

W. C. T. U. NOTES

THE CALL OF THE NEW YEAR MEMORY GEM: Quit you like men, be strong, There's a God to bless the good with might— So fare ye forth with a song.

EDUCATION WEEK, 1939 FEB. 14 TO FEB. 21

(The W. C. T. U. is so enthusiastically unanimous that educational opportunities should be most available for every child and should be the best possible, that we gladly publish this reminder from the authorities in charge.)

In a world heartily sick of propaganda, a special campaign for one week might possibly be viewed with suspicion. CANADIAN EDUCATION WEEK is not just another publicity stunt. It is, rather, an attempt to acquaint the Canadian citizenship with its greatest responsibility.

Canadian Education Week is sponsored by the Canadian Teachers' Federation and is entering its fifth year of Dominion-wide celebration next February. Since its inception, it has had the support of provincial Departments of Education, of school inspectors, of school trustees, and of innumerable organizations which are interested in the welfare of the children.

Education Week in Canada aims to establish, among the citizens of this land, an intelligent and informed awareness of the problems of education in a democratic country.

But Thirp was strangely discouraging. She had met Thirp for the first time and she found him antipathetic. He was so much more feminine in an elderly sort of way than she had ever known.

And it suddenly entered into the mind of the perfect woman that she had better not.

And that is also the reason why the campaign week has always begun and ended on a Sunday. More and more are religious leaders taking that opportunity to stress the essential unity of religious and secular education by means of special services on either of these two Sundays.

The news is also an opportunity to local newspapers to publish supplements or special articles on education. Last year, a check-up system by no means perfect, revealed that at least 400 columns of space were devoted to education by Ontario papers during Education Week.

It is inevitable that many of these articles and addresses should emphasize reforms and ideas about education that are officially supported by teachers' organizations.

1. Increased Federal and Provincial grants to schools, in order to relieve the municipalities and to remove inequalities between province and province, and between one municipality and another.

2. Provision of scholarships, travelling allowances, and living expenses for brilliant but needy students, to enable them to complete their education.

3. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

4. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

5. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

6. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

7. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

8. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

9. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

THIRPY TERROR!

Story of a World Dictator

By H. C. WELLS Copyright 1938 by The North American Newspaper Alliance, Inc.

human being I have ever known entirely free from any complex. He went straight to his point whatever it was, like an arrow.

"He was a strange, thoughtful boy," said Mrs. Whitlow, when at last the woman interviewer had got past Aunt Julia. "I would wonder if I would ask myself—what is he brooding about? He was aloof among his playmates, communing with himself. His soul was like a star and dwelt apart. Sometimes he would ask questions that puzzled even me to answer. When he was still only a little fellow of five or six."

"The woman interviewer's thoughts averted toward another mother in ancient Nazareth. She wondered if in this case there had been any sort of Annunciation. But that was difficult to ask. "You felt he was a child of Destiny?" she asked.

"He had that something," said Mrs. Whitlow. "I puzzled his poor Father," said Mrs. Whitlow. "His Father never understood him."

"Mother fixation," said the woman interviewer. "They say he has never cared for any woman but you."

"He's had so much to think about," said Mrs. Whitlow, modestly. "It occurred to Rud, when he read that it would be a natural and popular thing for her to visit him. He had hardly given her a thought for years. A mother fixation, that would be a bad thing to have. And it might be still more gracious to entertain Alf and Sam."

"And for a span of faithful years the rational thought of nearly a century of ineffective years was being given a scientific form and a scientific application. It was a process parallel to that discursive multiplication of ideas about electricity that went on before the eighties of the nineteenth century and the onset of the electrical age that followed.

"The woman interviewer made a great scoop by discovering the religious and secular education by means of special services on either of these two Sundays.

"Never did I know anyone so simple, so direct-minded as Rudolf," said old Aunt Julia. "I was always something enchanting about him. A naturalness, a straightforwardness. I should say he is the one simple that have been at all vocal on the subject. He has been advocating for several years.

1. Increased Federal and Provincial grants to schools, in order to relieve the municipalities and to remove inequalities between province and province, and between one municipality and another.

2. Provision of scholarships, travelling allowances, and living expenses for brilliant but needy students, to enable them to complete their education.

3. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

4. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

5. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

6. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

9. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

10. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

11. Larger administrative units for the control of education—to reduce administrative costs, to improve the personnel of both teaching and non-teaching staffs, and to make possible schools with modern equipment and a full variety of courses in every section of the land.

The WEEK at S. D. U.

St. Thomas Debating Society held another session of the Mock Parliament on Wednesday. The sitting opened with the Hon. Leon Leclerc giving notice of a discussion on the Quebec "Padlock Law".

The losing team, Leo Polzer was the five-minute speaker. The critic was Alan MacMillan.

Senior Hockey: Charlottetown senior Rangers triumphed over the Saints in a fast hockey game at the Forum on Tuesday night. The score, 4-1, does not fairly indicate the quality of the play.

About twenty-five fishermen have registered in the Extension Short Course that is being given at the College.

St. John's Debating Society debated the benefits of "Fascist Dictatorships." Joe Chisholm, John MacNeill and Arthur Griffiths convinced the judge that such forms of government were not in the best interests of present day civilization.

Basketball: The basketball team suffered a 26-20 defeat by the Saints in the Holy Name gymnasium on Saturday last. The Saints handled the ball well, but erratic shooting by the forwards kept down their score.

Intramural Hockey: Fast skating, skilful poke-checking and erratic shooting have been characteristic of the seven games already played in the intramural league this season. How well the teams are matched may be seen from the fact that of the seven games played, four have ended in a tie.

Mrs. Philip McInnis, Lorne Valley, left Tuesday morning on a short business trip to Camp Hill, N.S.

Mrs. Angus McLeod, Lorne Valley, and little daughter were visitors to Montague Tuesday evening by train.

Mrs. Owen Kelley, Pisiquid, spent the past week visiting with her brother, Mr. J. T. Corcoran, Cardigan Head.

Mrs. John Corcoran, and Mr. Martin Corcoran, were visitors to Summersville on Sunday.

The Weekly Study Group meeting was held at the home of Mrs. Hannah Goodwin, Baldwin's Road, on Tuesday evening with the regular attendance.

The many friends of Mrs. Charles Curran Baldwin's Road, are glad to know that she is improving nicely after her serious illness. She is a patient in the City Hospital.

Miss Annie McAree returned to her home in St. Thomas on Saturday evening having spent the past three months visiting friends and relatives in Boston and other parts of U.S.A.

A very enjoyable evening was spent in Cardigan Hall when a dance was held on Friday in aid of Cardigan Head School. There was a large attendance and a nice sum of money was realized. Lunches were sold and hot coffee served by the ladies. Music for the evening was furnished by Webster's Orchestra.

On Thursday evening the members of the Lorne Valley Women's Institute held a dance in Lorne Valley Hall. There was a fair attendance despite the very cold weather, and a pleasant evening was spent by all. Music was furnished by the community band. During the evening lunches were sold and hot tea served by the ladies.

Mr. Chester McQuaid, Baldwin's Road, was a visitor to Montague on Tuesday—C.

Mr. Stephen Malone, City, was a visitor to 48 Road on Sunday.

Mr. Stanley McLeod, Uxar, was a visitor to Cardigan Head on Tuesday.

Mrs. Owen Kelley, Pisiquid, spent the past week visiting with her brother, Mr. J. T. Corcoran, Cardigan Head.

Mrs. John Corcoran, and Mr. Martin Corcoran, were visitors to Summersville on Sunday.
