

It's a real fact—you can't put a square peg in a round hole; neither can you put a little man in a big place.

If you just thought once again, you would not add to the already overburdened anguish of your harsh judgment.

Lost The Mortgage Money, Kills Self And Then Children

(Canadian Press) NEW YORK, Feb. 12.—Because she lost \$100 her husband had given her to meet a mortgage payment on their home, Mrs. Martha Widauer, 34, killed herself and three children with gas yesterday. "Dear Oscar, I lost the mortgage money out of my purse some way. I have talked to the children. They all say they want to go with mother. Good by," read the note she left.

CHAMPIONED THE HONOR OF HIS HOUSE

Son of Resigned Spanish Dictator Is Principal In Spirited Fist Fight In Cafe.

(Canadian Press) MADRID, Feb. 12.—Miguel Primo De Rivera yesterday championed the honor of his house and of his father, the resigned dictator with his fists, seeking out General Quipio De Liano in one of the most fashionable cafes in Madrid, Miguel boxed his ears for having sent what he considered an insulting letter to his father. A fist fight followed, lasting until the manager of the cafe got the police. Both the fighters were arrested. The fight was the talk of the town and many persons expect it to lead to a duel.

MODERATOR OF PRESBYTERIAN CHURCH DEAD

Rev. David Perrie, Wingham, Ont., Passed Away After Lengthy Illness—Was Well Known.

TORONTO, Feb. 12.—For the third consecutive year the General Assembly of the Presbyterian Church in Canada finds itself without a Moderator. And this will be the third consecutive year when an ex-Moderator will preside at the inaugural session of the assembly—an event which happens only in the absence of the retiring moderator.

Four In One

(Special to The Guardian) TORONTO, Feb. 12.—Canada may be one nation politically, but to jewelry merchants with selling problems on their hands it is four separate countries, F. Walker of Montreal told delegates to the jewelry convention at the Royal York today. "First", he said, "there is Quebec. Then you have a separate people differing entirely in the Maritimes. In Ontario you have the country with the 90 percent American influence, while there is another country altogether out West."

NO QUESTION OF SCRAPPING BATTLESHIPS

No Proposals Made At Parley That Would Entail The Scrapping of Ship.

(Canadian Press) LONDON, Feb. 12.—Right Hon. A. V. Alexander, First Lord of the Admiralty, told questioners in the House of Commons this afternoon that there was no question of Great Britain scrapping any of her latest battleships. Premier Ramsay MacDonald also told a questioner later that no proposals had been made at the naval conference by any foreign delegation that would entail the scrapping of battleships of the Queen Elizabeth or Royal Sovereign classes.

U. S. Government To Enter Wheat Market As Buyer

(By George Hambleton, Canadian Staff Correspondent) LONDON, Feb. 12.—Moving slowly, like a big ship passing through a foggy channel, the naval conference is progressing. The "big five" have now got to the stage where they are putting down the total figures of their naval needs—the round figures in hundreds of thousands of tons of the total naval requirements of their countries. In full committee of the whole this afternoon, delegates discussed the report of the experts; a report which attempts to find a common agreement between the old rival ways of measuring and limiting naval armaments, one by lump tonnage for a whole navy, the other by limits of tonnage for each class of vessel, and the committee decided to forward this report on to the heads of the five delegations.

QUAKE DID NOT AFFECT THE FISHING

(Canadian Press) BOSTON, Mass., Feb. 12.—Captain Archie McLeod of the Gloucester fishing schooner, Catherine, which arrived here today from the Newfoundland Grand Banks with a catch of 35,000 pounds of halibut, said the earth disturbances of last November had not affected the fishing conditions there. The Catherine was the first of the 1930 halibut fleet to return from the Grand Banks. The earth disturbances had caused speculation regarding the possibility that the Banks had sunken.

Will Repeal Or Amend

(Canadian Press) LONDON, Feb. 12.—Despite their preoccupation with the naval conference, the Coal Mines Bill now in Parliament and such weighty matters, the Labor Cabinet has promised its trades union supporters that it will bring in a bill this session for the repeal or amendment of the Trades Disputes Act, passed by the Conservatives following the general strike of 1926. This act abolished the compulsory levy upon workers wages for membership in trade unions for political purposes. The House of Lords however, along with the Conservative Party, are determined opposed to any return to the compulsory levy, believing the members of the trades unions themselves are opposed to it.

Get Away With \$12,000 In Cash

(Special to the Guardian) NEWARK, Feb. 12.—Four unmasked bandits today held up a branch of the New Jersey National Bank and Trust Co. and escaped with from \$10,000 to \$12,000 in cash. A few minutes later the robbers' car with a fifth man at the wheel crashed into a taxi a mile and a half from the bank, but before their automobile had stopped slithering across the street the five bandits were out of the machine. Two of them disappeared in the crowd which collected, and two others, supporting a third, who apparently was unhurt, but too frightened to stand, halted another cab and as police later learned were driven to the Hudson tube station.

CONFERENCE PROGRESSING FAVOURABLY

Comparative Figures of Naval Personnel Tabled In Parliament.

(By George Hambleton, Canadian Staff Correspondent) LONDON, Feb. 12.—Moving slowly, like a big ship passing through a foggy channel, the naval conference is progressing. The "big five" have now got to the stage where they are putting down the total figures of their naval needs—the round figures in hundreds of thousands of tons of the total naval requirements of their countries. In full committee of the whole this afternoon, delegates discussed the report of the experts; a report which attempts to find a common agreement between the old rival ways of measuring and limiting naval armaments, one by lump tonnage for a whole navy, the other by limits of tonnage for each class of vessel, and the committee decided to forward this report on to the heads of the five delegations.

Will Take Seat

(Canadian Press) CITTAWA, Feb. 12.—Hon. W. R. Mowbray, Minister of Agriculture, will take his seat when the House opens, although not yet fully recovered from his recent serious illness. He will not take over the full duties of his department for the time being and may make a trip to the West Indies to further recuperate.

CANARIES ARE SAVED FROM DOOMED LINER

7,000 Feathered Passengers Chirp Happily When Being Brought To Safety.

(Special to The Guardian) NEW YORK, N. Y., Feb. 12.—Far down in number four hold, flames to the right and left of them, a kanority of 7,000 canaries lived through the fire that still swept the north German Lloyd liner Muenchen today. When firemen penetrated the hold today expecting to find the birds all dead, they were greeted by cheerful chirps. Water had seeped into the compartment, but there was no indication that the flames or smoke had reached the feathered passengers. The box cages containing the birds were quickly removed to the dock and bird seed and water supplied. A few faint wisps of smoke curling from the tilted superstructure were all that remained this afternoon of the fire. The seared and buckled plates of the once palatial Muenchen today formed the side as a great floating furnace in its persistent flames were completing the destruction which began yesterday with five terrific explosions in the inflammable cargo. Part of her bottom blown out by the blast, and her hold weighted with tons of water poured in by 50 lines of hose, the Muenchen's stern rested on the 30 foot bottom in the Hudson River. Her bow stuck out of the water and she listed dangerously against the pier structure. Another severe explosion was feared as the fire ate slowly toward the forward holds in which large quantities of nitrate of potash were stored.

HUGE CROPS

(Special to the Guardian) TORONTO, Feb. 12.—"In the five years preceding 1914, the average wheat production of the Western Canadian Prairies was about 200,000 bushels, the average for the past five years is 415,000,000 bushels," was a statement made by Gordon S. Dedlington of the Western Canada's Flour Mills, who addressed the Kiwanis Clubs at luncheon in the Royal York Hotel today. "If the 1923 crop of 535,000,000 bushels could be placed in rail-road cars and the cars all hitched together the line would stretch from Vancouver to Halifax."

Can Be Refitted

(Canadian Press) NEW YORK, N. Y., Feb. 12.—The North German Lloyd liner Muenchen, wrecked by a fire which swept through her palatial interior, after she docked yesterday from Bremen can be raised from the mud of the Hudson River and refitted, officials of the line today predicted.

Great Increase In Fox Shipments

2558 Silver Foxes Shipped To Foreign Countries In 1929 As Compared With 907 In 1928.

Table showing fox shipments to various countries in 1928 and 1929. Includes columns for 1928, 1929, and a total for 1929.

Sir Henry Scored In House of Lords

Remarks Attributed To C. N. R. President Re Unemployment Situation In England, Are Dealt With.

(Canadian Press Cable) LONDON, Feb. 12.—Remarks attributed to Sir Henry Thornton, President of the Canadian National Railways, published in a London evening newspaper Dec. 28, 1929, were discussed in the House of Lords today. Lord Monkswell asked whether the Government, in an endeavor to deal with the unemployment situation, had considered the words attributed to Sir Henry namely: "The present British system of managing railways in his (Sir Henry's) opinion caused inefficiency, insubordination and disloyalty and conditions on the railways could not be improved until this was altered." Lord Monkswell said he hoped the Government would express their views of what Sir Henry is reported to have said. Lord Newton said they were "getting familiar with the entertainment provided by Lord Monkswell at the expense of the railway companies."

Phonograph Company Sued By Dominicans

(Canadian Press) PARIS, Ont., Feb. 12.—"God and the devil must not be on the same phonograph record," the Superior of an order of the Dominicans declared here yesterday in an argument justifying an action he has begun against a phonograph company. The concern received authorization to make records of chants of the Dominican chapel choirs, but thinking to increase the chances of sale reproduced jazz music on the other sides of the records. Devout Catholics were shocked and the suit of the Dominicans demands damages and the impounding of the records.

EARTHQUAKE

(Canadian Press) WELLINGTON, N. Z., Feb. 12.—Scarcely a chimney remains standing tonight in Poranahau, Hawkes Bay, after an earthquake had shaken towns in the southern part of North Island. The shock was said to be the worst experienced in forty years, but no serious damage was reported elsewhere.

The Weather, etc

TORONTO, Feb. 12.—Maritime: Fresh northeast to northwest winds with snow, probably turning to rain towards night. Toronto, cloudy ... 36-24 Montreal, clear ... 10-02 Quebec, fair ... 10-06 below Charlottetown, fair ... 17-67 Halifax, clear ... 32-04 Saint John, clear ... 30-06 Boston, clear ... 34-23 New York, fair ... 34-23 High tide this morning at 11:28 and tonight at 10:50. Sun sets this afternoon at 5:27 and rises tomorrow morning at 7:02. Full moon Thursday, Feb. 13, 3:15 P. M. Summerside tide sixteen minutes later than Charlottetown.
