

PAYING RENT?

It may not always be easy to meet it when it comes due. It will be harder still for your widow. You can make it easy for her then if you take life insurance now.

Under the Maritime straight-cost plan premiums are remarkably low.

Minards Liniment for the gripe and flu

The Public Forum

This column is open for the discussion by correspondents of questions of interest. This Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

THE AIR SERVICE

Sir,—Is the airplane mail service as conducted worth the cost? As a rule the big worth-while daily papers come as usual by train and the plane carries only letters and a few small dailies. What great rush is there for these few letters? Most all important business nowadays is carried on by wire anyway. It looks to us that the value of this service is entirely over rated and of very little use to the average citizen. I am, sir, etc., WATKINSON

THE DOG NUISANCE

Sir,—As a number of citizens seem anxious to put on a "cleaning up" programme for the city, allow me to suggest that they include the "hound dog" nuisance. The Patriot referred to this on several occasions but seems to have gotten little support. As a matter of fact, one of the greatest distributors of filth in this city is the horde of useless dirty "hound dogs" that are allowed to roam as they like. From early morn until night these brutes are on the street yelping and chasing teams and cars and roaming over lawns and flower plots, etc., leaving their filth on door steps, verandahs, lawns and everywhere. Even milk bottles at doors do not escape their attention. Lovers of dogs have a right to keep them if they want to but they should be kept off the street and not be an annoyance as they are. People tell me that they have given up trying to have a nice flower plot owing to these brutes. All dogs found wandering about alone should be taken up and if the city authorities cannot remedy this nuisance some other way out will likely be tried. Some parts of this city should be named "hound dog alley." I am, sir, etc., CITIZEN

"FAINTING THE LILY"

Sir,—Among the news items emanating from the Federal House of Commons at Ottawa is the statement that the salaries of the Canadian Judiciary will, without doubt, be increased after the Easter recess. District and county court judges, who now enjoy a stipend of \$4,000 per annum, will be raised to the \$6,000 class and the superior or supreme court justices will be advanced correspondingly.

Surely there are many other and more sensible, serviceable ways of spending the public money than in adding to salaries that are proportionately high enough already. If the wild urge to spend cannot be checked at Ottawa, why not consider such matters as Public library donations, Federal teachers' grants, Federal support to vocational schools, Federal subsidy for development of provincial resources, A lower rate on federal old-age income insurance, More and better support to provincial housing commissions, Federal support to child welfare work, —and hundreds of other items that, relieving personal want, the cause of crime, would ultimately give our judges considerable benefit through a lessening of the demands on their time and reason. Two thousand dollars, some years ago, would have made me a doctor and, I believe, a good one; instead of the clerk that I am today. Two thousand dollars added to the salary of our petty judges, as I know them, is a waste of public money in greasing what is now already fat enough. I am, sir, etc., E. F. U.

ABOUT THAT BUS

Sir,—As the people are aware, we have had a ferry from Murray Harbor to Murray Harbor North for a number of years, and for the last twelve or fourteen years it has been conducted by Mr. Reynolds, an honest, upright and ever faithful servant of the public. Now, while Mr. Reynolds has been busy getting ready for the season of 1929, a member of the Liberal party has seen fit, either for personal or political reasons to get out a petition and canvass the surrounding districts for the purpose of getting a truck to run from Montague via Murray River to Murray Harbor North and Gaspereaux, in place of the ferry boat. On this petition we find it states that the ferry boat is condemned, or done, and it has always been the custom to have public ferry boats inspected by proper officials. Has this been the case with this boat? If so, by whom has she been condemned? The people here

Assured Comfort in Old Age

"The day of life spent in honest and benevolent labour comes in Hope to an evening calm and lovely . . ."

... NO MAN likes to face the prospect of a future unprovided for . . . FEW MEN will admit the possibility . . . but WISE MEN leave no stone unturned to make assurance doubly sure of comfort in old age.

The sound investment of his savings has become a primary consideration with every thinking man, together with his realization of the need for life insurance protection during his working years. These two essentials of Investment and Protection have been embodied by the Great-West Life in the

The Intimate Papers

—Continued from page 4—

could not be taken seriously. There followed the implication that with the overthrow of this group, the opportunity for peace might appear: The military masters under whom Germany is bleeding see very clearly to what point Fate has brought them. If they fell back, or are forced back an inch, their power both abroad and at home will fall to pieces like a house of cards. It is their power at home they are thinking about now more than their power abroad. It is that power which is trembling under their very feet; and deep fear has entered their hearts. They have but one chance to perpetuate their military power or even their controlling political influence. If they can secure peace now with the immense advantages that

they have up to this point apparently gained, they will have justified themselves before the German people what they promised to gain by it: a ple; they will have gained by force immense expansion of German power, an immense enlargement of German industrial and commercial opportunities. Their prestige will be secure, and with their prestige their political power. If they fail, their people will thrust them aside; a government accountable to the people themselves will be set up in Germany as it has been in England, in the United

States, in France, and in all the great countries of modern time except Germany. . . . If they succeed America will fall within the measure. We and all the rest of the world must remain armed, as they will remain, and must make ready for the next step in their aggression; if the fall, the world may unite for peace, and Germany may be of the union.

It is estimated that London will gain \$2,300,000 yearly for the five years from the new re-estab. bill.
