Wheat closed higher.

New York—Cotton and rubber higher; coffee and sugar markets closed.

New York—Canadian dollar down 1-16 at 97⅞.

FALL LITTER FEED

The fall sucking pig which has been fed at five weeks of age on a supplementary ration of equal parts of middlings and finely ground oats from which most of the hulls have been sifted, is in good shape for the weaning ration which should be fed sparingly three or four times daily, the meal being preferably soaked and fed as a warm slop with milk. Middlings 300 pounds, oats 200, shorts 100, barley or corn 100, bran 50, is an excellent ration up to four months of age. Where middlings cannot be secured, the following mixture is good: Oats 300, shorts 200, bran 50, corn or barley 100. Bran is a very necessary addition to the ration of the winter fed pig.—Dominion Animal Husbandman.

RELIGIOUS SERVICES

THE SALVATION ARMY

Jesus, we look to Thee,
Thy promised presence claim,
Thou in the midst of us shalt be
Assembled in Thy name.

God's presence and power was felt in every meeting yesterday but especially was this true in the meeting for juniors when 14 came to the mercy seat and gave their hearts and lives to Christ.

At the Holiness meeting one soul sought forgiveness and many were almost persuaded.

We seem on the border of a revival that promises to bring many to a Saviour who is waiting to receive them.

THE BAPTIST CHURCH

In view of yesterday being Rally Day in the Sunday School, the Rev. A. C. Vincent, D.D., at the morning service preached a sermon suitable to the occasion. Dr. Vincent's theme was "Zealous of good works," the thought being based on the Epistle of Titus, 2:14. An eloquent appeal for a vital Christian life, manifested in sustained warm hearted zeal for the Kingdom of God.

The anthems of the morning were "God so loved the world" and "Seek ye the Lord."

To the large congregation at the evening service Dr. Vincent again spoke, preaching the second of a series of sermons on "Men whom Christ made," the subject for this service being James, the humble man.

Mrs. G. Elliott Full, the organist, gave, from 6.45 to 7 p.m., a short recital using Cathedral Prelude (Plag), Cantilene (Shelly), Cloister Scene (Mason). Mrs. Vincent sang "Only Waiting."

Rally Day in the Sunday School had a very encouraging attendance, considerably larger than the same occasion last year. A programme of notable merit was carried out to the interest of all present.

CENTRAL CHRISTIAN CHURCH

The services at the Central Christian Church were well attended yesterday. At the morning service the male quartette sang "Break Thou The Bread Of Life." The sermon for the morning was based on a portion of the 1st Chapter of 1st Corinthians, in which the Apostle Paul condemns the divisions that had arisen in the Corinthian Church due to a misunderstanding of the purpose of baptism. The pastor, in his discourse, referred to this as being the root cause of sectarianism and its consequent evils. The fact that the Apostle declared that he was sent, not to baptize, but to preach the Gospel of the Cross led the speaker to remark that the Cross is the central fact of the Gospel and the unifying element of the Church of Christ. Reference was made to the fact that those who were truly christians in the church at Corinth allowed no non-essential to come between them and the true worship of their Lord.

Promotion day was observed in the Sunday School and committees were appointed to take care of the various activities of the week leading up to Rally Day, October 1st.

The evening subject, "Decision of character," was approached from the following angles: A decided course is a safe course; A useful course and the course of true happiness. This subject was based upon James 1-8, "A double minded man is unstable in all his ways." In the course of his remarks, the speaker stated that hypocrisy and moral instability had no place in character building. Decision coupled with action is the corner stone of Godly character. Mr. James Calder sang with fine effect: "The Publican."

TRINITY UNITED CHURCH

Sunday School got away to a good start with an attendance of 360 at the Rally Day service yesterday. The programme, which was prepared by the Board of Christian Education of the United Church of Canada, was a good one and took up the full hour allotted for the school session. The theme was "Serving Jesus Today," which was emphasized by song, recitations, addresses and prayer. Dr. Ramsay, in his talk related the story of the service rendered in 1927 by the C. G. I. T. in contributing $1,000 for the Dr. Florence Murray Nurses' Home in Korea. By heroic work they collected and paid over $600 and then borrowed the balance of $400 from a friend of the School all of which has since been paid off and Dr. Ramsay produced the paid note which he burned in the presence of the school and as he lighted the match he expressed the hope that the action of the C. G. I. T. would bring to Korea the Light of the World and as the flames consumed the paid note we were reminded that our hearts should ever be aflame for the spread of "His Word."

At the announcement period the congregation were asked to send in all "Cent-a-meal" boxes so that it may be ascertained to what extent same are being used. The boxes will then be returned. Presbytery will meet here on Tuesday to consider the special needs in this jurisdiction and in what ways our Church can best co-operate to improve conditions. The Young People's executive are to meet Thursday to talk over plans for the Autumn work. The students of our Church in the different colleges will be entertained on Friday evening in the Social Hall.

The regular services were held. Rev. Mr. Brown preaching in the morning and Dr. Ramsay at night. There were good congregations and the morning service as broadcast. The choir apparently decided it was a good time to rally for we had 35 members present who gave pleasing anthems with solo parts at each service and in addition Mrs. L. H. D. Howatt was heard with pleasing effect in her solo at the evening service

Rev. W. E. Aitken of St. Peter's Bay assisted at the services in the evening and also at the Sunday School.

Maritime Money

Twelve millions and more of Maritime money is drained away every year in life insurance premiums by outside companies . . . a million every month . . . to be invested in other parts of the world.

Victoria

The State's Business

The general experience of manufacturers and traders in Victoria during May is described by the National Bank of Australasia as satisfactory, and in some sections marked increases are stated to have been recorded. Retail trade turnovers were well above those for May last year, and the outlook for the winter was regarded as much better than in 1932. Most sections of the textile trade continued to be fully employed, but hand-to-mouth buying has a detrimental effect, and order books were not nearly as well filled as they were a few months ago. Still, large turnovers were made, particularly in winter underclothing and in knitting wools. The increase in building trade activity, previously noted, was reflected in a strong demand for builders' hardware and certain sections of furnishings. Country distributing trade improved since the recent rains, but is still mainly restricted to actual necessities. Hardware merchants reported larger sales of fencing wire, wire netting, ploughshares and discs, bringing the turnovers for the month above last year's level. Collections in country districts were better than had been expected in view of the unfavorable seasonal conditions and the marked decline in butter production and prices. The improvement noted was largely an outcome of growing confidence felt by business men and investors in the general conditions of local affairs. Business for the month of June was generally better than it was for June, 1932

What Australia Calls Slums

When the late Lord Northcliffe was in Australia he was driven to the poorest quarters in the cities. After inspection he declared that Australia was a country free from slums. In the industrial suburbs of Melbourne, however, there are a few narrow streets bordered with small wooden cottages, some of which are badly out of repair and are not fitted with bathrooms. A municipal movement is afoot with the approval of the State Government to resume these small places and build modern well-equipped dwellings on terms that will permit of low rentals.

Preparations for the Centenary

St. Kilda Road and Alexandra Avenue (along the River Yarra) are two of Australia's best examples of street making and beautification. Broad tracks for trams, for motors, and for horsemen run through bowers of foliage, in which are set at intervals statues of national heroes and gushing fountains. In view of the Centenary—the celebration of which will begin in October, 1934—vast extensions are being made. About 70 acres of the Government House Domain, in which rises the gleaming white soldiers' memorial, the Shrine of Remembrance, is to be converted into a scene of landscape beauty and the Yarra boulevards are to be extended for miles.

Sir Macpherson Robertson, a manufacturer of confectionery, has made a gift of £100,000 to be spent on a "Temple of Youth," a girls' high school and in various other ways.

The Government has bought a cottage in Yorkshire which was occupied by the family of Captain Cook, who planted the British flag in Australia in 1770. The building will be removed and re-erected in Melbourne.

Women's Work and Empire Knitting Competition

Fifty organisations of women, urban and rural are making busy preparations for the Centenary Celebrations beginning in October next year. They are raising £50,000 by a shilling drive and hope to gain much more by selling little books and certificates giving biographies of women pioneers and graphic scenes from their lives. A bronze statue will probably be erected bearing memorial panels to women pioneers. Country nursing colleges, a cancer hospital ward, extensions of children's welfare work, a college of social science, civic beautification schemes — proposals like these make up an extensive programme. One of the features will be an Empire Knitting Competition with Australian wool, for which there will be rich prizes open to every woman under the British flag. Full information can be obtained from Brigadier-General Jess, Melbourne, Victoria.

"GOOD COLOUR" FOR FRUITS

"Good Colour" for fruits other than apples, as laid down by the Fruit Act, means colour, characteristic of the variety when mature. For apples "good colour" means, as defined by Circular 40 of the Fruit Branch, Dominion Department of Agriculture. In this circular, percentages of colour are laid down for each grade of each variety of apple. For instance, McIntosh No. 1, 65 per cent; Winesap, "Domestic," 25 per cent: Gravenstein (red) 40 per cent; and so on. These percentages of colour refer to the area of the surface which must be covered with a clear shade of red characteristic of the variety. That is, 25 per cent means that one-quarter of the surface of each apple is covered with normal mature colour.

CAT AND BIRD ARE GOOD COMPANIONS

MOUNT VERNON, N. Y., Sept. 24—"Kippie" and "Puffy" are the best of friends. They play together drink together and seemingly ignore roles decreed by nature. "Kippie's" a robin, "Puffy" a cat.

Minard's Liniment removes stains.
