MILLIONS OF DEER!

A Hundred Thousand Seen in a Single Herd.

J. B. Tyrrell, Dominion Government Explorer Tells a Marvellous Tale of the "Barren Lands" of Canada.

MONTREAL, Feb 3.—Mr. James B. Tyrrell, of the Geological Survey, Ottawa, is a guest at Professor Adams, on Guy Street. He has just returned from a tour which no man ever made before, through the barren lands of the Canadian North West to Hudson Bay. In an interview last evening he said: "It was in May last that we started on the expedition of which I was in charge. You see the Government wanted information concerning that vast tract of country which had hitherto been unexplored. The party consisted of my brother, J. W. Tyrrell, O. E. of Hamilton, who acted as topographer and E. Quimann, interpreter and who had been our port on the way under Lieutenant Gordon some years ago, three In-quoit Indians from Coughnawaga and three half breeds from the Saskatchewan country. We left Ottawa in May with two bark canoes and went as far as Edmonton by rail. There we hired teams and drove a hundred miles north to the Athabasca river, where we put our canoes into the water and paddled down to Lake Athabasca by a well known route. In the valley of the Chesterfield inlet we saw numerous herds of reindeer; there must have been hundreds of thousands of these animals."

And in proof of his statement Mr. Tyrrell showed a score of photographs that he had taken of the herds, some quietly grazing and others of the stampede. "These deer furnished us with all the fresh meat we could use. They were very tame and we could go right in amongst the herds, but when they were in small groups they were exceedingly timid. In the spring they go up to the Arctic coast and when their young are old enough to travel, they begin their return to the woods of the south. In a season they travel about a thousand miles each way and winter in the grass which grows sparsely in what are known as the barren lands. You will hardly believe me when I tell you an occasion I saw

A VERITABLE SEA OF REINDEERS. I should estimate there were several hundred thousand in that herd. It was one of the greatest sights I ever witnessed. I had an unobstructed view for three miles, and the whole track was covered with reindeers. When seen singly we had to shoot them at from two to three hundred yards. In herds we could get up to within one hundred yards. The ground is always frozen in this country, except a few inches on the surface in summer. The grass thaws out during this season and the deer live on it. In winter they subsist on moss. Reindeer steak is as fine an article of diet as is going.

There is absolutely no wood in these Barren Grounds. It looks like ordinary prairie land with boulders protruding here and there, but it appears to be mostly rock underneath. I is good for nothing except for the minerals contained in the rocks. There are evidences of the richer minerals in different parts of the country.

The total distance covered by the party, from Athabasca Landing to Churchill, with canoes were 2200 miles, and from Churchill to Winnipeg on foot and by dog team, about 1000 miles. Of the 2200 miles 850 was through an entirely new country never before traveled by white men.

Mr. Tyrrell has made eleven different exploratory expeditions, but this over the great Barren Grounds was by far the most advantageous of all.

For five days the party had hardly a bite to eat and for two days absolutely nothing. Between hunger and cold they were much reduced in weight when they finally reached Churchill, the objective point of the exploration. The explorers traveled chiefly by boats and dog-sleds.

K D C gives the dyspeptic health and Produces Flesh.

DR. WOOD'S Norway Pine Syrup.
Rich in the lung-healing virtues of the Pine combined with the soothing and expectorant properties of other pectoral herbs and barks. A PERFECT CURE FOR COUGHS AND BRONCHITIS. PRICE 50c AND 100c PER BOTTLE. Sold in Charlottetown—Geo H. Hughes and Reddin Bros.

CHURCH NEWS.

A new Baptist church is to be erected at Amherst, at the cost of \$25,000. Plans have been submitted by two architects, H. H. Mott, of St. John, and J. C. Dumaresq. A committee have the plans under consideration.

CALL TO BROOKLYN.—Rev Sydney Walton, late of St. John, N. B., has called to the Centennial Baptist church, Brooklyn, N. Y.—[Kentville, N. S., Advertiser.]

The City Council of Hamilton, Ont., has followed the lead of the Baptist church of that province in denouncing church exemptions. All property in Ontario and Quebec is taxed for municipal and school purposes except that devoted to religious or governmental uses. The consequence is the perpetration of gross injustices to the weaker and less wealthy denominations. The system has also encouraged the investment of large sums of money in property presumably devoted to religion but in reality paying big dividends to private speculators. Against this evil the Baptists of Ontario have taken a d-fuit practical stand. They have refused to allow their churches to be exempted, and have therefore appealed with great force to the Legislature to tax all ecclesiastical property on an equitable scale.

EPISCOPAL.—The Rev. Charles J. James, B. A., of St. James' church, St. John, N. B., has been offered the position of assistant minister of St. George's church, Montreal.

We regret to learn that the Bishop of Algoma is lying seriously ill at the parsonage at Huntville.

St. Thomas' church, St. Catherine's, under its rector, Rural Dean Armitage has made wonderful progress since 1886. The gain amidst a stationary population has been 134 families and in addition to the members of these families, 186 persons. The number of communicants has more than doubled and the Sunday School has more than doubled its numbers.

Africa.—A telegram from Togos conveys the sad news of the recent death of both the Bishop and Mrs Hill in the dark continent. Consecrated Bishop of Western Equatorial Africa only last June, he left England 22nd November and arrived at T-gos on the 12th December. He is now at rest.

Manchester, England.—During the eight years of Bishop Moorhouse's episcopate, 46 new churches have been built in the Manchester diocese at an expense of over a million dollars. Exclusive of a confirmation in the cathedral in December, the persons confirmed in the diocese were, during the past year, 18188, viz: 6904 males and 11284 females.

The magnificent new church of St. Matthew's, Northampton, was consecrated by the Bishop of Peterborough in St. Andrew's last. The total cost is about £20,000. This church has been built at the expense of Mr. F. P. Phipps as a memorial to his late father, who for many years represented the Borough of Northampton in the House of Commons.

Through a benefaction under the will of the Rev. James Spittal of £50,000, the total receipts of the church missionary society have reached the largest amount ever realized, viz, \$1,376,317.

A good story is told of a Presbyterian brother. Some time ago remarking with that provoking class of persons who go in and out of churches at their sweet will, he said: "There are three ways of getting out of the Presbyterian church. You can't resign. To get out of the Presbyterian church you must behave badly, and so be cast out, or you must take a letter of dismission to some other evangelical body, or you must die and go to heaven."

The London Presbyterian says: A movement has been set on foot for the purpose of forming a Presbytery of Cape Town, South Africa, to include the Presbyterian churches that already exist and such as may from time to time be formed. It has been suggested that the same standard and forms should be adopted as those in use in the churches of Natal and the Transvaal—namely, those of the English Presbyterian church. This movement is only as yet in its initial stage, but it marks an interesting point in the development of Presbyterianism in South Africa.

At a recent session of the Executive Committee of Foreign Missions, Southern Presbyterian church, held in Nashville, Tenn., the Rev. Dr. Chester, recently pastor of the Second Presbyterian church, Nashville, Tenn., was elected Secretary of Foreign Missions to succeed the Rev. M. H. Houston, D. D., who resigns to engage in active missionary work in China. Ex-Secretary of State John W. Foster of the United States Government, is making a tour of the world. He is an elder in the New York Avenue Presbyterian church, Washington, D. C., and is in fullest sympathy with missions. He goes from Paris to Constantinople, thence to Syria, Egypt, India, China and Japan. Mr. and Mrs. Foster are expected to visit the mission stations along the way.

TORN BY MACHINERY

James McKie of Ch'town Wounded On the "Curlew."

Disruption in English Channel—An issue over the "Curlew" while offing some machinery here to day fell and before he could be extricated was badly cut about about the neck, head and feet by the machinery. He was unconscious for some time but will have a chance of recovery. He is a son of Conductor McKie of this city, King street. He joined the cruiser in October last and is 24 years of age. He is well known in Charlottetown where his parents and family reside. He served his apprenticeship as a machinist with Messrs. Mackinnon & Macdonald and was afterwards engaged with the firm of A. White & Son. He then joined the crew of the "Curlew" and after a short service on that ship he joined the "Curlew" on which he spent three years, leaving that boat to become second engineer of the "Curlew," a position he now holds. Mr. McKie is fortunate in having relatives in St. John, who will care for him during his illness.

Britain's Interests at Rio, London, Feb. 3.—The Clyde Association, owners of trading vessels, complain of Rosebery's refusal to hear them regarding affairs at Rio Janeiro. They say there are no British vessels there excepting one sailing since August 15 for a chance to sail. They want the British naval force increased and the same protection granted to them as the American gov't is affording its commerce. But Rosebery has instructed Chief Clerk Burtie to receive a deputation.

Shot Dead by her Lover. Boston, Feb. 3.—Walter Johnson, of Gloucester, went into a music school on Park St., and shot Carrie Andrews, aged 22, a former sweetheart of his. He then shot himself, and also cut his wrist with a razor, dying in a few minutes. The girl whom he shot, died. The other girls present fled from the room.

Jews Tried to Force St. Paul's. London, Feb. 3.—Two hundred and fifty unemployed Jews attempted to enter St. Paul's Cathedral. The police drove them back, using batons, and twelve Jews had to be sent to the hospital.

English Cabinet Division. London, Feb. 3.—The Tory journals say there is a split in the cabinet over the question of the continuance of the protectorate of Uganda. G. Goschen differing from the Foreign Secretary.

Sympathy for Vaillant. PARIS, Feb. 3.—The Prime Minister and the President of the Chamber of Deputies and the politicians support applicants for commutation of Vaillant's sentence.

Miners to Strike. GLASGOW, Feb. 3.—The owners of Scotch coal mines have refused to grant the miners' demands for an increase of pay, and a general strike is expected.

McShane Wants a Recount. MONTREAL, Feb. 3.—Ex-Mayor Jas. McShane has demanded a recount of the Mayorality vote. The majority now recorded against him is 176, not 79.

Trains Collide in Quebec. MONTREAL, Feb. 3.—Two Grand Trunk freight trains collided Friday at Warwick, Quebec. Conductor Thurston killed. The smash-up was a bad one.
